Southwest.

n this manner, the owners of the Noche Buena are now sure that they own the famous old mine of that name and have changed the name of the company to the "Mina Marquesa Minal Mining Company."

The late strike at Cananea did not affect the America mine, which is about two miles from that camp. Development work was continued though nothing was going on, and the day when the trouble was at its worst a new body of ore was found, the extent of which, however, has not been determined.

The 200 men employed at the Old Cobre mine, which is in the Cananea camp, were forced to go out when the strike took place, but returned to work as soon as possible. They were out over two days, and the time which is rapidly approaching the producing stage, did not suffer from the enforced two days' rest.

COPPER MOVEMENTS.

Exports Decline Heavily While Imports Increase—Mexican Shipments Show Falling Off.

For the first ten months of the year to end June 30, the exports of copper from the United States show a decrease from corresponding period a year ago of 104,020,173 pounds, as compared with an increase in the

CASSATT REPLIES.

Pennsylvania Quiz Is Thorough.

President of Company Denies Taking Advantage of His Position.

Claims He Owns no Stock in Coal Concerns Which Use the System.

Declares He Never Had Any Interest in Firm of Cassatt and Company.

[BY THE ASSOCIATED PRESS—P.M.]

PHILADELPHIA, June 10.—The special investigating committee appointed by the Board of Directors of the Pennsylvania Railroad Company and acting for all the lines of the Pennsylvania system tonight made public the answers of President Cassatt to the questions propounded by the committee in one of its circulars sent to all officers and thousands of employés of the various lines.

Mr. Cassatt in reply to the query as to whether he has any interest in any coal company or other enterprise located on the company's lines since January 1, 1900, says:

"I do not at present own any stock in any coal company whose mines are located on, or whose coal is shipped over the lines of the Pennsylvania Railroad system.

"Until December 31, last, I owned 160 of the 4000 shares of the Millwood Coal and Coke Company (par value $10,) a stock which I subscribed for when the company was formed about 1872 and paid for at the subscription price which to the best of my recollection was par. There is no market for this stock as it only paid dividends at irregular intervals, but last fall an offer was made for all the stock by the owners of the adjoining land and my stock was sold with the rest.

OWNS SWITCH STOCK.

"I own 333 of the 5000 shares of the common stock of the Union Switch and Signal Company (par $50) which I purchased about 1884 at the then market price, which as nearly as I can recollect was $25 a share.

"I own forty-five of the 2500 shares of stock of the United States Metallic Packing Company (par $100) which I bought about 1886 at the then market price, which, I think, was about $50 a share.

"I own 2296 of the 165,000 shares of the preferred stock of the Pennsylvania Steel Company (par $100.) This stock I purchased at various times, my first purchase having been made in October, 1891, some months after the acquisition by the Pennsylvania Company of a majority of the shares of the capital stock of the Pennsylvania Steel Company. My last purchase was made on the ninth day of May of this year. The average price paid by me was $97.79.

PROFIT IN STEEL SHARES.

"I own 2000 of the 40,000 shares of stock of the Cambria Steel Company (par $20) which I purchased at a cost of $3 a share on the second day of May, 1906. The shares replaced 1600 shares of other stock of the said company all of which were bought by me after the Pennsylvania Company had acquired a majority of the shares of the Cambria Steel Company but which it had subsequently sold."

Mr. Cassatt said he had not directly performed any services in connection with the receipt, transportation or delivery of any freight shipped by or consigned to any of the companies above named.

He declared he had not performed any duties in connection with the distribution or allotment of cars or the furnishing of siding, equipment, motive power, dockage or other accommodations for any of the companies named.

President Cassatt says he never has received any commission, compensation, gift or gratuity of any kind from any shipper on the Pennsylvania's lines or from any of the five companies he mentions in his first answer.

INDIRECT INTEREST.

In reply to the question as to whether he is pecuniarily interested in any corporation, association or individual doing work for or furnishing materials or supplies to the Pennsylvania system, he says that the five companies mentioned in his first answer make sales to the Pennsylvania Railroad Company and with the exception of these companies he is not interested or concerned in corporations or individuals referred to in the query.

He says he has not performed and is not performing any service in connection with work done for, or the purchase or receipt of materials, or supplies by the Pennsylvania Railroad system, excepting that he has, in accordance with established custom purchased the steel rails for the entire system. These purchases are reported to the Board of Directors for their approval.

After concluding his answers, President Cassatt makes the following statement to the special committee:

NO SHARE IN "CASSATT & CO."

"You will observe that the only coal stock owned by me since becoming president of the Pennsylvania Railroad Company is 160 shares of the Millwood Coal and Coke Company, which stock has been sold, but in view of the reputed rumors of my being a holder of stocks of the Keystone Coal and Coke Company, the Berwynd-White Coal Mining Company and the Henrietta Coal Company, and of my being interested in the firm of Cassatt & Co., I think it proper to state that I never owned or had any interest in the stocks of the Keystone Coal and Coke Company or of the Henrietta Coal Company, nor have I ever had any interest in the firm of Cassatt & Co.

"I never owned any stock of the Berwynd-White Mining Company, while an officer of the Pennsylvania Railroad Company either during my former connection with the company, which terminated by my resignation of the vice-presidency in the fall of 1882, or since I became president in 1899; but when in 1886 Charles J. Berwynd, then head of the partnership of Berwynd, White & Co., formed the present Berwynd-White Coal Mining combine to take over the business of that firm I purchased 400 shares of the stock of the company and paid for it at the then market price, which was 25 per cent. of its par value. I sold this stock in 1891.

"You will observe that it was purchased four years after I ceased to be an officer of the company and was sold eight years before I was elected to the presidency. I never had any interest in the partnership of Berwynd, White & Co.

FOG LIFTS FOR LONGWORTHS.

THE FIRST GLIMPSE OF LONDON PLEASES TRAVELERS.

Couple Is Welcomed by Members of the American Colony, and a Family Dinner Is Thoroughly Enjoyed at Ambassador Reid's Palatial Residence.

[BY THE ASSOCIATED PRESS—P.M.]

LONDON, June 10.—After a voyage which both declared to be the most pleasant in their experience, Mr. and Mrs. Nicholas Longworth reached London early this afternoon having journeyed from Southampton, where they debarked from the American line steamer St. Louis in a beautifully appointed carriage attached to the American line special on the London & Southwestern Railroad.

The weather was ideal and the country traversed by the train on the short trip to London was looking its best, so that their first impression of England, where they will spend the first fortnight of their European outing, was most favorable.

Only a short stop was made in Southampton. The Mayor and the American Consul there, Mr. Swalm, were the first to greet the travelers on this soil.

On arriving in London Mr. and Mrs. Longworth were met by Ambassador Reid and the members of the embassy staff; Mr. and Mrs. Reid, Mr. and Mrs. Carter and Mrs. Gibbons, wife of the naval attaché. At the entrance to the station several hundred Americans living in London had gathered to welcome the couple. Mr. and Mrs. Longworth will be the guests of the Ambassador and his wife at Dorchester House while in London.

This afternoon was spent in resting. In the evening there was a family dinner which was attended by the members of the embassy staff.

RIOTING AT ERAVAN.

TIFLIS, June 10.—A brawl today between Armenians and Mussuimen at Eravan led to serious rioting and the troops were called out to suppress the disorders. Eleven Armenians and two Mussuimen were killed and sixteen wounded.

CITIZENS DYNAMITE ALLEGED BLIND PIG.

[BY DIRECT WIRE TO THE TIMES.]

BROOKLYN (Ind.) June 10.—[Exclusive Dispatch.] The grocery store of Patrick Thornberry was blown to atoms by dynamite at an early hour this morning, and adjacent buildings were partially wrecked by the force of the explosion. For the distance of a hundred feet, not a pane of glass was left in the houses.

It has been suspected for some time that Thornberry was running a "blind pig," and on Thursday, it was charged, two boys purchased liquor at his store.

His government license for the sale of liquor was blown into the street by the explosion and his stock of groceries was scattered over the adjacent houses. Public sentiment is with the dynamiter and no effort is being made to find the perpetrator of the deed. One old woman remarked as she looked on the ruins that she would like to know the man that did it, as she wanted to pat him on the back.

DAY HITS RAKERS.

Scores President's Methods.

In Baccalaureate Sermon the Chancellor Defends the Beef Trust.

Says Capitalists Are Not Necessarily Buccaneers and Marauders.

Scandal Mongers Run Riot and Foul Harpies Create Bad Conditions.

[BY DIRECT WIRE TO THE TIMES.]

SYRACUSE (N. Y.) June 10.—[Exclusive Dispatch.] Chancellor James R. Day made an attack on the muck rakers, defended the beef trust and scored the President in his baccalaureate sermon before the

CHANCELLOR JAMES R. DAY, Who thinks there is "anarchism in the White House."

graduating class of Syracuse University.

His thrusts at the President in the Standard Oil fight were recalled when he said:

"It is to be hoped that we are not so dazed and daft by an office that has grown great with our greatness that it may be permitted to set aside courts, Senates and Congresses.

"Surely it must not be assumed that the hundreds of thousands of men of this country," said the Chancellor "who represent its billions of investments and its corporate commerce are traitors to mankind upon whom war of extermination must be made. They are not buccaneers and marauders.

ON DOWNWARD PATH.

"If we cannot govern ourselves intelligently by our representatives our government will follow the slippery downward path of all oligarchies. Men who represent us in the judiciary and in legislative halls must be protected by public sentiment, in absolute independence of their representative character which is secured to tell by law, accountable to no one except to those who have sent them to be their representatives, and they must be protected in disagreement some times with the Executive and those whom they represent.

Today threats are muttered against a Congressman of this State and men of other States because they refuse to hand over their representative responsibility from the people to the administration.

"If it be thought by some of you that conditions do not justify our fears, I refer you to the threatened and openly threatened fate of Congressmen who have dared to be true and brave in their representative character. Why should our Senators be forced beyond their own convictions in a given case?

"Recently pressure was brought by a message, the purpose of which the Senators instantly understood, and which evidently was intended to appeal to long prepared prejudices of the people. Is this the method of legislation to which this great nation has descended?

"Is this new way the best way to make our laws?

WORDS OF DEMAGOGUE.

"Every man must set himself against this class and mass spirit. They are the words of the demagogue.

"We have fallen into a scandalmongering epoch. The foul harpies of slander have created a condition and all of the civilized world is nauseated at the thought of us. It has cost us tens of millions of money and the respect of mankind.

"The scandalmonger who drags the people through slaughter houses to exhibit in loathesome forms the food of their tables by exaggerations and Munchausen stories of things that always must be offensive at best, are mistaken agitators and especially dangerous to us as a people at this time.

"Committees are sent out to bring back shocking things, and if they come back without them others are sent with more sensitive olefactories. Those whose judicial temperament unfit them for hysteria are threatened with dismissal or branded as remiss in duty. The people who wait for both sides of the case are tools of trusts.

"How long can a nation endure such a condition of things?

"They threaten the stability of all forms of business and create universal distrust."

LOS ANGELES WOMAN KILLED.

Mrs. J. J. Knowles Is Victim of Disastrous Storm Which Visits Dewey, I. T.

[BY THE ASSOCIATED PRESS—P.M.]

DEWEY (I. T.) June 1.—A tornado here last night demolished several residences and wrecked 200 oil derricks, causing a loss of $50,000. In the destruction of the home of Charles Ishelman, Mrs. J. J. Knowles of Los Angeles, Cal., was killed and her daughter, Mrs. Ishelman was seriously injured.

WANTS SUBWAY FOR TRUCKING.

NEW YORK TUNNEL BUILDER SUGGESTS INNOVATION.

Says Surface of Streets Should Be Kept Free for Pedestrians While Delivering Is Done Underground. Paris Will Install Subway System for Walking to Relieve Congestion.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 10.—[Exclusive Dispatch.] Paris having just granted rights to construct a pedestrians' subway to relieve surface traffic congestion, G. S. Rice, engineer of the Rapid Transit Commission, has expressed favor for them in Manhattan, saying:

"We tried, especially in connection with our Fourteenth-street extension, to get the shops and hotels which would have been affected to undertake a pedestrian subway alongside. Duncan McBean, who built the Harlem River tunnel for the subway, declared today that Manhattan Island would have to come to the consideration of a plan for putting all trucking and freighting, as well as long-haul passenger transit underground.

"My idea is that the surface of Manhattan streets, growing constantly more crowded, should be kept for persons on their personal errands," he said. "All trucking, expressing, delivering and freighting of merchandise should be conducted underground. Shops and stores should load their wagons in a subcellar from which delivery should be made through subways by automobiles.

"This would alleviate the auto danger. Down below there they would have only horse or automobile trucks to contend with. The trucking of the future will be by automobile truck-walkers and the carriage people would be on the surface out of the way."

LIVES WITH STABBED HEART.

Pulsating Organ of Wounded Man Held in Surgeon's Hand While Being Sewed.

[BY DIRECT WIRE TO THE TIMES.]

PHILADELPHIA, June 10.—[Exclusive Dispatch.] For twenty minutes the pulsating heart of William Wyatt, who had been stabbed, was held in the hands of two physicians in the Pennsylvania Hospital last night, while Dr. Richard Hart sewed six inches in the organ and then replaced it in the man's body.

Wyatt, who at first was thought to be fatally injured, was reported to be resting comfortably today, and the physicians believe the operation was successful.

It was the third time such a delicate operation had been performed in this city. Dr. Hart made a long incision in the left side, sufficient to lift out the pulsating heart and place it in the palms of two assistants. When the operation was concluded the heart was put back in place and the external wound sewed up.

MINISTER ATTACKS CARNEGIE.

In Baccalaureate Sermon at Notre Dame, Toledo Divide Uses Vigorous Terms.

[BY DIRECT WIRE TO THE TIMES.]

NOTRE DAME (Ind.) June 10.—[Exclusive Dispatch.] Rev. John T. O'Connell of Toledo, in delivering the baccalaureate sermon for the University of Notre Dame today, made a powerful, though veiled, attack on Andrew Carnegie and John D. Rockefeller. Charity and munificence in giving, he contended, could not right the wrong of dishonestly amassing wealth. He unmistakably referred to Mr. Carnegie when he declared "the crime was not in dying rich, but living a life of fraud, of oppression of the poor, of heaping up a vengeance not all the goods of the gods of the world can turn aside."

LAWSON ORIGINAL MUCK-RAKER.

Says Multi-Millionaires Will Be Scarce in Another Two Years at the Present Rate.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, June 10.—[Exclusive Dispatch.] Thomas W. Lawson, who claims to be the "original muck raker," says in answer to the question, "What have you accomplished by it all?" that he has accomplished a great deal by his "Frenzied Finance" and other so-called "muck rake" articles.

"Two years ago the eighty millions of people in this country, dumb driven like cattle, were shrinking murmurless under the lash.

"Today they are trampling under foot and rending limb from limb the fiendish cowpunchers of the 'system's' cast ranches, to the merry melody 'We'll be men, not monkeys.'

BENSON ACCEPTS TOGA.

Iowa Judge Starts for Washington to Assume Duties of Ex-Senator Burton.

[BY THE ASSOCIATED PRESS—P.M.]

OTTAWA (Kan.) June 10.—Judge Alfred Watson Benson of this city, who yesterday was offered the appointment of United States Senator to succeed Joseph R. Burton, stated today that he would accept the position. He will officially notify Gov. Hoch tomorrow of his acceptance. Judge Benson expects to start for Washington tomorrow.

WOULD RETAIN SEAT.

[BY THE ASSOCIATED PRESS—P.M.]

TOPEKA (Kan.) June 10.—In an interview at Ottawa today Judge Benson said: "I do not see why I should not admit at this time that I have decided to accept Gov. Hoch's offer. I shall go to Topeka tomorrow morning and formally inform Gov. Hoch that I accept the appointment. I presume that I shall be a candidate for reelection to the Senate before the State Legislature next winter.

"My inclination is to ask the people to send me back if my services are satisfactory. The whole thing comes as a surprise to me as I had never for a moment considered my appointment to the Senate a possibility."

After formally accepting the appointment Mr. Benson will leave for Washington this week to take up his seat in the Senate.

FOUR INJURED IN AUTO WRECK.

CHICAGO MACHINE BLOWN OVER WHEN TIRE BURSTS.

Mrs. Henry Pinger and Two Daughters, While Coasting Down Sheridan Drive With the Chauffeur, Are Thrown Forty Feet and Receive Severe Injuries.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, June 10.—[Exclusive Dispatch.] Mrs. Henry Pinger, her daughters, Miss Margaret and Miss Alvin, and Walter Steffins, chauffeur, received injuries that probably will have a fatal termination, when they were thrown from an automobile as they passed through Winnetka on Sheridan Drive this afternoon.

They had reached Scott Hill and were speeding down the sharp incline when there came a loud report. One of the rear tires had burst. A moment later the automobile was clear of the earth and turned completely over twice before it struck the ground a wreck. The women and the chauffeur were thrown nearly forty feet and when assistance reached them they were unconscious.

Miss Margaret Pinger is secretary for L. F. Swift, head of the packing firm of Swift & Co. The machine belonged to him. It was a Stanley steamer driven by Mr. Swift's chauffeur.

The injured were taken to the Evanston Hospital after the accident and the physicians in charge late tonight said the condition of all was serious, while the chances for recovery of Mrs. Pinger and the chauffeur were very slim.

One of the pathetic features of the accident was the fact the father of the girls died only a week ago.

The accident is the most serious of the automobiling season and one of the worst in the history of the sport in this vicinity. It occurred in full view of the occupants of scores of other machines as the ideal weather had driven crowds to the popular North Shore drive.

The accident caused something of a panic, but the awestruck automobilists quickly regained their presence of mind and hurried to the assistance of the three women and their chauffeur.

STEAMER REPORTED AGROUND.

HALIFAX (N. S.) June 10.—The Marconi wireless station at Cape Sable, N. S., reports a steamer ashore on the Ledge.

FISHES GO ON SPREE.

Thousands of Gallons of Liquor Pour Into Creek from Kentucky Distillery.

[BY DIRECT WIRE TO THE TIMES.]

FRANKFORT (Ky.) June 10.—[Exclusive Dispatch.] Since early morning farmers along the banks of Benson Creek have been gathering in baskets and catching with their hands thousands of live fish that were rendered temporarily hors du combat by the breaking of the flake stand at the Fitzgerald distillery.

More than thirteen thousand gallons of pure whisky were turned into the stream, and as a result of this accident the fish were made drunk. In droves they came to the surface of the water, sported around and cut most fantastic capers.

They seemed to be about three sheets in the wind and generally disported themselves in most unfinny-like manner.

The distillery will lose about $25,000, in addition to being forced to shut down for repairs. It is said enough fish were taken to supply the whole community for weeks.

LEAVE IT TO VOTE.

Amendment Up For Los Angeles.

Senator Pendleton Introduces Measure to Rule Future Annexations.

Allows Outlying Towns to Express View on Joining With This City.

Presented in Lieu of the One Which the Committee of Forty Framed.

[BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, June 10.—[Exclusive Dispatch.] Senator Pendleton of Los Angeles has introduced a constitutional amendment into the Senate providing for the submission to the people of a proposition to consolidate Los Angeles city and county.

Pendleton himself did not seem to know much about the amendment. He said he had obtained it from Senator Hahn, and Hahn said he got it hot from the hands of Tirey L. Ford.

Mr. Ford explained that the amendment had been prepared for the Committee of Forty at the time it was proposed to include the subject of Los Angeles consolidation in the Governor's proclamation. As that project failed, he thought the measure should be turned over to the Southland delegation for whatever use they might choose to make of it.

The measure introduced by Pendleton merely provides for obtaining a vote of the people of Los Angeles and the outlying towns they propose to take in. This vote must be had whenever one-eighth of the voters of any such town petition the Supervisors.

The provision which has generated all the opposition to the consolidation of Long Beach, Santa Monica and other towns is disclosed by the following provision:

CONSOLIDATION PROVISION.

"Immediately upon the completion of the canvass, said Board of Supervisors shall cause a record thereof to be made and entered upon its minutes, showing the whole number of ballots cast within such territory, the number cast in favor of merger and consolidation, and the number thereof cast against merger and consolidation, and if it shall appear from such canvass that a majority of all the ballots cast within said territory are in favor of merger and consolidation, the clerk or other officer promptly make and certify under the seal of said county and transmit to the Secretary of State a copy of said record, so entered upon said minutes, together with a statement showing the date of said election and the time and result of said canvass, which documents shall be filed by the Secretary of State immediately upon receipt thereof."

WOMEN WEAR BADGE OF LAW.

NEW YORK SHERIFF NAMES FEMININE DEPUTIES.

Two Sworn in to Enforce Statutes and There Is Consternation Among Motorists and Others Who Are Not Always Good—Will Attend to Destitute Boys and Girls.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 10.—[Exclusive Dispatch.] When it was announced last week that Sheriff Merritt of Westchester county had appointed two young women as deputy sheriffs, there was consternation among motorists and others who sometimes violate the law.

"How humiliating," said some automobilists, "to be taken to court by a deputy sheriff in a lingeried frock and a picture hat."

"As for mobs," declared another, "what could a mob do against a band of women deputies? If the girls made up their minds to disperse 'em, the mob would have to go right home."

But the new deputies do not, as a general thing, expect to assist in the apprehension of violators of the law. The two young women are Miss Jessie Long of White Plains, daughter of E. B. Long, superintendent of the poor of Westchester county, and Miss Agnes Kennedy of Peeksville.

Both were sworn in on June 1 and received the regular special deputy sheriffs' badge.

According to Miss Kennedy it is the little orphan and destitute boys and girls of Westchester county who have to look out for the new deputies.

BRITISH SHIP'S CARGO AFIRE.

LONDON, June 10.—The British ship Walden Abbey, Capt. Campbell, from London, bound for San Francisco, was spoken on May 12, in latitude 29, north and longitude 19 west, with her cargo afire.

WASHINGTON.

FORAKER WILL GIVE BATTLE.

Prepares to Fight Agreement to Statehood Report.

Majority Report in the Smoot Case Begins Week.

Many Important Matters on Congress' Programme.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, June 10.—The conference report on the Statehood Bill will be taken up in the United States Senate on Tuesday and much interest is felt in the subject.

The report will probably be called up by Senator Beveridge, in charge of the report, but Senator Foraker has given notice that if the friends of the report do not move in that direction he will do so.

No opposition to consideration is anticipated but there is prospect of animated discussion of the report on its merits and undoubtedly considerable time will be required for the determination of the question. Senator Foraker will lead a fight to prevent agreeing to the committee's report.

The business of the week will begin Monday with the presentation of the majority report of the committee on privileges and elections in the case of Senator Smoot but the further consideration of that report will be deferred for a time and the Senate will continue the consideration of the appropriation bills.

PANAMA BILL TO BE PRESSED.

The Panama sea-level canal bill also will be discussed during the week as opportunity offers and it will be pressed to a vote as speedily as possible.

It is not expected that the report on the railroad rate bill will again reach the Senate in time for further discussion this week.

There are many subjects of important legislation crowding for consideration in the House this week. The sundry civil appropriation bill still has the right of way and if uninterrupted will be passed by Thursday.

As efforts to have the Senate change its motion respecting the railroad bill have failed and this measure will have to be considered in the House before a second conference can be had, it is planned to make this the first business, Monday.

MILLIONS FOR BUILDING.

The omnibus public building bill, carrying authorizations for public buildings aggregating more than $20,000,000, is to be brought in and passed under a special rule as soon as the sundry civil bills are sent to the Senate.

One of the early actions of the week will be the consideration of the agricultural bill with its meat-inspection amendment attachment. The plan is to get this bill into conference at the earliest possible moment.

The Statehood conference report likewise, which is to be taken up by the Senate, will furnish business for the House as soon as sent over.

The Interstate Commerce Commission will continue its investigation of the methods of the coal-carrying and oil-carrying railroads, holding a session in Washington on Monday, in Philadelphia on Tuesday and in Cleveland on Thursday.

If the investigation at Philadelphia has not been concluded by Thursday only a portion of the commission will go to Cleveland.

BRITISH TEACHERS COMING.

Large Party Will Tour America at the Suggestion of Philanthropist Mosely.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, June 10.—[Exclusive Dispatch.] A London special cable tonight states that Alfred Mosely, the millionaire British philanthropist, who brought the Mosely Educational Commission to America in 1904, has persuaded the British government to send a party of five hundred elementary teachers to the United States and Canada this summer.

They will spend six weeks touring the two countries, visiting the larger cities and studying American educational methods. Expenses of the expedition will probably be met by a public subscription, headed by Mr. Mosely himself.

The controversy in London over the educational bill now pending in Parliament, which places the schools directly under local government boards of control, which is being fought by officials of the church of England, has aroused the greatest interest in the educational methods in vogue on this side.

MONTANA IS DELAYED.

Railroads and Ranchmen Suffer Great Inconveniences from Incessant Rains and Floods.

[BY DIRECT WIRE TO THE TIMES.]

HELENA (Mont.) June 10.—[Exclusive Dispatch.] Never before have Montana railroads and ranchmen suffered so from high waters. It has rained almost incessantly in Northern and Eastern Montana for two weeks, with the result that the railroads entering the State from the East are completely tied up, and in addition have been hampered by landslides and the washing out of bridges.

Several trains have gone into ditches, but so far as known there have been no fatalities. Several towns in Northern Montana, including Harlem, a thriving little city, are flooded, the water being several feet deep in its streets.

A cloudburst near Miles City has caused a stoppage of traffic on the Northern Pacific.

Rains continued today in Northern Montana.

THOUSANDS VISIT BASILICA.

Pope Pius Goes to St. Peter's for the Beatification of Bonaventura.

[BY THE ASSOCIATED PRESS—P.M.]

ROME, June 10.—Pope Pius went to St. Peter's today for the beatification of the venerable Bonaventura of Barcelona.

Thousands of persons were admitted to the Basilica, on tickets. There was some fear for the safety of the Pope, a rumor having been spread that three French anarchists intended to make an attempt on his life.

The police took energetic measures to see that there was no breach of the peace and the ceremony passed off with no untoward incidents.

SPANISH CABINET QUALIFIES.

MADRID, June 10.—The Cabinet as approved by the King includes Señor Moret as Premier and the Duke of Almodovar as Foreign Minister. The new ministers took the oath of office this afternoon, after which King Alfonso and Queen Victoria left in an automobile for La Granga Palace.

FOREMAN SAVES THIRTEEN.

Cool Head of Their Boss Gets Men Out of the Flooded Tunnel.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, June 10.—Following a blast of rock today in one of the tubes of the Battery tunnel, a "blowout" occurred that filled part of the bore with water and mud and nearly engulfed thirteen workmen.

The accident was in the south tube leading out from the Brooklyn side at the foot of Joralemon street, about 500 feet from shore. The tunnel is to form the connecting link between the subway systems of Manhattan and Brooklyn.

The coolness of a foreman saved the men. Armed with a pick handle he stopped a panic among them and marched them safely into the air lock. He closed the doors to stop the flood and finally brought all his men to the surface.

JAPANESE TRADE GROWS FAST.

EXPORTS FROM UNITED STATES TO JAPAN INCREASE.

Aggregate of Business Exchanged in 1905 Was $106,000,000, an Increase Over 1895 of Many Millions—Mikado's Realm Leads All Oriental Countries in Garter With America.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 10.—[Exclusive Dispatch.] Trade of the United States with Japan is larger than with any other oriental country, and aggregated in 1905 $106,000,000. The exports to Japan have grown from a little more than $5,000,000 in the calendar year 1895, to more than $55,000,000 in 1905, being more than ten times as great in 1905 as in 1895.

The imports from Japan also show a material increase, having been $37,500,000 in 1895, and nearly $51,000,000 in 1905. The gain in exports to Japan, comparing 1905 with 1895 is not quite so rapid as in those to China, but the growth in imports from Japan is much more rapid than in those from China.

In the period from 1895 to 1905, the exports to Japan increased $45,000,000, and those to China increased practically $55,000,000. During the same period imports from Japan increased $23,000,000, while those from China increased only about $6,000,000.

The growth in export from the United States, Japan and China has been a remarkable feature in America's export trade in the last decade. The increase in exports to Japan was in round numbers, $50,000,000, while during the same period the growth in exports to all South America was but $22,000,000; to all Africa but $10,000,000; to Oceania, including Hawaii, $30,000,000, and to all Asia except Japan and China, $12,000,000.

FRANZ JOSEF TALKS PEACE.

ADDRESSES DELEGATIONS ON FOREIGN RELATIONS.

Emperor of Austria Expresses Delight at Alliance With Germany and Compliments the President for Mediation Between Russia and Japan—Announces War Credits.

[BY THE ASSOCIATED PRESS—P.M.]

VIENNA, June 10.—Emperor Franz Josef today received the members of the Austrian and Hungarian delegations in formal audience at the Hofburg. Replying to the address of the presidents of the delegations, the Emperor in a speech thanked them for their loyal devotion.

The foreign relations of Austria and Hungary, he declared, were entirely friendly. After an expression of deep indignation at the attempted assassination of King Alfonso and Queen Victoria, the Emperor said that the alliance with Germany proves itself a valuable guarantee for peace.

He expressed satisfaction that peace had been declared by Russia and Japan, "thanks to the unselfish mediation of President Roosevelt," and for the settlement at Algeciras of the difficulty between Germany and France, over Morocco, "to which our mediatory action contributed not the least part."

Emperor Franz Josef announced that credits would be submitted for the purchase of arms and war materials and for the more speedy construction of warships and armament.

CARS IN HEAD-ON COLLISION.

Two Coaches Laden With Passengers Crash Together on Curve at Portland.

[BY THE ASSOCIATED PRESS—P.M.]

PORTLAND (Or.) June 10.—More than twenty persons were injured today, none dangerously, in a head-on collision between two loaded Woodlawn cars of the Portland Railway Company at the intersection of Union and Holladay avenues.

There is a considerable incline on Union avenue just beyond Holladay and on this the incoming car, which is supposed to continue on past Holladay, became uncontrollable.

The car, instead of continuing on its proper tracks, ran into an open switch at Holladay and with terrific speed whirled around the corner and into an out-going Woodlawn car, which had come to a stop before turning from Holladay into Union avenue.

Both cars were badly wrecked and hurried calls were sent for the police and ambulances. Eight passengers suffered sufficient injury to necessitate removal to the hospital.

MURDER AT MEXICAN DANCE.

Husband and His Wife's Lover Quarrel and the Latter Is Stabbed to Death.

[BY DIRECT WIRE TO THE TIMES.]

NEEDLES, June 10.—[Exclusive Dispatch.] Emetrio Saucedo was arrested here today and charged with the murder of Santos Garcia at a Mexican dance, about 2:30 o'clock this morning.

These dances heretofore have been comparatively quiet affairs, but last night's affair seemed to be a special occasion and was accompanied by plenty of intoxicating liquor.

It appears that Garcia has been paying attentions to Saucedo's wife. The men quarreled and Saucedo is alleged to have stabbed Garcia to death.

The Coroner's jury returned a verdict tonight charging Saucedo with murder.

NEW ZEALAND MINISTER DIES.

SYDNEY (N. S. W.) June 10.—Richard John Seddon, Prime Minister of New Zealand, died from heart failure this evening aboard the steamer Owstrey Grange, on which he had embarked this morning to return to New Zealand. The steamer put back into Sydney. Mr. Seddon was 61 years of age. Mr. Seddon's death was totally unexpected. He had been in Australia since the middle of May.

GREAT TEMPLE IS DEDICATED.

The Christian Scientists Hear Spirit Message.

Mrs. Eddy Congratulates Her Followers.

Thousands Gather in Back Bay End of Boston.

[BY THE ASSOCIATED PRESS—P.M.]

BOSTON, June 10.—One of the most remarkable religious demonstrations ever witnessed in New England occurred today when the new $1,000,000 Christian Science temple in the Back Bay district was dedicated.

From every State in the Union and from all parts of the world came people to be at the dedicatory services. It was estimated that more than 40,000 Christian Scientists were in the city today.

Six services were held to accommodate the vast throngs, but even then thousands were unable to gain admission to the temple. The seating capacity of the new edifice exceeds 5000, and at each service today hundreds stood in the aisles and in the rear of the church.

The services were identical and each about two hours in length. The occasion combined both the annual communion and the dedicatory exercises.

At the close of each service Edward A. Kimball of Chicago presented a reply of thanks to Mrs. Eddy for her dedicatory address and for her general work in behalf of the church. In her address referring especially to the dedication of the new temple, Mrs. Eddy wrote:

MRS. EDDY'S MESSAGE.

"Beloved, I am not with you in propria persona at this memorable dedication and communion season, but I am with you in spirit and in truth, lovingly thanking your generosity and fidelity and saying virtually what the prophets said:

"'I continue to choose whom ye will serve.'

"You have dexterously and wisely provided for the mother church of Christ, Scientist, a magnificent temple wherein to enter and pray. Greatly impressed and encouraged thereby, deeply do I thank you for this proof of your progress, unity and love.

"The edifice of the mother church of Christ, Scientist, began with the cross. Its extension is the crowning ultimate rise to a mental monument, a superstructure high above the works of men's hands, even the outcome of their hearts, giving to the material a special significance; the special beauty and achievements of good. Methinks this church is the one edifice on earth which most prefigures self-abnegation, where hope, faith, love catch a glimpse of glory."

The temple, which is entirely free from debt, is one of the most imposing structures in Boston and is said to be the largest church in New England. Christian Scientists all over the world have aided in its construction, which has occupied more than two years.

LARGE AUTO OVERTURNS.

Thirty-four Christian Scientists were injured through the overturning of a large sightseeing automobile in the Brighton district today. Every person on the car received injuries.

The automobile was descending Commonwealth Hill, when the brake broke and the machine ran away down the steep grade. At the bottom of the hill the car tore through a fence and overturned. Most of the party sustained nothing more serious than bruises and scratches.

ITALIANS HELD BY CORONER.

May Clear Up Mystery of Murder in New York of Mrs. Alice Kinnan.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, June 10.—Four Italians were arrested heer today and remanded to the Coroner until the story told by one of them, which tends to offer a solution of the mysterious murder of Mrs. Alice Kinnan, in the Bronx Friday night, can be more thoroughly investigated.

Mrs. Kinnan was called to the door of the home of her mother, Mrs. Stanton, and struck down by an unknown man.

Today Carlo Marino, a saloonkeeper, told the police that Friday night he and Dominick Compolo, Theodore Scalla and Thomas Farina quarreled over a girl. Marino declared Compolo threatened him with a bolt similar to that with which Mrs. Kinnan was killed.

During the quarrel, the girl fled into the yard of Mrs. Stanton's home. Compolo it is alleged, followed.

CITY INSPECTOR DISAGREES.

Report Made to Chicago Health Commissioner Differs from Government's Regarding Packers.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, June 10.—Chief Sanitary Inspector Perry B. Henry submitted to Health Commissioner Whalen, yesterday, a report on the sanitary conditions at several of the big packing plants, it being the first of a series that will cover the entire packing industry at the stock yards.

The city inspector found a far different state of things than that described in the reports of the government's commissioners. In no portion is described any of the shocking conditions portrayed in the Neill-Reynolds report to President Roosevelt.

Cleanliness was observed in all sections of the plants examined while extensive improvements were noted which have been under way for weeks.

The plants examined will be served with notices to make a number of changes in the ventilation and drainage.

MEXICO INVESTIGATES MEATS.

[BY THE ASSOCIATED PRESS—P.M.]

CITY OF MEXICO, June 10.—An investigation as to American canned meats has been started by the Board of Health in Mexico.

NO GOTHAM SUNDAY BASEBALL.

Contest Between Chicago and Brooklyn Called Off on Account of Police Order.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, June 10.—There were neither professional nor semi-professional baseball games played in New York today. Police Commissioner Bingham issued instructions to his subordinates during the week that they should prevent the playing of all Sunday baseball games, where admission was charged, either directly or by subterfuge.

Last week the National League executives transferred several of the Brooklyn games from the regular schedule to Sunday dates. This change arranged for a game between the Chicago and Brooklyn teams at Washington Park, Brooklyn, today, but this game was called off at a late hour last night.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, June 10.—[Exclusive Dispatch.] A sudden change in the course of wind sent the mercury sliding downward today until overcoats and light wraps were in demand. Lake excursionists shivered, and picnic parties sought sunny spots in which to keep warm. The lowest temperature of the day was 56 deg. and the maximum was 70. Middle West temperatures: Alpena, 62 deg.; Bismarck, 76; Cairo, 84; Cheyenne, 78; Cincinnati, 84; Cleveland, 72; Davenport, 76; Denver, 84; Des Moines, 76; Detroit, 74; Devil's Lake, 78; Dodge City, 84; Dubuque, 72; Duluth, 62; Edmonton, 74; Escanaba, 62; Grand Rapids, 72; Green Bay, 66; Helena, 72; Huron, 76; Indianapolis, 76; Kansas City, Mo., 82; Marquette 54; Memphis, 88; Milwaukee, 66; Minnedosa, 78; North Platte, 80; Omaha, 76; Rapid City, 74; St. Louis, 78; St. Paul, 74; Sault Ste. Marie, 60; Springfield, Ill., 78; Springfield, Mo., 78; Wichita, 86; Williston, 78.

LEAGUE CLUB'S STANDING.

National League—Chicago, .636; Pittsburgh, .652; New York, .633; Philadelphia, .538; St. Louis, .431; Brooklyn, 408; Cincinnati, .385; Boston, .271.

American League—New York, .630; Cleveland, .619; Philadelphia, .600; Detroit, .558; St. Louis, .511; Chicago, .465; Washington, .356; Boston, .277.

HEARST TO BE CANDIDATE.

Threats that W. R. Hearst will either run as an independent candidate for President or back some one to do so is relied on by his managers to check the spread of the boom for William J. Bryan. Already the Hearst lieutenants are preparing to give strength to the threat, and it is believed that if the Bryan movement continues to grow in strength it will be made formally to the Democratic party managers.

CROWD THREATENS LYNCHING.

Armed with a rope an infuriated crowd threatened to lynch James Malone, 40 years old, in Jefferson Park this afternoon, after he had been detected accosting a number of little girls who were playing in the park.

CHARGES AGAINST PACKERS.

A further report on conditions at the stock yards, which in its entirety acts as a refutation of the allegations of unsanitary conditions made by Commissioners Neill and Reynolds, will be made tomorrow by Chief Sanitary Inspector Hedrick to Commissioner of Health Whalen. The second report of Inspector Hedrick, as the first one, will state that the conditions complained of by the government inspectors do not exist.

NOT ALLOWED REWARD.

[BY DIRECT WIRE TO THE TIMES.]

WINNIPEG, June 10.—[Exclusive Dispatch.] Notwithstanding the rewards on the heads of the Kamloops train robbers aggregated no less than $35,000, the seven members of the Royal Northwest mounted police who captured the robbers stand little chance of getting a cent of it. By the statute under which the police is organized, no individual rewards can be paid, and there is no legal means of collecting the prices on the heads of the criminals whom they may capture.

BIG APPLE CROP PREDICTED.

[BY DIRECT WIRE TO THE TIMES.]

LOUISVILLE (Ill.) June 10.—[Exclusive Dispatch.] A 2,000,000-bushel apple crop will be produced by the orchards of Clay county this fall, according to what the orchardists are predicting, and the phenomenal yield of 1892, when 300,000 barrels of apples were exported from this county, will be eclipsed.

PRESIDENT PROPOSES FEDERAL OWNERSHIP.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, June 10.—[Exclusive Dispatch.] Just as soon as he is through with the reorganization of the meat-packing industry of the country, the President will enter upon another task which may attract world-wide attention and lead to prolonged discussion.

He proposes to have government ownership of such coal and oil lands as have not already passed to private or corporate ownership. He will endeavor to prevent another sale having coal or petroleum deposits from passing out of the control of the government.

With this end in view he desires to withdraw from entry about 40,000 acres of public property which has not been taken up, and which are known to contain coal, oil or other mineral deposits. These lands are in Colorado, Idaho, Wyoming, Utah, Oregon, Washington, Montana, New Mexico, Arizona, Oklahoma and Indian Territory.

The President is taking this step to prevent the fuel supply of the country from being monopolized and to check the Standard Oil Company.

TUBERCULOSIS CURE SUCCESSFULLY USED.

[BY DIRECT WIRE TO THE TIMES.]

PHILADELPHIA, June 10.—[Exclusive Dispatch.] Not only has the University of Pennsylvania officially announced the discovery of an absolutely certain preventive of tuberculosis in cattle, but every test so far made confirms the belief that very soon human beings can be made immune to the "great white plague."

The experiments with cattle having been entirely successful since their beginning in 1900, Dr. Leonard Pearson is now continuing his experiments with monkeys, with results equally gratifying. The next step will be to apply the same methods to human beings and it is not doubted that success will follow.

"The results of the vaccination of monkeys are most encouraging," said Dr. Pearson. "What the result of vaccination of cattle is we know absolutely. It is perfect immunization where the cattle are not diseased, and arrest of the tuberculosis where the disease has been contracted."

The serum which produces immunization has its origin in living tubercles from the body of man. Cultures have been made and propagation has taken place in flasks of glycerine veal broth.

It is estimated that $2,000,000 worth of cattle a year will be saved in Pennsylvania alone by the Pearson treatment and that its application to the entire country will mean a saving of more than $1,000,000,000.

FRENCH CABINET PLANS.

Bill Asks for Supplementary Taxation Which Will Affect Incomes from Capital.

[BY THE ASSOCIATED PRESS—P.M.]

PARIS, June 10.—The Cabinet today definitely drew up a statement of the government's plans for presentation to the Chamber of Deputies tomorrow.

It indicates the necessity for making up deficits in the budget and for that purpose will ask for supplementary taxation and announces the the presentation of an income tax bill, affecting particularly incomes from capital and the intention of hastening a bill in the Senate for workmen's pensions.

The statement also announces that bills will be introduced for general amnesty and for reform in court-martials and that the government refuses to recognize the right of State employés to strike.

ZOMBORY'S DUELS REDUCED.

Apologizes to the Hundred and Fifty and Now Is to Meet the One Insulted.

[BY THE ASSOCIATED PRESS—P.M.]

VIENNA, June 10.—The duels between Richard Zombory, a well-known Hungarian sportsman residing at Budapest, and officials connected with the Hungarian Land and Mortgage Bank will not take place, the matter having been settled by an apology by Zombory. He now will only be compelled to fight one duel—with Johann Sucs, the original challenger, who was bitten by Zombory's dog and insulted by Zombory for railing at the dog. The date of the duel has not been fixed.

Zomsory in apologizing said he did not intend to offend the respectable class of bank officials.

BRANDS BOY TWIN.

Enraged Father Throws Acid on Son Because He Was so Like the Brother.

[BY DIRECT WIRE TO THE TIMES.]

DENVER, June 10.—[Exclusive Dispatch.] Unable to tell his twin sons, George and Edward, aged 12 years, apart, and angered because George answered when he called Edward, George V. Smith, employed by the Colorado and Southern as yardman, is alleged to have thrown carbolic acid on George's face.

The acid burned its way from the left eye to the left corner of the boy's mouth, scarring him for life.

It is claimed Smith, partially intoxicated and enraged, decided to brand the boy.

Agents of the Humane Society are after him, but he has not been apprehended. He claims that the affair was an accident.

COAL MINE AGAIN AFIRE.

Rocky Ford Shaft Where Eight Lives Were Lost, Again Attacked by Elements.

[BY DIRECT WIRE TO THE TIMES.]

HELENA (Mont.) June 10.—[Exclusive Dispatch.] A special from Red Lodge says that fire has again broken out in the mines of the Rocky Ford Coal Company, in whose properties last week eight men met their deaths through being cut off and suffocated by a mine fire.

The special states that the gas is heavy and smoke is issuing from a number of places. There are no men in the mine.

FIERCE FIGHT IN NATAL.

DURBAN (Natal) June ...—Natalian forces under Col. McKenzie and Barker, have had a severe fight with the rebels in the Moe Valley. The rebels were defeated, 350 of them being killed including the important chief, Mehetokasulu. Natalians lost Capt. McFarland of the Transvaal rifles and Lieut. Marsden killed, and several troopers wounded. It is reported that Chief Bambaata was wounded in the fight. The rebels fled demoralized.

BRITAIN CUTS EXPENSES.

LONDON, June 10.—The government has decided to abandon building of the two warships of the Dreadnaught class, planned for the current year, and thus effect a saving of nearly $10,000,000 in ship building. The appropriations for the navy next year also will be considerably reduced.

FLOCKMASTER KILLS FOREMAN.

HAVRE (Mont.) June 10.—Information was received here last evening of the fatal shooting of Percy Bonathan, a section foreman, by William Hansen, a prominent flockmaster at Harlem early yesterday. Officers have gone to the scene.

Grand Tour to Tahiti.

S.S. Mariposa, sailing July 1st, will reach Papeete in time for the native festivities of July 14th, and will remain in port at Tahiti six days, affording passengers opportunity to make tour of the islands and native villages, and witness the celebration. Reduced round-trip rate of $125 applies to this voyage. Full information at office, 1068 Broadway, Oakland, and Pier No. 7, San Francisco, or Los Angeles office, 332 S. Spring street.

Houses in Demand.

A "To Let" advertisement of twenty words, inserted in The Sunday Times at a cost of 25 cents, will rent your house, apartments or rooms easily. The demand is great. Telephone it, day or night.

Fiesta Souvenir Book.

Thirty full-page illustrations of all the magnificent night electrical floats and the handsomest of the floral parade features are printed in the Fiesta Pictorial Souvenirs, printed on the best paper, which are ready for delivery at the Times Job Office, No. 139 North Broadway. Price, 25 cents.

Western Metropolis Versus Eastern.

Newspaper Advertising in New York Compared With Los Angeles.

The New York Herald in May, 1906 (last month,) printed a total of 1,023,982 agate lines of paid advertising of all classes; the New York World published 1,044,102 agate lines. Every other paper in the Eastern metropolis printed less than half this quantity of advertising.

The record of THE LOS ANGELES TIMES for the same month was 1,424,100 agate lines of paid matter of all descriptions, or nearly 400,000 lines more than the largest paper in the largest city of the United States. Local business men appreciate the value of newspaper publicity and are fully alive to the fact that The Los Angeles Times gives more for the money than any other newspaper in the whole country.

The Los Angeles Times regularly prints more advertising than any other newspaper in North America and more than any three of its local contemporaries combined.

STORM BREWS IN MINISTRY.

Smash-up of Russian Cabinet Believed Imminent.

Agrarian Programme Makes Ticklish Situation.

Emperor's Promised Amnesty Does Not Appear.

[BY THE ASSOCIATED PRESS—P.M.]

ST. PETERSBURG, June 10.—In spite of the official denial, belief that the retirement of the Goremykin ministry is near at hand was reasserted today by the Reichs, the Constitutional Democratic journal, which is evidently looking forward hopefully to the installation of a cabinet more in sympathy with the lower house in Parliament.

This hope apparently springs from the belief that the ministry is about to go to smash through internal dissension over the agrarian programme of Minister Stitchinsky, concerning which there has been much gossip. Members of the Cabinet, however, assert that serious discord has not manifested itself.

The project of M. Stitchinsky has not yet been submitted to the ministry in toto and preliminary discussion of it realized no strong current against it.

The Liberal organs also give credit to a report that the Emperor, in deference to the sentiment of the lower house, has decided to suspend executions pending the enactmnt of a law abolishing them, but the rumor finds answer in the dispatches from Warsaw, where one man was hanged Saturday for an attack on a policeman and four have been condemned to death for sacking the township treasury, and from Riga, where a court-martial has condemned to death thirty-six members of a fighting band of revolutionists, among them the leader, known throughout the whole of the Baltic provinces, as "Napoleon," and sentenced twenty to imprisonment from three to fifteen years.

The elections in the Caucasus are everywhere going in favor of the Social Democrats.

The agrarian disorders are steadily spreading in widely separated localities, and the government, though it boasted of its ability to prevent disturbances this year, is unable to cope with them.

CHIEF OF POLICE SLAIN.

[BY THE ASSOCIATED PRESS—P.M.]

BIELOSTOCK, June 10.—Chief of Police Dirkatschoff, against whose life several attempts had been made, was shot and killed today by several unknown persons while driving. His coachman was severely wounded. At the same time the secret police were attacked in another portion of the town, one of them being wounded.

SIX KILLED IN RIOTS.

[BY THE ASSOCIATED PRESS—P.M.]

WARSAW, June 10.—Six were killed in a riot here today. The disturbances are reported to have been organized to revenge the workman, Marczwski, who was executed in the Citadel Saturday morning for attempting to kill a police officer.

BLOWS OFF TOP OF HIS HEAD.

UNIDENTIFIED MAN A SUICIDE NEAR SAN PEDRO.

Boys Find Body on Bleak Beach Between Portuguese Bend and White's Point Only a Few Hours After Life Had Sped—Two Revolvers, and Bullet Holes in Temples.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SAN PEDRO, June 10.—The body of an unidentified young man, with bullet holes in both the right and left temples, was found this morning on the bleak, rocky beach between Portuguese Bend and White's Point, just out of reach of high tide.

The body of the unknown, who was a suicide, was discovered by M. Stayer, George Miller and Herman Oestrecher, boys who were fishing for abalones along the coast. Tightly clutched in the right hand was a new 38-caliber revolver, while another revolver of similar size was lying on the right side, near the body. The top of the head was blown off.

City Marshal Ben Baker was notified and the body was removed to the undertaking parlors of Charles Lucas, where an inquest was held this afternoon.

There was nothing on the body by which it could be identified. The suicide was a good-looking young man between 20 and 25 years of age, about 5 feet 9 inches tall, weight about 160 pounds. He had light brown hair and blue eyes. He was dressed in a black coat and vest of good material, light striped trousers, black shoes and a black soft hat. He had a copy of a Los Angeles paper of the issue of June 8 in his coat pocket and a purse containing $4 in his trousers pocket. He carried a dollar watch and had a return ticket to Los Angeles over the Pacific Electric, which had been purchased on June 8 in Los Angeles.

The man ended his life some time last night or in the early hours of this morning, as the blood from his wounds had not dried when the body was discovered.

BRYAN'S NAME APPLAUDED.

Reference to Traveler Stirs up Denver Congregation Listening to Dr. Coyle.

[BY DIRECT WIRE TO THE TIMES.]

DENVER, June 10.—[Exclusive Dispatch.] "Nothing on earth but death or President Roosevelt can keep Mr. Bryan from being the next President of the United States."

The great audience in the fashionable Central Presbyterian Church held its breath for a moment as Dr. Robert F. Coyle ceased speaking this morning and then occurred something the like of which had probably never been seen before during the delivery of a sermon in Denver—the audience broke into applause.

In all the history of church sermons in Denver, replete as they may have been with stirring allusions or patriotic references to popular men, there is no remembrance of an audience being stirred to applause during a Sunday sermon.

Dr. Coyle's sermon this morning was on "The Philosophy of Response." The general idea was that the best people—the people of intelligence and reason, the people who are the great men of the world are those who realize the power of the Eternal and acknowledge their duties to Him.

THREE BROOKLYNITES DROWN.

NEW YORK, June 10.—Three men were drowned in New York Bay this afternoon when the yacht Lottie W., with a fishing party on board, capsized during a sudden storm off West Bank light. William Moran and Paul Smith, and George Geise, all of Brooklyn, were drowned. Eight members of the party clung to the side of the yacht until taken off by a tug.

THIS BURGLAR HAS NEW GAG.

TOLD HIS VICTIM HE WAS NIGHT WATCHMAN.

South Grand Avenue Woman Wakes Up In Wee Sma' Hours and Discovers a Bold, Bad, Naughty Raffles Investigating Her Effects. Mistook Him for Her Son.

Mrs. Elizabeth M. Kirkpatrick, living at the Hotel Davis, No. 555 South Grand avenue, was robbed yesterday morning of her jewels, valuable papers and money by an exceedingly bold burglar, who worked under the guise of a night watchman.

The woman awakened as the burglar was about to leave her bedroom. She called to him to stop.

"What do you want here?" she asked.

"I simply desired to inform you that your door was unlocked. I'm the night watchman here," replied the man, who began to beat a hasty retreat.

Mrs. Kirkpatrick aroused her son immediately, and the two ran into the street in their night clothing, hoping to gain some sight of the man and question him regarding his actions.

The burglar had disappeared.

Officers from the Central Police Station arrived on the scene some minutes later, but, also, could find no trace of him.

Mrs. Kirkpatrick, in discussing the affair last night, stated that she was partially aroused by the entrance of the man into her room, but thinking it her son, she paid no attention to him.

"My son has been ill," said Mrs. Kirkpatrick, "and I thought he was placing a chair near the window, where he might obtain some sleep, as the heat was oppressive.

"My suspicions were not aroused until I became more thoroughly awakened and obtained a good look at the intruder. His ready response when I requested his business in my apartments allayed my suspicions for a few moments, but a hasty glance around the room convinced me that I had been robbed.

"I would know the man anywhere, and I believe he has been watching me for several days past. Two days ago, as I was entering the hotel, I was accosted by a man whom I believe to be the same person. He made some trifling remark, and I paid little attention to the affair at that time. Since the robbery, however, I have compared the faces of the two men, and I believe them to be the same."

Mrs. Kirkpatrick's apartments are located on the first floor of the house and entrance to her rooms was effected by the use of a pass key.

All of the woman's jewels, a quantity of valuable papers, a New York draft for $46 and various trinkets belonging to her son and daughter were stolen. The stolen property is valued at about $250. Payment on the draft was stopped by telegraph at once, and it will be impossible for the burglar to realize anything on the paper.

J. T. Saunders of No. 802 East Twenty-fifth street reported to the police yesterday that his home had been entered and two watches, fobs and gold chains stolen.

F. H. Everts of No. 125 East Twenty-eighth street, reported to the detective department Sunday that he had been relieved of a gold watch by a pickpocket while riding on the rear of a crowded Main-street car.

H. Rider, No. 674 San Fernando street, was robbed of a suit of clothes, stolen from his room Saturday night.

LETTERS TO THE TIMES.

[The Times freely publishes the views of correspondents without holding itself responsible for writers' opinions. Be brief, write plainly, state clearly. The space of 250 words, on the average, is sufficient for the expression of an idea, or the presentation of a point. Well-written letters are liable to be declined merely on account of their length.]

Looking Forward.

LOS ANGELES, June 11.—[To the Editor of The Times:] That daring real estate vendor who for years blazoned on billboard and newspaper page the prophecy of 250,000 population for Los Angeles in 1910 has already been discredited as a seer. The smile of incredulity with which we were wont to scan his announcement has changed to pity for his woeful pessimism. Thoughtful men, even of the ultra-conservative class, now confidently look for a much larger influx of people within the next four years. For the purposes of this screed, however, it matters not so much whether the figure shall reach 500,000 or a full three-quarter million. The more important question is,

What is to be done with the coming multitude?

Until the end of the procession is in sight, there will be houses to build. But we are not all artisans.

For some time there will be continued employment for an army of men in gridironing the county with electric lines. But, although there may be no bottom to Mr. Huntington's purse, there is a limit to the territory to be conquered, and sooner or later his great work will have been completed.

Great tracts of land all about the city are being cut up into fractions, city lots are daily being multiplied, and villa home sites increased. Soon, however, all these will be occupied.

Let us suppose that in 1910, or thereabouts, there are quartered in Greater Los Angeles a round million of people. All will be consumers. The great majority also must be producers. What are they to do? How are they to find employment? How can they be maintained here?

To my mind there is but one answer to the composite question. The Times, in its far-sighted wisdom, long ago and ever since, and with unyielding persistency and force and intelligence, has kept that answer before its multitude of readers. It may well claim the right of original discovery. It surely can claim whatever of credit is due to the person or the instrumentality that causes two blades of grass to grow where but one grew before; that recognizes a great and ever-increasing community need, and that hammers away at it unceasingly until that need is supplied. The answer which The Times early made to the problem, then apparent and now daily growing in magnitude, has been: MANUFACTURES, LUNCH BASKETS AND PAY ROLLS.

It is a somewhat hackneyed axiom that "pay rolls make cities." But it is no less true today than at any time in the past. Pay rolls not only make cities, but are the very backbone of cities. They are as essential to the sustenance of cities already made as to the original creation of them. Those cities which boast the greatest variety of industries are the most prosperous and enduring. Those which depend upon a single industry occupy a very precarious position, no matter how stable that industry ordinarily may be. Neither oranges nor climate, nor yet both combined, will sustain a city of a million souls on the banks of the Los Angeles River. Those other auxiliaries, upon which dependance is had today, will not last forever. They must be replaced with something more enduring and more dependable. Nothing else will fill the bill except mills and factories. And the man who would advise deferring the procurement of those instrumentalities, for any reason, must surely be deplorably deficient in business acumen and foresight.

Now is the accepted time to lay the foundations for a great manufacturing center here.

San Francisco lies prostrate. The situation is such that Los Angeles may at least start even in a new race for industrial supremacy on this Coast. Nobody desires to profit directly from the great misfortune that has befallen our neighbor in the north. But it is perfectly legitimate for Los Angeles to enter the field, in open and honorable competition, for the favor of capital in the rehabilitation of industrial establishments destroyed by the elements as well as for the supply of new industries demanded by the constant augmentation of the army of consumers on this Coast and the prospective demand from the million across the sea. And this latter item should serve to accentuate the importance of home manufactures from a standpoint other than local and selfish. Much has been said and written about the future prosperity of California based upon the oriental trade, a hope if not a dependance that is certain to prove disappointing, unless the goods with which the orientals are to be supplied are manufactured within the borders of the State. The mere handling of exportable merchandise, the mere transfer of manufactured wares from railway cars to steamship holds, is not going to enrich California very much. If the oriental trade is to be made of great and lasting value to California, the exportable articles must be created here. We must have the manufacturer's profit as well as the handler's profit, else the only profit will go to the railroads, and the truck companies.

California should become the greatest manufacturing State in the Union. The raw materials entering into the finished product of almost every item that constitutes our export to the Orient are obtainable right here on this Coast, labor should be as plentiful and as cheap as on the Atlantic seaboard, and the cost of the long haul across the continent, from one and a half to five cents a pound, serves as a protective wall which New England manufacturers may never hope to scale.

Granted that California is a promising field for the establishment of productive industries of almost every class, how are they to be obtained.

Two ways present themselves.

The first is by investing our own idle capital in their creation.

The second is by inducing eastern capital to join hands with us in exploiting every legitimate industry.

Only this morning The Times assures of of the abundance of idle money now stored in the vaults of the local banks. Thus disposed it is of no more value to its owners than would be so much kelp. The duty of the men who control this surplus wealth is obvious. Made to see the unparalleled opportunities now afforded for investment in approved industrial undertakings, there can be no doubt that there will be a loosening of purse strings and a subsequent hum of industrial activity. The inducements now offered for the investment of capital in manufactures here in Los Angeles are now so great, the certainty of large and stable profits (especially in the production of all manner of building material for consumption in San Francisco as well as in this city,) so well assured, that all citizens should feel a concern that every share of stock in manufacturing corporations being created here should be held locally, to the end that the earnings shall go directly into the channels of trade, and aid in the building up of this city rather than other cities beyond the mountains.

If the banks continue to pursue a liberal policy toward infant industries, and will loan their idle funds to prospective local corporations able to make a good showing, thus helping them to establish industrial plants here, Los Angeles soon will take her place near the head of the list of manufacturing cities in the United States.

Educated by The Times, encouraged by the Chamber of Commerce and other commercial bodies, there is no doubt the product of Southern California mills and factories will be preferred over all others by the public-spirited citizens of Los Angeles.

The shelves of our merchants, groaning under the weight of every day commodities manufactured elsewhere, accentuate the breadth and extent of the field that might be filled with home-made goods, were half the idle money stored in bank vaults invested in manufacturing plants.

The subject may be a trifle hackneyed, Mr. Editor; but to my mind, it is the most important one confronting our people today.

CARLYLE CHANNING DAVIS.

Dangerous Skates.

LOS ANGELES, June 9.—[To the Editor of The Times:] The business section of East First street, between State and Cummings, is not safe for pedestrians, the sidewalk at times being entirely monopolized by skaters. Not only children, but big, husky youths of the hoodlum size, sometimes in gangs of four or five, tear along at railway speed, the one in front holding a club in hand and blowing a whistle as a warning to citizens to get off or get hurt. As The Times is our champion in all cases of righting wrongs, we hope you will give us the space in your paper which may be necessary to abate the nuisance.

BUSINESS.

ALL NATIONS TO BATTLE IN RING.

McCAREY SCOURS EARTH FOR FIGHT-FEST OF RACES.

Pacific Athletic Club's Function Will Resemble a Pugilistic Parley of Globe's Representatives—China Will Have Valorous Champion in the Redoubtable Ah Wing.

The Pacific Athletic Club's fight factory will look like the house of all nations or the tower of Babel on June 19, if some of Tom McCarey's "prelim" chickens do not fly the coop and get lost on the desert. Not satisfied with making a mixture of Irish, Jews, Italians, Germans, Turks, Greeks, Englishmen and Mexicans, Uncle Tom must have a Chink in his carnival of try-outs, and Ah Wing, the scrapping celestial, who wears his queue a la coil on the top of his cranium, will be selected to represent the Flowery Kingdom. All that seems necessary now is for Uncle Tom to find a good husky "nigger" and then he would have the greatest batch of medicine ever cooked up and slid into the squared circle.

CAESAR AND CHINK MIX.

Just how McCarey will blend this mixture of the races is problematical, but Caesar Attell, the pawnbroker fighter, who runs second to his brother Abe only in conceit, will be called upon to put the son of Confucius out of business, and the American Achilles will settle a family feud with the Unspeakable Turk.

These newcomers have not received a title since their advent into polite fighting society, but they will stand for anything but "Kid." The twenty-three sign has been pinned on that appellation. There is a harshness about some of these pairing of names in the prize ring.

NO "KIDS" IN GREECE.

Had the ancient Greeks had such euphoneous names as Murphy, McHugh, O'Toole and McCarey in their roster of ring performers there would have been far less bloodshed, for who would not kill a man bearing such a title as "Kid" Philoctetes? Then think of the trouble the referee would have had trying to tell Young Parthenopaeus to stop butting "Kid" Tonitrualis in the clinches.

Speculation is rife as to whether or not "Megaphone" Cook will withstand a stroke of apoplexy when he tries to put to rag-time the cognomens of the Turk and Greek in his announcing stunt.

But here is a pair that blend harmoniously with what the ring fan is used to hearing from the announcer: Tommy Walsh will go against Tommy Leahy. That sounds like fight and, by the way, Walsh is as yet undefeated. Then Billy Walsh will hook up with "Henry Berry"—not he of billiard-room fame, for he's overweight and refuses to get onto the scales.

HIS NAME IS ASSUMED.

Kid Dalton will take care of Italy's interest in a bout with Harry Baker, the amateur featherweight champion of America. Dalton believes there is something in a name and has passed up the encumbrance his father pinned on him when he was christened.

The Mexican has not been selected as yet and neither has the "skunk," but there is hope of securing a husky son of Ham and some one who will look the counterpart of Scarera, in order that the fans may have something to cuss between rounds.

If the fight managers can keep this aggregation in separate cells until they are led to the ring at the end of a chain, there is a suspicion that the Kilkenny cats will be made to look like Alexander Dowie's pass to Paradise when the carnival is well under way.

HUGE DRYDOCK ON RAMPAGE.

PHILADELPHIA, June 10.—The United States cruiser Tacoma and the tug Potomac, part of the escort of the dry dock Dewey, on its journey to the Philippine Islands, arrived at the League Island navy yard today, having left the Dewey and its escort at the Suez Canal. The Dewey, it is said, broke adrift five times and in each instance a line was fastened to the big floating object in the face of the greatest danger.

The Way from Our Store to Your Home is Smooth

GENEROUS CREDIT - ABSOLUTE GUARANTEE
LOW PRICES - BIG STOCKS

Here is our system: Get the best goods obtainable in large assortments at the lowest possible price. Mark them on a fair margin of profit. Give the customer any reasonable time to pay. Bind every transaction with our guarantee. It is a system that wins.

This $25.00 Dresser

$17.50

It is the large, full size dresser, in a selected birch finish. Has serpentine top and a swell front divided drawer at top. Mirror is French beveled plate and is 20x28 inches.

Fine finishing is a feature with this dresser.

This Fine Range $21.50

It is a 6-hole coal and wood range, a guaranteed baker. Has large oven, is full nickel trimmed, and has a fancy plate rack. A noted fuel saver, and a very pretty design. Good chance to save.

$20.00 Gas Range $16.50

THE GEM ACORN

No doubt you have heard of it. Most everybody knows the Acorn Ranges. This is one of the modern ones, with heavy cast post and front, cold rolled, blued steel wall and lining. It has the new Acorn burner. It sells regular for $20. Makes a great special at $16.50.

$4.50 Gasoline Stove $3.75

It is the "Model" Gasoline Stove. Has two full-size burners, high tank, all the safety features known. It is a mighty handy thing to have around these warm days.

This $4.00 Rocker

$2.95

The picture is an exact reproduction. It is made in fine golden oak and beautifully finished. Choose either cobbler or wood seat. It is strong, comfortable and handsome. Best of all, it is a bargain.

$14.50 Refrigerator

$10.50

You need it now

It is surely refrigerator time and here is a bargain for you. We offer a large, well-built refrigerator at a saving. It is an ice-saver and a cooler.

Other good refrigerators too.

...d steamer Californian, the ... freighter that so far has ... the port of San Pedro, ar... yesterday morning from ... and is now anchored in the ..., where it is attracting ... By its side some of ... craft appear almost as ...

...rnian brings a cargo of ... of steel rails consigned to ... Bierman, to be used, it is said, by the Santa Monica Cañon Railway Company. The vessel called also at San Diego, where it discharged 350 tons of merchandise and mixed freight.

Capt. H. D. Sweetzer is in charge of the immense freighter, which is owned by the American-Hawaiian Steamship Company. Its home port is New York.

Built by the Union Iron Works at San Francisco in 1900, the Californian is 430 feet long, 51 feet beam, 29 feet depth of hold, 5707 gross tonnage and 3716 tons net. It has an indicated horse power of 2400, and carries a crew of forty-five men.

The steamer was out sixty-two days from New York to San Diego, making an uneventful passage around the Horn.

As the vessel draws twenty-six feet of water, it will be necessary to lighter the cargo in the outer harbor, where the big craft will remain several days before proceeding to San Francisco.

Dickerson, Grace Snyder, Mrs. T. E. McDonald, George T. Osborn, Thompson Walker and wife.

Though the weather has been relatively cool, Phoenix is thinning out for the summer at the rate of a hundred departures a day. Many are for eastern points, but Los Angeles, owing to the burning of San Francisco, will have a greater visitation of Arizonans than ever before. The Santa Fé has put on a special semi-weekly train for the Coast, while regular Coast sleepers are being run on both the Santa Fé and Southern Pacific from Phoenix.

The Phoenix Indian School band has gone to Santa Cruz, Cal., there to fill a month's engagement on the beach.

Carl Cochems, declared by Henry Russell one of the most prominent baritones on this continent, has started for Rome, where he will study under Mr. Russell.

NOT PERFECT, SAYS DR. MOCK.

CHINESE COMMISSIONER SEES SOME OF OUR FAULTS.

Departing for the North, to Sail for Home, He Comments on Use of Money in Politics Here—Thinks the Adoption of Gold Basis in China Will Advance Silver.

Mock Tong Quan, Imperial Chinese commissioner to the United States, who has been making a study of the politics and municipal government of this country, left Los Angeles last night for San Francisco, whence he will sail soon for China.

Before departing Mock dispelled the pretty illusion that has grown in the minds of Americans concerning the high opinion held by all Celestials concerning the American government.

Dr. Mock's opinion is not all one rose-hued allegory and many things in the administration of the larger cities will not be included in his report of recommendations to his imperial master.

Dr. Mock has been in Los Angeles for several weeks as the guest of the local Chinese merchants, making his home at the residence of Dr. Tom Leong at Ninth and Olive streets.

Although compelled to talk through an interpreter, he freely gave his opinion of this country's government.

"Of course I am deeply impressed with your magnificent government," he said, "and am glad to be able to embody many recommendations for improvement of my countrymen's condition that have been taken from the administration of your large cities. I think your government is the most nearly perfect on earth.

"My country is experiencing a great awakening and I have been vastly honored by being sent here to gather data to be used in many reforms.

"The use of money in your politics I have trouble in understanding. I noticed everywhere that the opinion is held that no one but a rich man could be elected to any responsible position."

Dr. Mock acknowledged naively that there was graft or "squeeze," as he called it, in China, but he thought it ran even more rampant in this country than in his own. He hastened to add immediately that this country was fast reaching the point in its growth where it would not stand idly by and watch men put their hands into the public's pockets and withdraw them gorged with public funds.

He said there was a movement now on in China among the business men and the bankers to have China placed upon a gold basis, which, strange to say, he thought would advance the price of silver. His ideas in this matter correspond with those of a distinguished Canton banker, who recently was in Los Angeles.

Dr. Mock is secretary of the Reform Party of China, but says he is not a radical. He thinks the leaven is working and that his native land will within a few years have many western ideas of government embraced in its laws.

It will take years, however, he says, before anything noticeable will be done along this line. He acknowledges the conservativeness of his countrymen and their hatred of anything new, but says that in order to stand shoulder to shoulder with the other powers of the world, China will prepare herself to meet them on their own footing.

Stores Wanted.

At no time in the history of Los Angeles have business locations been more sought after. If you want good tenants on long leases for your store-rooms, a classified advertisement in The Times will secure them for you quickly. now.

STEAL FOWLS BY WHOLESALE.

CHICKEN THIEVES OPERATING ON A LARGE SCALE.

But a Clever Burglar Alarm, Attached to One Coop, Surprises Two Nocturnal Miscreants — Pasadena Avenue Infested by Roost-Robbers, Who Use a Wagon and Team.

Chicken thieves, who, for some time, have been operating in Highland Park, narrowly escaped capture early yesterday morning, while attempting to break into a barn at the rear of the residence of Mrs. Margaret E. Breese, No. 4530 Pasadena avenue.

Twice before the roost robbers had entered the yards behind the Breese home, and on both occasions valuable chickens were secured. The place seems to have such attractions for the fowl lifters that they had evidently determined to make a clean sweep of the henhouse, which has already been depleted to the extent of about forty fat birds.

Disgusted with the sneak thievery, the house owner had burglar alarms arranged on door locks, and in convenient places around the premises. The alarms were wired to the house, and a watch was kept in anticipation of the return of the robbers. A few minutes before 1 o'clock yesterday morning the alarm rang furiously, and the watchers discovered two men at work on the barn door. The thieves, when the alarm sounded, scrambled hastily over the fence. Shots were fired in an endeavor to overhaul the fleeing miscreants, but they made their escape.

Hundreds of fowls have been stolen from the yards along Pasadena avenue within the past two weeks. In several instances complete hauls have been made, and only the bare roosts have been left when the night's work was over. In almost every instance only the choicest stock has been taken.

The robbers commence work after midnight, and it is thought a wagon is used to carry the loot. Several times residents have been awakened by the furious driving of a wagon from the door of their premises to find in the morning every marketable fowl gone.

Louis Becker of No. 4510 Pasadena avenue was the victim of an amusing freak practiced by the thieves. Half a dozen plump pullets were taken from Becker's yard and the same number of lean fowls were placed in the coop in exchange.

Relief from the depredations is sought by residents of Highland Park and vicinity, and extra police protection will be asked for. It is claimed the district on Pasadena avenue, between Avenue 41 and 60, is in the greatest need of special patrolmen.

CIGARS UNITED

CIGARS

and the Sign of the SHIELD

IN LOS ANGELES

We announce the opening of UNITED CIGAR STORES in this city next Saturday at Fourth and Spring and 143 South Spring Street.

We come to this city because we believe there is room for us.

In upwards of 40 other big cities we operate stores on the original plan which will prevail here—all known by the sign of the UNITED shield—the emblem of quality.

Our stores make a chain which links the Atlantic with the Pacific —hundreds of them.

These stores are all operated on one plan—to give better cigars for the same money, more cigars for equal money and equal cigars for less money.

Whether we do or not we will ask the smokers of this city to decide.

Entered at the Los Angeles Postoffice for transmission as mail matter of the second class.

Pen Points

Next Presidential year bids fair to again consist of cheers for Bryan, and votes for the other fellow.

That there are so many Irish policemen may to some extent explain why so many automobiles are painted green.

The natives have broken loose again in Samar. And Hell Roaring Jake Smith isn't within thousands of miles of the place.

No doubt King Edward will be a proud man when he finds himself able to stick his legs under the same table with Nick Longworth.

Last week's real estate transactions rather strengthen the belief that Los Angeles will continue to be the greatest city on the Pacific Coast.

Hearst has at last condescended to take notice of the Bryan boom by the saying that it is backed up by gamblers and political prostitutes.

It now looks as though the opposition would win in the election going on in Guatemala, unless it should unexpectedly run short of powder.

Anyhow, it cannot be said that Miss Krupp, although marrying a poor man, is marrying one without a name. His name is Gustav von Bohlem und Halbach.

Now prepare to see in the papers the picture of the man who swam out so far from the beach line that he had to be rolled over a barrel when they got him ashore.

Doubtless the Senate is anxious to adjourn as soon as possible, if for no other reason than to prove that it consists of more members than Tillman and Joe Bailey.

Although we were a long time without them, it is probably safe to conclude that these blue skies we are now having are the same old ones that we always had before.

The Pope has blessed two American automobilists in Rome. His Holiness should now offer up a few prayers for the pedestrians with whom the automobilists are likely to come in contact.

Among the many changed conditions in San Francisco that make things seem different, the fact that the saloons are all out of business must strike the observing mind with much force.

And now the head of the Red Plains Sanitarium (whatever that may be) would discourage longevity by "throwing the old men onto the scrap-heap." Suppose we start with the middle-aged fools first.

Emma Goldman, the queen of the anarchists, says a man and woman should remain married only as long as it suits their convenience. Well, isn't that the custom generally in vogue at the present time?

The story that the German people are afraid the Kaiser will get them into trouble may be taken with a grain of salt. The Kaiser is more likely to get other than the German people into trouble.

When a man like Alexander J. Cassatt "submits nervously" to being interviewed by newspaper reporters, you can bet your last share of stock there's been something doing in the dim, dank dark of the moon.

John D. Rockefeller is cracking jokes as he goes along on his European tour. The best one he got off, so far, was when he was told about the beef-trust scandals. "Let us hear both sides of the story," said John, "before we judge the case."

Everybody gets a jolt once in awhile, but the man who predicts a slump in Los Angeles real estate seems to be "getting his" right along as a continuous performance. The past week proved the most active in almost the entire history of the city.

For several years there was a law in New York permitting prize fights, but now if a ring contest is attempted the pugs are arrested, fined, and sometimes thrown into jail. Los Angeles will be doing the same thing after she had New York's experience.

It would perhaps be a mean and unwarranted fling at the poor young man who is soon to marry Miss Bertha Krupp to say that he wants her for her money, but, at the same time, he was probably well aware that her income is over $5,000,000 a year.

Considerable attention is bestowed on Richard Zombory, a Hungarian sportsman, who has been challenged to fight 151 duels with that many antagonists. Naturally, Mr. Zombory objects to so many engagements, not that there is the least danger in them, but because it will take up his time when the rabbit shooting begins.

While it is true that the stock theaters throughout the country must depend on the theatrical trust for plays to keep them going, it must be remembered that the trust depends on playwrights for plays. But, then again, the playwrights must depend on the trust for the privilege of having plays presented and for the royalties that accrue thereby. Thus we see that the trust business has its own way of cinching things, which the same works like a charm.

"WHAT IS MAN THAT THOU ART MINDFUL OF HIM?"

There has been much discussion of the question, "Is marriage a failure?" Up to the hour of going to press this morning the question had not been unanimously decided. Perhaps this is not greatly to be wondered at, as there are several of the "cow counties" yet to be heard from. The tickets are badly scratched, and it may require the official count for the ultimate determination of this vexatious question.

But, while the abstract question as to whether marriage is a failure is still open, one phase of the absorbing problem as to what marriage really is has been decided with something like authoritativeness. Miss Louise Lee Hardin of Denver, president of the National Business Woman's League (which is in session at Chicago) declares that "marriage is merely an incident in the life of woman," and doesn't really amount to shucks. "Marriage!" exclaimed Miss Hardin, "why, marriage is no longer everything in a woman's life. It is getting relegated in the mind of woman to its true proportion in the scale of things, and is becoming an incident. Marriage is but an incident in the life of man, why should it not be so in the life of woman?"

We submit that this testimony is not competent. In the case of Miss Louise Lee Hardin it can be only heresay testimony at best; for what can a miss know about marriage at first hand? To her uninitiated vision it may seem like an insignificant "incident," but to those who have personal knowledge it is apt to appear more like an epoch than an incident.

From the dispatches it appears that the gentle creatures of the National Business Woman's League gave a pretty black eye to "mere man" all along the line. Whether all the speakers were misses does not appear, but some of them evidently spoke "by the card." One of the speakers declared that "man is but an appendage, an adjunct, a corollary of woman," and that he "is not nearly as important as he, with fatuous self-conceit, imagines himself to be." It is self-evident that this speaker was a modest, retiring, self-effacing creature, without the slightest trace of fatuous self-conceit. But there is a little consolation for the human male biped in the reflection that she did not absolutely deny that man has some place, however small, in the economy of nature. To be an appendage is something; to be an adjunct and a corollary of the sterner sex, as these gentle learned ladies choose to regard themselves, is an honor not to be sneezed at.

It seems, also, as one speaker put it, that "a man as a husband does not summarize the whole thing." This is undoubtedly true in some families and as applied to some husbands. A pet poodle, a sore-eyed kitten, a vicious parrot, or a woman's club (which must be attended from four to six days out of the seven, with two church services or an evening lecture on the seventh,) often summarizes about all of "the whole thing"—and then some more.

"A husband," serenely observed one of the business women, "is an incident, not creation." This was timely and well said. Of course it will be admitted, to keep peace in the family, that a husband, like the institution of marriage itself, is a mere incident, a mere convenience; in some instances indeed, he is even less—a mere accident. Doubtless he will eventually be dispensed with altogether, along with all other male trash of the human species.

There is one field of usefulness, however, in which husbands especially shine, and are useful. These fair bosses cannot deny that husbands, as a general proposition, are handy to have about when the unpleasant problem of how to keep the pot boiling presses too hard. They have worked so long at the business that they are tolerably expert, as a rule, at earning, begging, or borrowing enough money to buy grub and clothes, pay doctors' bills, and meet the traveling and club expenses of their superior partners, while the latter are engaged in solving the complex problems of the ages. Thus, in his humble capacity, the husband will probably have to be tolerated, at least for some time to come.

LOS ANGELES A YACHTING CENTER.

The yacht race to be started today at the port of Los Angeles is one that marks an era, not alone in the annals of a great sport, but in the history of Southern California. It has been scantily appreciated by the people of this region that this race of first class vessels to Honolulu is the most important yachting tournament of the whole world in the year 1906. It is the only one among large vessels which is of an international character, and in which the competing yachts traverse great oceanic spaces.

For this year Lipton is silent. The America's cup remains in its cotton wool in the Tiffany strong-box. None of the New York fliers are crossing the Atlantic for cup of either Emperor or King. And in this off-season the interest of the yachting world experiences a change of venue. California finds herself in the center of the stage and is rather dazzled when suddenly receiving the limelight all to herself. The position is so new that outside the ranks of our yachtsmen our citizens still seem unaware of the fact that Boston, New York, Cowes and the yachting magazines of the world are showing far more interest than is exhibited locally.

It is curious, but undeniably true, that when an Emperor, a merchant prince or a millionaire club wants a great deal of gratuitous advertising, or to establish more friendly relations in foreign parts, a great yacht race is made to be the medium to bring about the desired result. In these days, to be in the fore-front of the world's talk counts. But in this case the honors of Los Angeles were cast upon her. It was owing to San Francisco's sudden inability to continue her engagements that transferred the charge of this race to Southern California. Yet we cannot be blind to the fact that great ocean yacht races have been great factors for general success and that this event is doing for us what has been done for others when the interest of the world has been concentrated.

Another point to be noticed is that hitherto our peaceful waters have never known a great yachting contest, and that this one marks the beginning of many centuries of yachting history. With the growing wealth of our western country the State of California has a yachting future until now undreamed of. The international character of this race may be slightly reduced by the non-appearance of the Canadian yacht, Maple Leaf, from Vancouver, but the prompt entry that was made by our friends to the north of us shows that the future racing of the Pacific Coast will be fully as international as on the Atlantic Coast. And in the days to come it will remain of record in the history of the sport that Los Angeles had charge of the Pacific's first ocean yacht race.

CONGRESS AND THE PEOPLE.

A recent dispatch from Washington told how Speaker Cannon had demonstrated his resentful feeling toward Californians. He had killed the 5 per cent. school land bill, for this session; and without apparent reason he cut off consideration of a little bill for the appropriation of $10,000 for a monument to Commodore Sloat at Monterey, after permitting several similar bills to pass and after he had promised to recognize the Sloat bill. The Speaker's bad feeling is understood to be caused by the Californians' attitude on the Statehood bill. He has his heart set on the admission of New Mexico and Arizona as a single State, because he is passionately opposed to any increase of United States Senators. He believes the Senate already is too strong, as compared with the House, and he fears if New Mexico and Arizona are not forced into union as one State they will be admitted separately later, if Democrats should get control of Congress.

That Speaker Cannon should be angry with members of Congress who obstruct the passage of a measure that is indubitably in the interest of the people at large would certainly be excusable, but even then he would have no moral right to hold up other innocent measures, in order to vent his anger upon these people. In this case, however, there is no such stake at issue. The bill which Cannon is so anxious to pass—for purely political reasons—is, on the face of it, a monstrosity and an injustice. It would create a colossal State, larger than any other political subdivision of the United States, except Texas, which will soon be ripe for subdivision into three or four separate States. Moreover, the proposition of uniting Arizona and New Mexico in one State is bitterly opposed by a vast majority of the residents of Arizona—probably 90 per cent. would not be too high to figure—and by a considerable number of the people of New Mexico.

As to the politics in the case, that should not be permitted to overshadow the public good. Mr. Cannon, as Speaker of the House of Congress, does not merely represent the Republicans of the United States. He is supposed to represent, in legislation, the people, the United States, who include in their number Republicans, Democrats, Populists, Mugwumps, Socialists and men of other shades of public opinion, all of whom have their right to "life, liberty and the pursuit of happiness," which includes the right of free expression of opinion, under the law.

Speaker Cannon's narrow action in this case will emphasize, in the minds of the people, the fact that he has also been one of the leading obstructors of a measure that the people of the United States have demanded with absolute unanimity, excepting the manufacturers of adulterated foods, who would be financially affected by the measure. This is the Pure Food Bill to which bad and weakening amendments were added in the House. Even after that it was by the Speaker denied a vote. This is explained by the fact that the enemies of the bill—the selfish manufacturers of foods that cause sickness and death—were afraid to allow the bill to come to a vote, because they knew well that Congress would not dare to go on record against it.

Here, again, is surely an attitude on the part of the Speaker of the House that is open to criticism. The people of the United States, just now, are doing a house cleaning of much magnitude. When they are in that mood, they are not likely to stop until the job is fairly well completed. Nor are they, after attacking such august institutions as the insurance trust, and the Standard Oil trust, and the railroad trust, and the beef trust, and the sugar trust, and a few others, likely to be awed into inactivity by an institution which numbers among its members hired servants of these trusts, who are willing to do their bidding against the interests of the people, although they have been elected by those people, and from them receive their salaries. That members of the Congress are not entirely above and beyond the law of the land has been shown of late, when one United States Senator was sentenced to nine months' imprisonment in jail, to pay a fine of $2500, and deprived of the right to hereafter hold office under the government, the offense being bribery, while another United States Senator—an aged man with a long record of public life—was sentenced to a term in jail for stealing—or aiding or abetting the stealing of—timber lands, and yet another United States Senator was expelled from the Senate for championing polygamy.

Another instance in which the representatives of the people came up in connection with the excellent and much needed bill providing for the reorganization of the consular service, merit system to be applied to all promotions. In the original bill, submitted by him to Congress, it was provided that all appointments should be made to the lowest grade as in the army and navy, after an examination to determine the qualification of the applicant, and that all vacancies in the upper grades should be filled by the promotion of those who had shown the highest degree of usefulness and efficiency. Neither the Senators nor the Representatives would permit this, because the consular service is about all that is left for rewards to local politicians. They struck out that provision, and also another of equal importance, which gave the Secretary of State power to transfer consuls from one place to another, according to his judgment of their fitness and the requirements of the service. Therefore, under the new law, as at present, whenever a transfer is made, a new nomination must be sent up to the Senate for confirmation.

It is high time for Speaker Cannon and other members of the United States Congress, both Representatives and Senators, to sit up and take notice that house cleaning is going forward in the United States, and that the Congress is one institution upon which the eyes of the people are more carefully and persistently directed just now than at any other time.

WHAT'S SAID IN SAN FRANCISCO.

SPECIAL CORRESPONDENCE OF THE TIMES.

SAN FRANCISCO, June 3.—It has been very unfortunate that bitter squabbles arose between people who ordinarily would be working for the common good. One of the worst fights on just at present is over the widening of the streets. Because of the uncertainty a great deal of rebuilding is returned. A prominent printer told me the other day that he wished to take a long lease on a lot and put up a building, but he had read in the paper that Commercial street was to be closed. There was no way of verifying the story, so he had to look elsewhere for a lot. Everything is topsy-turvy, and there is no prospect of a straightening out for some time to come.

The police, who before the fire kept chasing small boys and arresting drunks, have at last found something to do. All over the city, that is in the burned section, little shacks have sprung up with signs on them reading, "Junk store. Highest price paid for scrap metal." Men, women and children, with mysterious sacks enter the shacks loaded down, but emerge empty handed. The police have discovered that much of the junk is taken from forbidden premises, and it is a frequent sight to see a burly policeman hot-foot after a man with fifty pounds of iron on his back. Sometimes the looter wins out.

Will Denman, lawyer, athlete and society man, while standing on the street the other day saw a brutal hackman beating a very thin horse. Denman has a voice like a fog horn, and he almost lifted the brute off his seat when he shouted, "That is enough of that." The hackman quit at once, after he sized up Denman's athletic figure, and heard him say, "I'd just as leave lick that fellow as not." Denman has quite a pugilistic reputation since his adventure some years ago with a local newspaper man who had attacked his father. During the three days of the fire he impressed hundreds of teams to carry food.

The West of Castro Street Club petitioned the Supervisors to cut the budget in half now that the city was cut in half. Supervisor Gallagher, chairman of the Finance Committee, said that a condition not a theory confronted them, and he forthwith recommended a cut, but a careful scrutiny of the budget shows that very few salaries suffered while any item like a permanent improvement is off the map entirely. Permanent improvements are all very well for rich and prosperous cities, but most of our officials think that they would be out of place here.

After the awful catastrophe of April, it was supposed that there would be a "closed season" for everybody and everything, editors included. But the good effects of the warning have worn away and a drunken policeman took a pot-shot at two editors in San José, but, fortunately, missed. The policeman says that he did not see the journalists, but was trying to kill some blue-green spiders that were climbing on the ceiling. In his pocket, however, was found an editorial by a high-priced writer of a newspaper syndicate on the "Gospel of Discontent," in which every one was advised to make every one else miserable in order that the world might progress.

The exciting experience of a prominent oculist the day after the earthquake has just leaked out. He was hurrying along the rim of the burning section to visit a patient when a sentry halted him.

"What do you want?" asked the anxious doctor.

"Just you hit that hose," said the soldier, pointing to the fire apparatus which needed moving.

"But," expostulated the physician, "I cannot see very well and am going now to my doctor."

"Well, if you cannot see the hose feel for it," was the unfeeling reply of the martinet, and for two hours thereafter the distinguished oculist was "hitting that hose."

Sinful Strawberries.

On a recent Monday morning the pastor of a church in Virginia was the recipient of a basket of strawberries brought to him by a little girl of the parish.

"Thank you very much, my dear," said the minister. "These berries are as fine as any I've ever seen. I hope, however, that you did not gather them yesterday—the Sabbath."

"No, sir," replied the child. "I pulled 'em early this mornin', but they was a-growin' all day yesterday."—[Harper's Weekly.

At the Churches Yesterday.

Baccalaureate Sermon.

THE largest audience that ever assembled in the Highland Park Presbyterian Church heard Rev. Joseph A. Stevenson, M.A., dean of Occidental College, preach the baccalaureate sermon for the students of the college and academy yesterday morning.

The church was decorated with college pennants and banners, and the pulpit was banked with yellow flowers. The faculty, all the students, and many friends were present. A section was reserved for the graduating classes, and the seniors were arrayed in cap and gown. Rev. F. D. Berry, pastor of the church, delivered the invocation and introduced Dean Stevenson. Special music was given by the well-trained chorus choir under the direction of Prof. D. C. Rice. Miss Aneta Trumbull Dodge of Pasadena sang "Come Unto Him" from the "Messiah."

Dean Stevenson took for his text the latter part of Matthew xi, 28: "I will give you rest." He advised the young people to settle the great question as to the authority of the Bible and then to let it be the lamp to light their way in the future. He said, in part:

"The solutions of the great problems in life can be found in Christ's teachings. The problem of the Bible is the one of greatest importance to you now. The authority of the Bible is a fundamental question. Many theories of the Bible have been overthrown, and that has lead many to conclude that the Bible has been overthrown. Let us come to Christ and see if we find an answer that will clear our doubts. In the fullness of time Christ appeared and matched in every detail the picture that had been drawn of Him by the prophets of old. Come look to Him. Study every detail of His life, every line of His character; then look into the old book, aid you must say there is only one rational explanation, 'The holy men of old spoke as they were moved by the spirit of God.'

"The Person that made the book knew Jesus Christ and described Him so accurately that the wayfarer can at once identify Him. When we once know Him we are no longer satisfied with the knock-kneed, invertebrated, shilly-shally, Shakespearean idea of inspiration, and this book not only contains the word of God, but that the word of God should not be broken.

"Man cannot be satisfied with the world; he wants to know of the future. The aspirations of the soul cannot be satisfied with any place, there must be more. It craves fellowship. The soul breathed into man by God can never be satisfied with attainments or possessions—only with the Infinite; with its Creator. There can be no fellowship without similarity; so we must strive to be like Him, who is like the Father."

Summoning the two graduating classes to their feet, his final words to them were:

"Young men and women, you are graduating from Occidental College. You will learn no more here. May you ever sit at the feet of the Great Teacher and learn from Him, that you may have rest, perfect rest, peace, sweet peace, joy, full joy; because you have Him. Now we go our different ways, but God grant that we may follow in His steps that we may have rest in our souls, and that in the fullness of time we may enter into that final rest with Him and be like Him."

The Man Within the Man.

At Temple Baptist Church yesterday Prof. B. P. Stout of Philadelphia, the well-known "singing evangelist," assisted at both morning and evening services, closing the evening service with Paul Lawrence Dunbar's "Lil' Brack Sheep"—the plantation version of Sankey's "Ninety and Nine." Rev. Burdette preached in the morning on "The Man Within the Man," taking for his text John i, 42: "Thou art Simon, the son of John; thou shalt be called Peter."

"Once upon a time," he said, "in the season of a freshet, two men ferried me across the Missouri River. We fought with a current running like a mill race, boiling with turbulent eddies and tangled with sudden cross currents. The water held in restless solution all the mud that could be carried above the point of absolute precipitation. Opaque with yellow clays, it completely hid my hand when I trailed it over the side of the boat. I said, 'Why can't we just as well walk across this drifting puddle as to row through it?' The Missourian, at the bow oars, jealous for his river, replied, 'It's a good river all the same. It's no worse at the bottom than it is at the top.'

"Four months later I crossed the river at the same point at low water. And the man was right. The river told the truth. There were miles of dry land, over which he had tolled at the oars. The sand bars standing high in the river bed were good, clean sand. And the sun-baked stretches of ground was good, rich soil, with acres of splendid Missouri corn growing on it, waving its tassel plumes high as the head of a mounted man. With all its surface muddiness, the river held nothing of which it had any need to be ashamed—nothing that was not good and fertile, and all the better for its deposit of alluvial mud.

"Years afterward, I walked out one day on the famous old 'Kapellbrucke,' the medieval bridge that crosses the emerald clear Reuss, where it issues from beautiful Lake Lucerne. It is not very deep, and looking down into its crystalline swiftness, I saw what the turbid Missouri had denied me. I saw the bottom of the river. And much did I prefer the honest obfuscation of old 'Big Muddy.' For the rocks at the bottom of the limpid Reuss are slimy with the pollution of old sewage. And there are mits of rusty tin, and wire, and old shoes, and broken bottles, and all manner of urban trash. I said, 'Either the sea, which is deep enough to cover its hideous secrets beautifully, or the muddy river, which is honestly turbid enough to hide them, for me.'

"And yet, the offensive things at the bottom of the stream were not a part of the natural river. All that it needed was cleansing and restoration, and the shining pebbles and stones of blue, and gray, and white, in which God had laid its pure course would magnify its beauty, and make every wavelet and ripple the lovelier for the setting. God never threw that trash into His mountain stream. The things that marred and disfigured His river were the things that men put into it—the refuse of their own lives, and holdings. God breathed into man the living soul, with pure and noble impulses and faculties, and splendid possibilities. Man himself has marred the beautiful image of his Maker with the stains and deformities of sin."

Advice to Parents.

In his sermon which followed the Children's Day exercises at the First Presbyterian Church yesterday, Rev. Frank DeWitt Talmage sought to give words of counsel to parents with reference to their treatment of children. Among other things he said:

"All parents in the first place should show their children that they have no parental favorites. They should prove that all the children, as individuals, have an equal share of a father's and a mother's love. They should convince their boys and girls alike that no one child occupies a larger area in the parental heart-cells than every other child. For when a child begins to feel that the father or mother does not care for him as much as the rest of the children that child immediately begins to despise that parental partiality. Love feeds on love. And yet there are thousands upon thousands of homes in America in which you would not have to visit more than two or three days before you could, while there, tell which was the favorite son or daughter. That child will perhaps be better dressed, as old Jacob accused the jealousy of his other children by buying for his favorite boy, Joseph, a coat of many colors. That child will have a better room in the house than the other children. He will have more spending money. He will be allowed to do what the other children are not allowed to do. On the other hand, the child which is not the parental favorite will often be shoved into the background, or sent away to the country, as Jesse sent his youngest son, David, out to tend the sheep.

"Parental favoritism has caused many a boy or girl to be skeptical of a father's or a mother's love—the same kind of a skepticism which, in India, a little girl had, who a few years ago, made a significant comparison to an American missionary. In India, a daughter is supposed to be of such a low order of creation that some Mohammedan priests assert that women have no souls and no hereafter. And so, one day, when this little girl was trying to describe God's love for her sex, she said: 'Why, it is the smallest love in the world, if it is a love!' 'How small is that?' asked the lady missionary. 'Oh, very, very small.' 'But how small?' 'Why,' answered the young Indian maiden, 'the love of God for us women is as small—it is as small as the love of my father felt for me on the day that I was born.' May God never allow you, O father and mother, to still such a distorted idea of parental affection into any child's mind and heart, on account of favoritism for some of your children at the expense of the others. May God inspire every one of you to teach your boys and girls that each one of them has a full measure of your love."

Seventh Annual Sermon.

On Sunday evening, Rev. C. C. Pierce, pastor of the Memorial Baptist Church, preached his seventh annual sermon, taking for his topic "Standing for God." After a brief review of the work of the past seven years, both in the Memorial Church and throughout the whole of Southern California, he said in part: "One thing that is needed in the development of the work to which the church of Christ is committed today is clear-cut ideals, purpose or aim. The Christian world today has not sufficient clear-cut plan and purpose in its work. We do not see the planning that is seen so conspicuously today in the material world. The church has done a great deal of drifting, with no definite ends. We have too long gone round and round the same old circle, but often find ourselves about where we started out. We as a church have sought to have our ideals

Rev. C. C. Pierce

for this present time, and we can see that we have been working them out definitely and surely.

"First of all we have stood for the truth as it was exemplified in the life of Jesus Christ, and not as it was befogged and misdirected by medieval philosophy. We have stood for a gospel that could live on this earth in the sunshine, and with its everyday clothes on. We have stood for a religion that was a life, rather than a dogma.

"During the past seven years we have had our trials, we have at times been misunderstood, we have had our burdens to bear, but all the time have been bearing a living testimony to the truth. God has been with us and that is best of all. We at present number some 450 in membership. The past seven years have been years of steady growth and power along many lines. We have wiped out our great mortgage. We have installed a fine organ. We have developed a Sunday-school which is second to none in the country, and have a number of young people's organizations which are doing splendid work along many lines of practical charity and good citizenship. Last year we were the banner church in all Southern California, for State missions for our own denomination, giving nearly $2000 for that work alone. In seven years, we have added nearly five hundred new members, and have expended thousands of dollars in local charities and mission work. We have shown that we are not a stagnant pool but a living fountain, and our ideal for the future is to refresh and help all who come within the range of our influence."

The Chief Corner-stone.

The Eighth-street Christian Church has recently sold its property on East Eighth street near Central avenue and has purchased a fine corner at Twentieth and Naomi streets, where it is erecting a handsome and commodious church building which will be ready for occupancy in a few months. Yesterday afternoon this church had a corner-stone laying, at which Rev. A. C. Smither, pastor of the First Christian Church, under whose fostering care the Eighth-street Church was started, delivered an address upon "Christ the Chief Corner-stone." After the laying of the corner-stone by Rev. Willis Meyers, the pastor of the church, and Elder W. J. A. Smith, its leading elder, Rev. Smither spoke in part as follows:

"The laying of this corner-stone is suggestive of Him who in His spiritual temple is the chief corner-stone, as is declared of Him in scripture. It will be observed first of all that this stone was laid by God. All things spiritual as well as physical had their beginning in Him and find their value and significance in that they are expressions and interpretations of God. It was by the will of God that Jesus came to the world with a wonderful message of love and forgiveness. God placed this corner-stone in Zion both physical and spiritual. Jesus was a Jew, was born of the Jews and came with His first message to the lost sheep of the house of Israel. [illegible] the Jews were a prepa[illegible] was the corner-stone [illegible] in the church of the [illegible] its charm and center [illegible] and example.

"The church is the [illegible] to the world of the Ch[illegible] an interpretation of [illegible] The Christ and the ch[illegible] spring of God, each [illegible] itual image and after [illegible] Jesus is the elect, the [illegible] for the corner in the [illegible] of God. He was elect[illegible] by the divine goodness [illegible] His fitness for the [illegible] evidenced by the great [illegible] cured to the world through [illegible] less ministry. He was [illegible] His nature and in His [illegible] cannot describe his worth [illegible] not compute His value. [illegible] only be expressed in [illegible] Strange as it may seem, [illegible] lowed by men, was [illegible] own nation. He came to [illegible] His own received Him [illegible] many as received Him [illegible] He the right to become [illegible] God. Though rejected by [illegible] made head of the corner [illegible] cipal glory of the church [illegible] Christ is its relation to [illegible] the chief corner-stone."

Religion and Business.

Yesterday morning at the [illegible] pal Church Rev. Baker P. [illegible] tor, preached a sermon [illegible] devoid of ecclesiastical [illegible] of practical lessons for [illegible] and other historical [illegible] yesterday was Trinity [illegible] erence to this fact was [illegible] was of the doctrine in [illegible] quent discourse. Following [illegible] of the good points made [illegible] the text from Romans, [illegible] in business, fervent in [illegible] the Lord.'

"We see triune division [illegible] Bible. There are three [illegible] etable, animal and [illegible] states of matter, solid, [illegible] three parts to a human [illegible] mind and spirit; there [illegible] water. All forms of the [illegible] A light from a candle [illegible] tallow, wick and air. [illegible] how this is just about [illegible] do how the Trinity exists [illegible] propose to discuss the [illegible] doctrine. I wish you to [illegible] me a trinity of duties [illegible] business, fervent of [illegible] serving God. Each one [illegible] which no other can do. [illegible] dignify every stroke of [illegible] the world. In this view [illegible] life regal. Labor is not a [illegible] of sin. Labor is God's [illegible] Highest angel in heaven [illegible] ceasingly. The tiniest [illegible] must work or perish. The [illegible] is running water, the [illegible] that formed with a brook. [illegible] est metal is the metal in [illegible] All that is beautiful is not [illegible] industry, high in literature [illegible] wrought out by great toil.

"There is no such distinction [illegible] work as sacred and secular, [illegible] 'business is business' as if [illegible] do business in some [illegible] which the gospel ship never [illegible] if she does get a cold [illegible] ness is a great science. No [illegible] man can do business as it [illegible] day. Education is not got [illegible] nor out of books. The [illegible] learn his skill at the [illegible] sick. The navigator learns [illegible] ness on the ship's deck in [illegible] I claim you business men [illegible] because of your faith. You [illegible] faith in the honesty of men [illegible] see, in banks in far-off [illegible] you never go.

"You say it is easy to be [illegible] church on Sunday morning, [illegible] to be religious all the rest of [illegible] at your business. Not if your [illegible] is honest. If it is not you [illegible] ter change it, and make it [illegible] say religion and politics will [illegible] together. Why not? Is there [illegible] of moral commandments for [illegible] and another for the other six [illegible] the week, one for your leisure [illegible] hours, another for your life [illegible] Are there two sermons on the [illegible] one for Sunday and religion, [illegible] for week days, business and [illegible] If you are honest in business [illegible] religion will not hurt your [illegible] nor your business make religion [illegible] If you are doing close [illegible] same sermon on the mount [illegible] so perfectly into your [illegible] tions will make no difference [illegible] speech from the platform, will [illegible] fit into the lines of your [illegible]

Idle Money Is As Bad As An Idle Man
Invest it in Centrally Located Business Property.

The Trustee Company's method of dividing the ownership of Business Property has solved the problem of finding an investment that is safe, free from depreciation, of satisfactory earning power, free from trouble, and one that can be used as collateral or easily converted into cash. Investment where one's capital is constantly and rapidly growing in value.

This affords an excellent opportunity for anyone having money to invest in the rapid increase value that is coming to all centrally located business property in this city and at the same time to receive a better earning power than they could get in any other manner, from the rental of the property than they could get in any other manner.

The Trustee Company does not deal in speculative property but in the best income paying property in the heart of the business district where the safest investment is unquestionable.

Any amount may be invested in one of the most valuable properties in the city with rental earning and increase value results to each investor in the same proportion as if he owned the entire property.

If you have any idle money, make it work for you. For particulars address

STYLISH
Button Oxfords
$3.50 PER PAIR

Dame Fashion has never evolved anything more stylish, dainty and pretty in the way of women's footwear than the button oxford.

They're quite popular again this season.

We have a splendid $3.50 button oxford that for style, quality and real value can't be excelled. Made of Corona patent colt with mat kid top and quarter. The popular Tudor last. Has flexible welt sole and Cuban heel. A very handsome shoe. Same style in tan at the same price.

Place and Luncheon **Plates** for Wedding Gifts

Necessary to Every Well-Ordered Table

Nothing more thoroughly acceptable to the June bride than fine china. You don't need to buy a full dinner set.

Why not select a dozen fine plates? Every table needs them—and nowhere will you find a better selection than at Vollmer's.

—PLACE PLATES—
$10 to $50 per dozen.
—LUNCHEON PLATES—
$7.50 to $25 per dozen.
SALAD AND DESSERT PLATES
$7.50 to $25 per dozen.

Lily Cream

Is milk satisfaction worth anything to you? If so, use LILY CREAM—purest and best.

Handsome pin cushion sent free for 25 wrappers from 50c cans of Lily Cream. Ask for the "Lily Primer." It's free.

Pacific Creamery Co.
Los Angeles

earnest discussion of methods for protection is urged. Everything points to a large attendance, and every idea advanced will be given respectful consideration.

At least two plans to offset the stamp system will be offered, and it is known several other schemes are being talked over. Friends of the trading stamp are also invited and will be given a hearing.

SUPERIOR TO LEMONADE.
Horsford's Acid Phosphate.
A teaspoonful added to a glass of cold water, with sugar, makes a delicious summer beverage.

PURE food laws are good. Burnett's Vanilla is pure food. Take no substitute.

FAIR, healthy, satin skin bestowed by Satin Skin Cream and Satin Skin Powder. 25c.

Corona Lithia Water
Will cure your rheumatism. Try it.

Imported Wash Silks

Checked wash silks of various shades, our own importations. Only a small lot left from a large recent consignment; choose from 35c sorts at 20c a yard.

500 yards of loom finished chiffon taffetas in two-tone effects, 19 inches wide. Linings, shirt waist suits or separate waists may be made from these handsome stuffs. On sale at 37½c; less than actual cost at the mills.

Sturdy Table Linen Remnants Reduced One-Fourth

A chance to get the dependable sorts of table linens at lowered prices is yours today, the result of our selling what we call remnant lengths of ½ to 3 yards. Few housekeepers that can't make good use of these sizes, they're ample for most tables, and they come in practically every weave we carry in stock. To make the clearance speedy, we change the price on every piece to 25 per cent below its original marking.

Yet linens have advanced from 10 to 20 per cent in the last four months!

High-Grade Rugs
Very Small Prices

This rug store of ours brings at all times to the limited buyer or to the great buyer the very best obtainable values, because of the tremendous business we transact.

We've just received the fall patterns—FALL patterns, please note—in Body Brussels rugs, which we'll be glad to show you at any time.

Advance styles don't indicate advanced prices by any means; and to prove it further, note these quotations on the best grades of sterling rugs:

6x9 Granite Art Squares; fast colors, new patterns, $2.

7.6x9 Granite Art Squares, $2.50.
9x9 Granite Art Squares, $3.00.
9x10.6 Granite Art Squares, $3.50.
9x12 Granite Art Squares, $4.

Tapestry Brussels rugs, in beautiful soft colors and designs; sold elsewhere at $16, here $12.85.

Tapestry Brussels 9x10 in size, worth $15, here $11.85.

Tapestry Brussels rugs, 7x9 in size, worth $10, for $7.90.

Porch furniture of every sort and description. A postal or 'phone request will bring a man with particulars as to the cost of putting porch shades on your piazza. Probably it's less expensive than you fancy, too.

White Glace Gloves for Commencement

Pay $2.75 for $3.50 sorts (16-button) and $2.50 for $3 ones (12-button.) We've every size now in both lengths; white and cream colors in glace kid, which fashion says is correct with light gowns to be worn at graduation affairs. While the sale will continue throughout the week, it's wisest to come today to be sure of being fitted.

Coulter Dry Goods Co.
225-7-9 South Broadway
224-6-8 South Hill Street

Beginning July 7th, and continuing until September 22d this store will close at 12:30 on Saturday afternoons. Plan your purchasing accordingly.

White Summer Silks
Some Greatly Underpriced

	Reg.	Spec.
27-inch Japanese Habutai silks	65c	50c yd.
36-inch Japanese Habutai silks	$1.25	$1.00 yd.
36-inch Japanese Habutai silks	75c	60c yd.

White Shanghai Silks—genuine importations, for summer dresses and shirt waist suits, 24 to 36 in. wide, 85c to $1.75 a yd.

White Shanghai All Silk Duck—a novelty this season, will stand washing, 24 inch width, 85c a yard.

Silk Striped Peau de Crepe—a late product in these popular silks, white grounds with black lines or dots, 24 inches wide, $1.25 and $1.50 grades, $1.00 a yard.

White Peau de Crepe—with stripes of black, blue and rose, for wash shirt waists, 23 inches wide, regularly $1, now 85c yd.

Embroidery Sale
10c Yard for 15c and 35c Values

The market has been bare of embroidery bargains. The regular demand has been great, we've doubled orders of previous years, and little surplus lots have been accumulating until the sale of today results. We could hardly duplicate them all at full price.

1 1-2 to 9 inch bands and edgings—some applique designs, as well—of Swiss, cambric and nainsook, in exquisite patterns, many with matched insertions. Then there are dainty patterns for infants' apparel—hemstitched edges and insertions.

10c for embroideries worth between 15c and 35c a yard, tempting even if you feel you have plenty.

Cottons: Some Silk Finished
Many of Unexpectedly Good Value

Hosts of pretty organdies in white grounds, striped with fancy mercerized white bars, then flowered with large and small designs in lavender, pink, green and blue, fit for occasions that demand fine apparel. The strength of the showing lies in the fact that every piece (and there are 80 or more) is unlike its neighbor, every pattern is a new one, and every one is absolutely perfect. 15c a yard for these 25c organdies, on Monday.

Belfast dimities for this season show the new possibilities of cottons. Finely corded or barred grounds, exquisitely flowered. Twenty-five cents is remarkably little to pay, too, for real importations.

A marvelous showing of fancy white goods for waistings; no popular style has been omitted, and the values are beyond question. 15c a yard for 25c and 35c qualities, 28 inches wide.

Ten cents a yard for white Glasgow linen finish suiting; it's almost invariably 15c.

Fifteen cents a yard for 36-inch white Indian head suiting; soft finished.

We've a standing arrangement to take the advance samples of the best manufacturers of embroidered shirt waist patterns, so we always command generous concessions; in addition, some ten dozen used by a traveling man came to us at a ridiculously cheap figure. Consequently you get some very unusual bargains in popular Persian lawn mercerized patterns; embroidered cuffs, bands and fronts and plain material, go with each.

The drummer's samples sell like this: $1 and $2 grades for 35c; manufacturers' samples, $2 grades for $1 and $3 grades for $1.50 each.

We prepay charges on all orders of $5 or over to points within 200 miles of Los Angeles.

Two Sterling Lining Satins

We have it made exclusively for us and put our name on this lining satin—Coulter's Faultless—we guarantee it for two seasons' wear, and sell it in every shade for $1 a yard; 36 inches wide.

All silk lining satin, 36 inches wide, $1.50 a yard; cheap as a cotton-back satin. Guaranteed for two seasons. Here in every color.

$1 Ribbons, 50c
On Sale Tuesday.

In time for your summer dresses come these beautiful Dresden and ombre ribbons, in the large and small flowery patterns on white and tinted grounds which are so much wanted now. Some have colored edges, some have white. You can see the different kinds in a front show window. It's our yearly sale of high class ribbons, made possible by careful preparation months in advance, or even we couldn't sell 7 or 8 inch ribbons for which we usually get a dollar, at fifty cents a yard.

But none on sale until Tuesday.

Have Your New Coat Made to Measure

Half of the worry of having new clothes comes after the material has been selected; to have it properly made up. In our manufacturing department we've satisfactorily solved that problem for hundreds of women; and we want to do it for you.

Take the question of a separate coat, for example. Perhaps you want one for automobiling use, for traveling wear, if necessary, and for general utility purposes. A long raglan is proper. Or maybe your fancy favors the white serge box coats, with black velvet collar and cuffs; or a loose box of some novelty mannish mixture or suiting. No matter what the style, all that it's necessary for you to do is to come to our Wool Dress Goods Section and select the material you prefer (from an assortment second to none in the Southwest;) have your measurements taken and your fittings made at your convenience.

All work is done in the building; we employ men tailors whose skill is unquestioned; so, because we don't have to rely upon outside sources for the making, the finished garments come to you at a cost so little it sounds almost unbelievably good luck. As little as ten dollars will pay for both material and making of a handsome coat.

And our offer to make free of any charge, seven-gore circular skirts from materials selected here at $1 or more a yard, holds good always.

Suppose you talk it over with us today.

Knit Underwear

Were you among the crowds that besieged our knit underwear counters Saturday? If not, you'll be sure to come today.

We know there's not a single worthy style of summer underwear missing from all our big collection, for women and children. We've union suits with low necks, no sleeves, and knee length drawers; low necked, sleeveless vests of lisle thread; Dr. Deimel's Linen Mesh (which is about as cool as none at all;) Merode, Swan and dozens of others.

Ricksecker's
EDGEWOOD VIOLET
Perfume

Wash Day Necessities

We say our Snowflake Borax Soap and Petroleum Bleaching Soap are wash day NECESSITIES because they DO lighten and make more satisfactory the work of this trying day.

They save time, whiten the clothes, do not injure the hands or the daintiest fabric, and are indispensable wherever hard city water is used.

These two—and the best of all other wash day requisites—starch, bluing, etc., you'll find at Jevne's always.

Let Jevne's laundry soaps shoulder the burden of your washing today. Phone us your wash-day wants—NOW.

Ask for our free catalogue.

THE WEATHER.

U. S. WEATHER BUREAU, Los Angeles, June 10.—[Reported by A. H. Wutzbaw, Local] June 10.—[At 5 o'clock a.m. the thermometer registered 60 deg.; at 5 p.m., 81 deg. Relative humidity, 5 a.m., 77 per cent.; 5 p.m., 6 per cent. Wind, 5 a.m., east, velocity 3 miles; 5 p.m., southwest, velocity 9 miles. Maximum temperature, 82 deg.; minimum, 58 deg. Barometer reduced to sea level.

SAN FRANCISCO, June 10.—Forecast:

San Francisco and vicinity: Cloudy Monday, probably showers; fresh southwest wind.

Sacramento Valley: Probably showers Monday, fresh south winds.

Los Angeles and vicinity: Fair Monday; fresh west winds.

Classified Liners

Times "Liner" Advertisers—Important. Note Change in rate for Sunday classified advertisements. Commencing Sunday, October 1, 1905, the rate for Sunday "Liners" was raised to 1¼ cents per word for each insertion; minimum charge, 25 cents, as at present. This slight advance is amply justified by the present Sunday circulation of The Times, which averages over 70,000 copies. (When the 1-cent-per-word rate was established in 1895, The Times Sunday circulation was only 14,000 copies.) The "Liner" rate for the daily—1 cent per word—will stand as at present.

Telephone your want advertisements. Ring up "The Times" any time of day or night, and secure prompt and careful attention. Rates one cent a word each insertion in the Daily; 1¼ cents per word in the Sunday edition; minimum charge, 25c.

"Liner" (classified) advertisements for Sunday insertion received over the counter or by telephone after 11 o'clock Saturday nights will be inserted under heading "Too Late to Classify."

The Times cannot guarantee accuracy or assume responsibility for errors of any kind occurring in telephoned advertisements.

Sunday real estate advertisements, to be classified properly, must be in The Times office before 10 o'clock Saturday nights. Rate 1¼ cents per word.

DUCK SEASON PROMISING.

Great Sport Is Looked for Next Winter.

Large Lakes of Water Will Attract Birds.

Salton Sea a Big Factor in Local Conditions.

Although it is a far cry on to October 15, when the open season for duck begins, many local sportsmen are already mixing dope and speculating on the possibilities for the winter. All unite in saying, however, that the prospects at this time are better than for many years, and local sportsmen expect the times of their lives next winter with ducks.

The past winter has been one of the best in the duck line that the local hunters have ever enjoyed, but nothing to what is coming. Heretofore the ducks in their winter flight from the far north have had few resting and feeding places that were not alive with guns sent on their destruction. From the sloughs and ponds around Stockton and on south on the west side of the San Joaquin River, there have in the past been but few places where ducks could light even in the night, with the exception of the artesian well reservoirs in what might be called the sink on the eastern side of the Coast Range, Tulare Lake, in the county of that name, was the first real large body of water, and it was not desirable on account of so much alkali water flowing into it that killed off considerable duck feed. Still, it was water that attracted ducks in their southern flight.

Farther south fifty or sixty miles is the Buena Vista Lake in Kern county, into which flows the Kern River, or what is left of it after the irrigating ditches take out their supply in the spring. This lake has really been the headquarters of the ducks and geese, for it has been banked up with levees to form an irrigation storage reservoir for the Kern County Land Company, which owns 400,000 acres in Kern county, and being jointly owned by this company and Henry Miller, has been a preserve for fowl, owing to the fact that it was private property. On this lake is said to be the best winter duck shooting in the State, and many local gunners have enjoyed sport there. As a matter of fact, it might be said that this lake or reservoir makes duck shooting what it is in Southern California; without its shelter it is doubtful if many ducks would attempt the long flight to these waters.

Reports from Tulare and Kern counties state that both Tulare and Buena Vista lakes are full this year for the first time in many years, and with the mountains full of snow that promises abundant summer floods in the Kings and Kern rivers, the prospects are that these lakes will be nearly full until next winter's rains come, and these conditions will naturally keep the ducks in the south central part of the State longer than usual.

Then again, the Salton Sea, which is a real ocean of water (covering 250 square miles) will have its effect on conditions in this end of the State, and serve to keep the ducks down south. While it will not provide much feed for ducks, it will keep them here.

For these reasons local sportsmen are anticipating great duck shooting.

Legal

Notice to Grading Contractors.

NOTICE IS HEREBY GIVEN THAT sealed proposals will be received by the board of directors of the Huntington Park Association, of Riverside, Riverside county, California, up to two o'clock p.m., June 13, 1906, for material and labor for constructing the Mount Rouidoux drive, in the city of Riverside, as per plans and specifications on file with the clerk of the board of directors of the said association, and open to the inspection of bidders.

The work consists principally of 22,000 yards of excavation, largely rock, and is estimated to cost $22,000.00.

Said board reserves the right to reject any and all bids not deemed advantageous to the association.

By order of the board of directors of the Huntington Park Association, Riverside, Cal., made June 5, 1906.

(Seal) C. W. BARTON,
Clerk of the Board of Directors of the Huntington Park Association, Riverside, California.

NOTICE OF SALE OF GOVERNMENT PROPERTY. Notice is hereby given, under an authority of the Secretary of Agriculture that the following named property of the United States Department of Agriculture, at Santa Ana and Fullerton is offered for sale, and sealed bids for the purchase of the same will be received at Riverside, California, on or before 2 p.m., Monday, June 18th, 1906, when and where any bids submitted will be opened and award made to the highest bidder or bidders. The property at Santa Ana consists of fencing, portable irrigating flumes, seed flats, cold frame sash, cold frames, cloth plant houses, hot water heater, iron pipe, hose bibbs, flower pots of various sizes, barn and building to house heater. The property at Fullerton consists of shed buildings, tarpoons and hay. A detailed and descriptive list of the above-named property may be obtained from A. V. Stubenrauch, 417 Tenth street, Riverside, Cal. Prospective bidders may inspect the property offered for sale at the U. S. Plant Improvement Gardens, Durant street, Santa Ana, and at Fullerton. Purchasers must, if required, remove property prior to June 30, 1906. Bids must be sealed and marked "Bid for Purchase of Government Property at Santa Ana and Fullerton," and must be delivered to A. V. Stubenrauch at the address mentioned above, on or before June 18th, 1906. Bids must be accompanied by a certified check for at least 10 per cent. of the total amount offered, the balance of purchase price to be spot cash upon delivery of property. The right is reserved to reject any or all bids.

PROPOSALS FOR THE SALE OF FLOUR AND CORNMEAL.—Headquarters Pacific Division, Presidio, San Francisco, Cal., June 6, 1906. Sealed proposals, in triplicate, for the purchase of approximately 13,500,000 lbs. surplus Flour, more or less, and 100,000 lbs. surplus cornmeal, more or less, from the Finance Committee, Relief and Red Cross Funds, San Francisco, Cal., will be received at office Officer in Charge General Relief Depots of Subsistence Supplies until 12 M., June 18, 1906, and then opened in the presence of bidders. Information and blank proposals furnished on application to Major C. R. Krauthoff, Commissary, Folsom St. Dock, or to the Purchasing Commissary, U. S. Army, Seattle, Wash., or Vancouver Barracks, Wash. Envelopes containing proposals should be endorsed: "Proposals for the purchase of Flour and Cornmeal," and addressed or delivered to MAJOR C. R. KRAUTHOFF, In Charge, General Depots of Relief Subsistence Supplies, Folsom Street Dock, San Francisco, Cal. A. W. GREELY, Major-General, U. S. Army, Commanding, Pacific Division.

PROPOSALS FOR INDIAN SUPPLIES.—Department of the Interior, Office of Indian Affairs, Washington, D. C., May 9, 1906. Sealed proposals, plainly marked on the outside of the sealed envelope: "Proposal for Indian Supplies, Pacific Coast," and addressed to the Commissioner of Indian Affairs, Washington, D. C., will be received at the Indian Office until 2 o'clock p.m. of Thursday, June 21, 1906, and then opened, for furnishing the Indian Service with groceries, furniture, crockery, agricultural implements, paints, oils, glass, tinware, harness, leather, shoe findings, saddlery, etc., stoves, hardware, and a long list of miscellaneous articles. Bids must be made out on government blanks. Schedules giving all necessary information for bidders, will be furnished on application to the Indian Office, Washington, D. C.; the temporary office of the U. S. Indian warehouse, No. 2509 Pacific ave., San Francisco, Cal.; the Post-Intelligencer of Seattle, Wash.; The Times of Los Angeles, Cal., and the Morning Oregonian of Portland, Or. The department reserves the right to reject any and all bids or any part of any bid. F. E. LEUPP, Commissioner.

COAST SHIPS MENACED.

Drifting Logs on the Pacific Endanger Vessels—Wrecked Raft Is Responsible.

[San Francisco Call:] Capt. Ernest Bent, commander of the Japanese liner Hongkong Maru, which arrived yesterday from the Orient, is glad that he was able to make his approach to port in daylight. If he had come in at night he believes his vessel would have been seriously crippled, as in the darkness it would have been almost impossible to have avoided collision with some of the immense logs, which were first encountered about thirty miles the other side of the Farallones and through which the Hongkong threaded her way until she passed in beyond the nine fathom buoy.

These logs formed part of the raft which left Astoria May 6 in tow of the steamer Francis H. Leggett. The Leggett lost the raft, which subsequently went to pieces, to the great peril of coastwise shipping. They are logs of great size. Launched head-on by the heavy ocean swell against the hull of a ship, any one of these floating menaces could tear a hole through the stoutest of steel plates. If the propeller of a steamship struck one of these derelicts the propeller would do no more propelling, if the engines were not crippled by the jar.

These logs are scattered across the entrance to this harbor like a fleet of submarine boats, and are every bit as deadly. Far beyond the Farallones they float, lurking dangers to approaching and departing craft, and vessels from the south report encounters with these silent monsters from the northern forests long before the bar is reached. Capt. Bent has made a report concerning the logs to the United States Lighthouse Board, and masters of departing vessels are warned to keep a sharp lookout. There were 5,000,000 feet of lumber, all made up of huge logs, in the wrecked craft.

LOCALS WIN CRICKET GAME.

DEFEAT SANTA MONICA MEN BY LOP-SIDED SCORE.

Bowling of H. Justice of Visiting Team Is Bright Feature of the Match—Brown and Gadsdon of Los Angeles Run Up Good Scores. Thirteen Men on Each Team.

Los Angeles defeated Santa Monica Saturday in cricket out at Agricultural Park by a score of 105 to 47, and the contest was a very good one, considering the heat of the day, and the absence of some of the regular players of both teams. Owing to the large number of available men who came to see the sport, the captains of the two teams decided to play thirteen men on a side instead of the usual eleven, and the extra fielders on each side made it more difficult to get runs. The Los Angeles players shone in this particular, not a catch being missed, and owing to the excellent wicket keeping of J. C. Brown, only two runs were made by Santa Monica on byes.

Santa Monica went in first, with Tyler and Hunt facing the bowling of Barwell and Mitchell. The batsmen made fourteen runs before they were separated, Tyler getting thirteen runs, which was the highest number made by any Santa Monica man. The inning closed for a total of forty-seven. Los Angeles started out in a bad way, Cadman was run out, no runs having been made when the first wicket fell. A. R. Mitchell was then bowled by H. Justice for two wickets and four runs, and H. B. Crouch, three wickets and six runs. Things loked black for Los Angeles, but took a turn when Barwell went in and joined J. C. Brown, and before Barwell was bowled by H. Justice, the score was fifty-one. Then Gadsdon joined Brown and the score soon ran to sixty-one, but Brown soon lost his stumps to the bowling of H. Justice. After these two good men went out the score reached 105 before the inning was over.

The scores:

LOS ANGELES.

J. C. Brown bowled H. Justice	35
Thomas Cadman, run out	0
A. R. Mitchell, bowled H. Justice	0
H. B. Crouch, caught-bowled Justice	0
A. E. Barwell, bowled H. Justice	22
O. F. Gadsdon (capt.) b. Bainbridge	28
J. L. Eyre, bowled H. Justice	4
A. Cooper, run out	2
T. D. Banford, bowled H. Justice	2
E. A. Duncan, bowled Bainbridge	4
W. Maggott, not out	2

Rapid Transit.

Away back in '63, two newly-arrived sons of the Emerald Isle enlisted in the service of their adopted home and were stationed at Fort Porter for drill and preparation for the front. Among the duties of this pair was to clean the cannon, etc. While doing this one morning they got to experimenting by putting balls in the cannon and by getting a ball in a little large they were in a quandary as to getting it out again without being short on inventory.

"Hould on," said Mike, "I have it, Pat, you go and get a kettle and we'll save the ball."

Doing this, Pat took a position in front of the cannon to catch the ball, while Mike touched off the powder. Of course there was a report and Pat left America by Air Line.

The gun report brought an officer to the spot immediately, who asked Mike what the trouble was and what became of his mate.

Mike replied, "He's gone to Canady, sor."

"I like that. And what did he go there for?"

"I dunno, sir. Maybe for some praties. He took a kettle wid 'im."

"And did he say when he would return?"

"He did not, sor; but if he comes back as quick as he wint, he won't be long gon."—[Exchange.

READY FOR BOOM OF THE STARTING GUN.

Trans-Pacific Yacht Race from San Pedro to Honolulu to Begin Promptly at Noon Today—South Coast Fleet to Circle Santa Catalina Island.

BY STINSON JARVIS.

SINCE her arrival at San Pedro, the Hawaiian racing schooner La Paloma has had her underbody cleaned. This preparation for her participation in the trans-Pacific ocean yacht race was rendered necessary by the fact that she has not been docked for over two months. Since her twenty-nine-day passage from Honolulu the time has been occupied in having repairs made in San Francisco, where she had to get a new bowsprit—the other being sprung in the hard head seas experienced in her eastward passage.

Capt. Mosher had the fleet, light-weather schooner towed through the narrow passages of the inner San Pedro harbor until Mormon Island was reached on the way to Wilmington. Here the boat was moored in the right position so that the falling tide would leave the fin and underbody exposed as the schooner settled on the muddy beach.

LURLINE'S HANDICAP.

Clarence Macfarlane's yacht will have an advantage here, as Commodore Sinclair's schooner Lurline has not been out on the ways for about a month. This was at San Diego, when she was being prepared for her voyage to San Francisco—the start of the race being at that time scheduled for May 19. Ever since it was arranged that the start should take place at San Pedro, the Lurline has remained in the warm and quiet waters of the outer harbor, and it has been much regretted that there are no proper dry-docking facilities at San Pedro which could put this boat's bottom in the best possible condition for the race.

In every other respect, the Lurline seems to be well fitted out for a prolonged contest of this kind. There are no half-worn sheets and halyards on her, and any weak spots that might cause a temporary breakdown are certainly not visible to the naked eye. The new sail made by C. A. Lewey of Terminal Island has given complete satisfaction, and while the sails are strong for hard winds they also sit by the wind in a way that does credit to the lofts they came from.

The Lurline also carries a fine brass breach-loading carronade for signaling at sea, and the additions lately made to her length have had the effect of gracefully trailing out her after lines in a way that make her leave the water cleaner when she is running on her side, while also removing that bunty, chopped-off look which was so pregnant in yachts of earlier date, and which is still visible in La Paloma.

Speedy yachts in trim for the boom of the gun that will start them today on race from San Pedro to Honolulu.

GREAT SPREAD OF CANVAS.

The amount of canvas that the Lurline can show when it comes to taking the trouble to set it is greater than some of her more casual acquaintances are aware of, and when it comes to balloon jibs and spinnakers it will be found that Commodore Sinclair does not enter this big contest in a half-prepared way. He has had the advantage in earlier years of a long education in the New York methods, and apart from actual practice in the best of schools he is a close reader on the subject and keeps himself thoroughly up to date in the last new wrinkle that appears in the neighborhood of Sandy Hook and Marblehead. The fact that La Paloma does not carry a balloon maintopmast staysail is one that may cost her dear when it comes to matching against a full New York outfit.

Commodore Sinclair does not carry any professional captain, as he is his own skipper, but has two mates, and of these, Eddy Olsen, looks like the right stuff. When the call is for "all hands and the cook," Al. McCann will probably be found as good on deck as in the turning of a pancake. This steward explained yesterday that as the Lurline only carries 750 gallons of fresh water, the sea water is used as much as possible, and for this reason the galley sink has faucets for both fresh and salt water.

LA PALOMA'S ADVANTAGE.

The Paloma has two advantages, first in being accustomed to the waters around the Hawaiian Islands and thus better able to pick up Diamond Head and other local peaks than the sailors from the East; and, secondly, in being able to show a greater sail spread in proportion to size of hull.

McTutt's Anemone may be somewhat prejudiced by having a crew that is new to her, this gang having been engaged in San Diego, part of it coming from San Pedro. The mizzen topsail, mizzen staysail and the big jib that is set flying and run out on a bowsprit runner are sails which this crew has not handled; and these English contraptions generally get a hearty "cussing" from American yacht crews; though if really heavy weather is experienced they will like the reefing bowsprit of the English yacht.

With the long horn drawn inboard and the long topmast housed or sent down on deck, the Anemone is in an ideal condition to meet any gale that ever blew, and the mizzen-mast of this ketch will not go over the side like the mizzens of most of our yawls, but is of a size to do business when most wanted. H. B. Nelson, the first mate, has only been on the boat for one week, but Capt. Henry Lindeberg has been on the Anemone for several years, when she was lately cruised by Congressman John Murray Mitchell out of New York; and Lindeberg has a good man in Fred Gilbach, who has been on R. A. Smith's Privateer, Mrs. Osborne's Calypso, W. R. Hearst's Buccaneer, Charles Gould's flagship Nazera, M. C. D. Borden's Vedette, Elbridge Gerry's flagship and other well-known yachts.

The Anemone has no electric dynamo, but is lighted throughout with acetylene gas, which Gilbach says is much preferable to electricity. Her engine, which is now out of commission for the race, is of the Simpson & Strickland make and is of 130 horse-power, and the size and weight of this cruiser may be guessed by the fact that 130 horse power only drives her at the rate of six miles an hour. All her boats, a power launch and two lifeboats, are of English make, and, like the small boats of the King and other British yachtsmen, have the burgee of the yacht's club enameled on both bows. In this case it is the burgee of the New York Yacht Club which is thus shown, and this ornamental custom may well be copied in Pacific clubs.

RAMONA MAY START.

It is just possible that the schooner Ramona may join in the start of the Honolulu racers today, but merely to assist in making a more brilliant yachting picture. Her owner, Douglas White, was to have come up from San Diego on the Anemone, and on Saturday afternoon said that his Ramona was then on her way up from San Diego. As a yachtsman, Capt. White admires the Anemone very much, but admitted that the shortness of her mainmast rather gave her the appearance of being under jury rig.

WHICH BOAT WILL WIN?

Many local sailors visited the newcomers yesterday, and the general impression seems to be that as between the three competitors victory is soley to be disposed of by the quantity of wind. That is to say: If catspaw weather prevails all the way, most of yesterday's spectators say that La Paloma will win by at least a day. In breezes from fifteen to twenty-four miles an hour, the extra length of the Lurline is sure to tell in her favor, and as she is something like thirty-four feet longer on the water line than La Paloma, she is fully expected to outpower and outreach the smaller boat.

But in anything like a gale, or in any winds above thirty miles an hour Anemone is expected to lose her smaller rivals. By Capt. Tindeberg she has been reported in her log as running at fourteen knots an hour—this being reported by a San Diego newspaper. But this alleged speed was made when running under a storm topsail before a gale of wind, and even if her fourteen knots is open to some correction, it is certain that her ninety-two feet of water line can leave her rivals hull-down in a short time if the wind blows hard enough.

As stated by those in charge, the respective water lines are as follows: Anemone, 92; Lurline, 72, and La Paloma, 38 or 39 feet, and in the first thirty miles of today's races there will be some interesting watching of the big hulls against the smaller craft of the local club, which are to sail around Catalina Island, and thus will go in company with the trans-Pacific racers as far as the Seal Rocks at the extreme southerly end of the island. Cups are offered for three classes of these small yachts, and vessels of classes A and B will take part.

This includes Walter Folsom's new Mischief II, Joseph T. Pugh's new Monsoon, the Mischief I, borrowed by Frank Garbutt from Owner Mitchell for this race and possibly [illegible]

practice, for, although keeping close to the island means windward position for the beat on the other side, it is known that there is considerable danger of being becalmed under the great cliffs of Catalina, which influences the breeze for miles to leeward. It is thought possible that the leaders in class A may all be caught in this locality by the slower boats, and that may result, practically, in a second start of the same race.

The Detroit, sailed by Dodge for Byron Erkenbrecher, is in the contest solely to win the best time prize, which is to be given irrespective of time allowance, rig or size.

SPEARMINT IN FRONT.

French Derby Winner Adds to His Brilliant Record by Taking Grand Priz Race.

[BY THE ASSOCIATED PRESS—P.M.]

PARIS, June 10.—The Grand Prix de Paris, for a purse of $40,000 and sweepstakes for three-year-old colts and fillies at one mile and seven furlongs was won today by Sir Tatton Sykes's bay colt Spearmint, who won the Derby on May 30. Juan Gobert's bay colt Briscouer was second and R. Dembol's bay colt Storm third.

Spearmint won by half a length. Thirteen horses started. The greatest interest was taken in the meeting of Spearmint and William K. Vanderbilt's chestnut colt Maintenon, the winner of the French Derby. Spearmint ruled 5 to 2 in the betting and he easily accounted for Maintenon, who ran unplaced. The hardness of the track evidently affected Maintenon.

The Longchamps course was a beautiful spectacle. The delightful weather drew an enormous gathering to the track, among those present being President and Mme. Fallieres and the foreign Ambassadors, including Mr. McCormick, who was accompanied by Mrs. McCormick.

The event marks the virtual end of the Paris season.

POOL MATCHES.

Two Long Strings Will Be Played This Evening by Joe Carney and George Banks.

Those who admire continuous pool will have a chance to see some sport this evening and tomorrow evening at the Rosslyn rooms on South Main street, in a two-night match between Joe Carney and George Banks of this city. Banks beat Carney by a score of 125 to 75 on Friday evening and they will try it again now at the Rosslyn in two games of 150 points each night. Both men are cracks and as no admission is charged, a big crowd of spectators is assured.

Well! Did You Ever!

Thousands of ants in my house yesterday, not one today. K.A.P. did it.

PIZMO'S AUTO RACING GOOD.

Large Crowd of Spectators See Fine Sport.

Parker Wins Mile Event for Two-Cylinder Cars.

Hazard's Pope Makes a Fast Trial Against Time.

[BY DIRECT WIRE TO THE TIMES.]

ARROYO GRANDE, June 10.—[Exclusive Dispatch.] A great crowd of country people saw the first day's racing on the beach at Pismo today, about 2000 coming from as far as Paso Robles and Santa Maria. Several hundred buggies were parked on the beach course, which was roped off and lined with spectators for half a mile. The sand was a little wet and not so fast as yesterday. Results:

One mile for two-cylinder car: First, W. M. Varney in Tourist; second, R. L. Janney in a Reo; third, Bruno Siebel in a Rambler. Time 1:45 1-4.

One mile for stock cars: First, L. C. Parker in a Tourist; second, George Hart in a Pope; third, A. W. Alexander in a Pierce. Time 1:34. The winner receives a big silver cup.

One-quarter on reverse gear: First, H. T. Hazard in a Pope; second, W. M. Varney in a Tourist. Time 1:04.

Free-for-all mile: First, Harold Stone in Hazard's Pope; second, A. W. Alexander in a Pierce; third, E. W. Howes in Frayer-Miller. Time 1:35.

H. T. Hazard's El Valente Pope-Toledo, a stripped car, went against time for the mile. Harold Stone driving the first mile 1:09½, and the second mile 1:07, which is the fastest yet done on the beach. Everybody is sunburned and happy.

SANTA BARBARA RUN.

FINE TRIP OF OLDSMOBILE.

There are various things beside mountains and telegraph poles that an automobile will climb and the newest discovery in this line is a cow with a crumply horn, and if you don't believe this ask Billy Ruess, who chaperones the Oldsmobile machine in this city. He has taken his machine over many obstacles this year, but he had a new experience early yesterday morning that he will not forget for some time.

It happened on a run that Ruess made to Santa Barbara yesterday, and the story can be verified by Bert Dingley and George Adair, who accompanied Ruess on the run. They started from the office of The Times a few seconds after 12 o'clock early yesterday morning for Santa Barbara, but before hitting the road, went to the White Garage on South Broadway for an additional supply of carbide for the auto lamps.

They left the garage at 12:07 o'clock, reached Hollywood at 12:23 and had climbed to the top of Chalk Hill at 1 o'clock, which is a distance of about twenty-four miles. Calabasas was reached at 1:14 o'clock and the top of the Canejo grade at 2 o'clock and Ventura at 2:59 o'clock. The Casitas passes were gone over in fine shape and everything was lovely, but in going down the grade on the other side at about a twenty-five mile gait, an old cow that was lying beside the road became frightened at the noise of the approaching auto, got up and started to cross the road.

She didn't make it, for the auto could not be stopped in time and hit her a smashing blow amidships, knocked her down and climbed on her back. The night was dark and the predicament of the three autoists on top of a struggling cow can be imagined. They jumped out of the machine and by main strength and awkwardness managed to lift it off the cow, and she made tracks for the tall timber at once, very badly scared.

The boys soon found that the machine had been damaged somewhat in the cow climbing endurance contest, for a water connection had been broken and other parts injured. However, they fixed the machine as best they could in the dark, and limped into Santa Barbara, arriving at 5 o'clock. Counting the time from the White Garage in this city the run to Santa Barbara was made in 4:53, which is remarkable for a dark night and an accident.

The machine was a four-cylinder Olds and certainly proved its worth on the trip.

DIES IN ALASKA.

BISHOP'S HEART FAILS.

[BY THE ASSOCIATED PRESS—P.M.]

SEATTLE, June 10.—A special from White Horse, Alaska, says:

"Right Rev. William Bompas, for forty years prior to last November bishop of the diocese of Selkirk, died last night at his home at Caribou Crossing, aged 78 years.

He was ill but a few moments, death resulting from heart failure. He had labored among the Indians of Yukon for forty-three years.

CHILD IS DROWNED.

RIG BACKS INTO CANAL.

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, June 10.—The infant son of Mr. and Mrs. John Rice of this city was drowned this evening by being thrown into a canal which runs along the Y-street levee.

Mrs. Rice and her mother were riding in a carriage with the child, when the horse, becoming frightened, backed into the canal.

The child was rescued and carried to a neighboring drug store, but it was too late for relief.

Minor Baseball.

At San Gabriel yesterday the Alhambra team beat the Bailey & Sammits club of this city by a score of 10 to 4. The batteries were P. Dear and Erwing and Heart and Lucas. The Dolgevilles defeated the Jevnes by an 8-to-3 score at Dolgeville, the batteries being J. Metz and Calahan for Dolgeville, and Ganahl and Housh for Jevnes. Down at Watts the Stars lost to the Newsies of this city by a score of 12 to 2. The batteries were Smith, Moore and Meckler for the Newsies, and Davis and Besshard for Watts. The Reliance team beat Brent's players at Prager Park grounds by the close score of 11 to 10. Raleigh and Hoff made up the Brent battery, and O'Brien and Malowaja the Reliance's.

Gotch Retains Championship.

ST. LOUIS, June 9.—After being thrown by "Farmer" Burns in nine minutes last night, Frank Gotch, champion wrestler of America, threw Burns in straight falls in fourteen and five minutes, respectively.

Ladies Golf Play.

The lady players at the Los Angeles Country Club will have a tournament tomorrow afternoon at 18 holes handicap medal play, and while a sufficient number of entries is assured to make the play interesting, the entry list will not close until tomorrow noon.

Ready for Austrian Auto Race.

KLANGENFURST (Austria) June 10.—The competitors in the Von Herkomer automobile race began arriving here today, with Prince Henry of Prussia among them. He was given an ovation. His car is standing the test well. Minor accidents have occurred to several of the machines.

MOTORCYCLE RUN.

Large Number of Enthusiasts Brave Warm Weather to Take a Trip Over Azusa Course.

Notwithstanding the very warm weather, twenty-three riders and owners of motorcycles, who are prospective members of the new Los Angeles Motorcycle Club, made their first run yesterday to Azusa and the day passed without an accident of any kind. They left this city at 9 o'clock and made an easy run to Azusa, where they had luncheon. The return trip was made in the afternoon.

MANY SWATS AND ERRORS.

DOUBLE HEADED BALL CONTESTS KEEP FANS BUSY.

Warm Weather Has Very Bad Effect on Error Column and Many Players Thought the Ball Was a Hot Stove—Pitcher Ford Hit All Over the Lot—Fair Sized Crowd.

Copious, gushing errors, barrels of hits and hot weather galore were the principal features of the two games played yesterday at Chutes Park by the clubs of the Southern California League and about 250 fans witnessed the sport. In the first game the Examiners beat the Hamburgers by a score of 7 to 6, and in the second the Hoegees had no trouble in defeating the Tufts-Lyon team by a 5-to-1 score.

Some of the boys were in bad form and handled the ball as if it were a hot stove, and owing to this runs came very easily at times, and these particular psychological moments happened to come when the ball was swatted hard, so between the hits and the errors the fans had plenty to look at. The Examiners and the Hamburgers, who played the first game, had nineteen swats between them and thirteen errors, the Examiners having one hit and one more error than the Hamburgers. Lamer for the Examiners made two runs, three hits, two stolen bases, two outs and an assist, but marred all this with three bad errors. Harris of the Hamburgers also hit the ball hard.

In the second game the Hoegees had no trouble in slapping Ford all over the lot for all kinds of hits, and the Tufts helped this business with six errors at critical times. Still, Pitcher Gamble of the Hoegees made three errors, but the team behind him played perfect ball and offset his mistakes. Adams, Snodgrass and McQuade of the Hoegees did extra good work and as the Tufts could do little with Gamble, it was an easy-money game all the way.

The batteries were T. Whaling and P. Mangerina for the Examiners and Hartman and H. Mangerina for the Hamburgers in the first game and in the second the batteries were Gamble and Snodgrass for the Hoegees and Ford and Leahy for the Tufts-Lyon.

LOOLOOS LOSE AGAIN.

HOME RUN WINS GAME.

[BY THE ASSOCIATED PRESS—P.M.]

PORTLAND (Or.) June 10.—Henderson's home run in the ninth won the game for Portland from Los Angeles today. Both pitchers up to this time had kept the hits scattered. A feature of the game was Donohue's work behind the bat. During the game he bagged four foul tips, each after a long run. Score:

Portland, 2; hits, 7; errors, 0.
Los Angeles, 1; hits, 8; errors, 1.
Batteries—Califf and Donohue; Hall and Eager.
Umpire—Knell.

OAKLAND DROPS TWO.

UNABLE TO SWAT BALL.

[BY THE ASSOCIATED PRESS—P.M.]

OAKLAND, June 10.—By bringing home two victories today, the Seals closed their first week in competition with the Oaks with a total of six victories and but one defeat. Score:

Oakland, 1; hits, 1; errors, 4.
San Francisco, 7; hits, 5; errors, 0.
Batteries—Randolph and Bliss; Myers and Bradbury.
Umpire McDonald.
Second game:
Oakland, 2; hits, 4; errors, 0.
San Francisco, 6; hits, 10; errors, 1.
Bateries—Reidy and Hackett; Hitt and Wilson.
Umpire—McDonald.

BREAK EVEN.

EXCITING DOUBLE-HEADER.

[BY THE ASSOCIATED PRESS—P.M.]

SEATTLE, June 10.—Seattle and Fresno pulled off a double-header today before 3500 people. Seattle won the first, 1 to 0, and Fresno took the second, 1 to 0. Both games were good exhibitions of the national game. Score:

First game:
Seattle, 1; hits, 5; errors, 0.
Fresno, 0; hits, 4; errors, 0.
Batteries—C. Hall and Hansen, Lempke and Hogan.
Second game:
Seattle, 0; hits, 3; errors, 0.
Fresno, 1; hits, 3; errors, 0.
Batteries—Jones and Hansen; Herman and Fitzgerald.

STATE LEAGUE BALL.

PITCHER WINS OWN GAME.

[BY THE ASSOCIATED PRESS—P.M.]

STOCKTON, June 10.—Stockton won the first of a double-header here today and tied the second which was called at the end of the seventh inning by agreement. The feature was Ingalls's drive into right field in the eighth inning of the first game with the the bases full, scoring three runs, but himself being called out for cutting first base. Scores:

First game:
Stockton, 3; hits, 4; errors, 2.
Presidio, 0; hits, 6; errors, 1.
Batteries—Ingalls and Conrad; Rollander and D. Bodie.
Second game:
Stockton, 2; hits, 4; errors, 5.
Presidio, 2; hits, 4; errors, 1.
Batteries—Mobley and Conrad; F. Bodie and D. Bodie.
Umpire—Conway.

MANY ROTTEN ERRORS.

[BY THE ASSOCIATED PRESS—P.M.]

SAN JOSE, June 10.—San José won a game from Oakland today, the chief feature of which was the many errors made by both sides. Score:

San José, 6; hits, 8; errors, 4.
Oakland, 2; hits, 4; errors, 7.
Batteries—Emerson and Kent; Henderson and Robinson.

AMERICAN LEAGUE.

ONE-HIT GAME WINS.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, June 10.—Chicago shut out New York today. Orth pitched in fine form, allowing Chicago but one hit but errors behind him were costly, Chicago making their only score on this. Score:

Chicago, 1; hits, 1; errors, 0.
New York, 0; hits, 8; errors, 3.
Batteries—Owen and Sullivan; Orth and Kleinow.

DEAD HORSE MAKES TROUBLE.

CARCASS ALLOWED TO LIE CAUSES RUNAWAY.

Woman Is Dragged Under Buggy, and Sustains Injuries, Including Broken Arm—Husband Is Painfully Cut—Blooded Mare Takes Fright at Rearing Colt.

The breaking of a rein and the body of a dead horse lying in the street caused a runaway yesterday afternoon near the corner of Washington street and Grand avenue, which resulted seriously for Mr. and Mrs. John Woelke of No. 1922 Barnard Park. Mrs. Woelke had a very narrow escape from death, as she was caught beneath the overturned buggy and dragged for half a block. As it was she escaped with a fractured arm and nothing else more serious than a severe bruising. Mr. Woelke was hurled from the buggy seat and sustained numerous painful cuts.

Mr. Woelke is a retired capitalist and has a wide reputation as a judge of horseflesh, so he never drives anything but the finest animals. Yesterday afternoon, in company with his wife, he drove about town behind a particularly fine and spirited mare called "Baby." Earlier in the day a horsebreaker had been pacing a colt on Washington street about a block from the Woelke home. The animal had become unmanageable and reared, falling over backward and striking its head on the street, sustaining a fractured skull. Every effort was made to save the animal, but when this was seen to be impossible it was shot and the body was left lying in the street for several hours.

Every passing team was frightened by the carcass and when Mr. Woelke was returning home he attempted to drive past the body of the animal. "Baby," like other horses, shied, and when Mr. Woelke attempted to hold her in, the right rein broke and this further terrified the animal. She made a dash for home, taking the corner from Washington street into Barnard Park at full speed.

Just at the corner the buggy was overturned and Mr. Woelke was hurled to the street, while Mrs. Woelke was caught in the buggy top and dragged half a block. When "Baby" had run this far she suddenly stopped, trembling from fear. This probably saved Mrs. Woelke's life, as she was being dragged beneath the overturned buggy.

She was rescued from her perilous position and carried to her home. A physician was summoned and an examination showed that she had sustained a fracture of the left arm and a general shaking up, but no more serious injuries.

THE SOUTHWEST.

The Misses Elsa and Hilda Olshansen will entertain Wednesday afternoon, June 13, in honor of Miss Ruth Tresslar, who is soon to become the bride of Oswald Olshansen.

Miss Sarah A. Martin, No. 423 College street, returned Thursday morning from the north where she attended the W.R.C. Convention. She was honored by being elected department treasurer of the Department of California and Nevada, Woman's Relief Corps. After the convention she visited friends in Red Bluff, Oakland and San Francisco.

Misses Frances and Ruth Bingham gave a delightful "at home" Tuesday evening at their home on West Seventh street. Five hundred was played, prizes being won by Miss Susie Holladay of Santa Ana and Gilbert Williams. Guests for the evening were: Misses Faye Farrell, Marie Dyer, Carrie Lenz, Pearl Pease, Susie Halladay, Anna Wheeler, Hazel La Touche, Ethel Fuller, Isabelle Mattern, Viola Stoel, Mrs. Paulus Van Tresse, Messrs. Paul Lenz, Gilbert Williams, Guy La Touche, Frank Stephens, William Garber, Carlton Allen, Charles Hodge, George Mattern, Paulus Van Tesse, Hal McCullom, Gair, Herbert and Milton Bingham.

Mrs. W. C. Tonkin entertained with a theater party at the Belasco Saturday afternoon. Later luncheon was enjoyed at Christopher's, the table being decorated with red and white sweet peas. Her guests included the Misses Cora Auten, Irene Grosse, Florence Grosse, Mrs. C. E. Norton and Mrs. H. L. Percy.

UNION SQUARE.

The fifth annual election of the Sunshine Society was held Thursday afternoon at the home of Mrs. William Wallace McLeod, No. 640 West Eighteenth street. Mrs. McLeod was re-elected president, Mrs. L. H. Dutton was chosen first vice-president; Mrs. C. B. Mogle, second vice-president; Mrs. W. H. Sutch, third vice-president; Mrs. J. H. Phillips, reelected recording secretary; Mrs. H. C. Stone, corresponding secretary. Wednesday afternoon the society will give a card party at Hotel Pepper.

Dr. and Mrs. Jack McGarry of No. 620 West Washington street have returned from Yosemite, where they were accompanied by Mrs. McGarry's sister, Miss Katherine Kurtz.

THE NORTHWEST.

Rev. H. W. White, paster of the Union - avenue Methodist Church, preached an interesting sermon yesterday morning, which dealt with the attitude of the church toward the laboring man. A baptismal ceremony was a feature of the service. On Wednesday evening Rev. White will deliver a stereopticon lecture on the disaster in San Francisco, and will show many slides which portray the reconstruction work now on in the north. The proceeds of the lecture, which is to be delivered throughout the Methodist churches of Southern California, will go to swell the building fund for the Methodist churches burned in the great fire.

Mr. and Mrs. S. P. Creasinger announce the marriage of their daughter, Grace, to Dr. George Tompkins Pomeroy of Oakland, Cal. Dr. and Mrs. Pomeroy will be at home to their friends at the residence of the bride's parents, No. 326 North Reno street, after June 10.

GARVANZA.

The Garvanza Fortnightly Club will give a "Nonsense Party" Thursday evening at the home of G. W. Wilson, No. 615 North Avenue 66. Those attending are asked to come in some odd or grotesque costumes to help carry out the amusing programme prepared by the committee.

The Annandale Water Company has begun laying their mains up Eagle Rock avenue toward Annandale Heights and Eagle Rock Valley.

Mr. and Mrs. Joseph Bescancon of Ruley street left Thursday for an extended trip through the East, among other places their old home at Grand Rapids, Mich.

CORNER-STONE IS LAID.

Christians Will Place Ten-Thousand-Dollar Structure at Twenty-first and Naomi Streets.

The corner stone of the Naomi Avenue Church, to be erected on the corner of Twenty-first and Naomi streets, was laid yesterday afternoon with impressive ceremony by Rev. A. C. Smither, pastor of the First Christian Church. Other pastors of the city, who took part in the service, were Rev. W. L. Markham, of the Boyle Heights Christian Church, Rev. Kellar of the South Main Street Church, and Evangelist Wilhite. There was a large attendance.

The church will be a handsome Gothic frame structure with brick foundations and cut-stone trimmings. There will be a Sunday-school room, which will seat about 300, and a main auditorium with a seating capacity of 550. Social rooms, a pastor's study, and a basement containing large dining halls will be features of the edifice to cost completed $10,000.

Rev. W. L. Myers, pastor of the church, came to Los Angeles from St. Joseph, Ind., two years ago, and in that time has done an important work for his congregation. Under his ministry the membership has grown, and considerable progress has been made.

DIES SUDDENLY.

D. F. Pullman Passes Away on Reaching Home from Morning Service at First Methodist Church.

D. F. Pullman, who lived at No. 808 Santee street, died suddenly yesterday afternoon on reaching his home from the morning service held at First Methodist Church. He was found dead on his bed and had apparently passed without a struggle.

Dr. McIntyre spoke eloquently of the life of Mr. Pullman at the service last night. "He was a man of retiring manners, gentle speech and a pure life, this saintly soul," said the pastor. "This morning he went home from the service, retired to his room and laid down for a moment's rest. He died without a struggle."

Deceased was well known in Los Angeles, having resided here for many years. He was aged 60.

Well Recommended.

The buxom maid had been hinting that she did not think much of working out, and this, in conjunction with the nightly appearance of a rather sheepish young man, caused her mistress much apprehension.

"Martha, is it possible that you are thinking of getting married?"

"Yes'm," admitted Martha, blushing.

"Not that young fellow who has been calling on you lately?"

"Yes'm; he's the one."

"But you have known him only a few days."

"Three weeks come Thursday," corrected Martha.

"Do you think that is long enough to know a man before taking such an important step?"

"Well," answered Martha, with spirit, "it 'taint 's if he was some new feller. He's well recommended; a perfectly lovely girl I know was engaged to him for a long while."—[Oregon Journal.

CITY'S HOSTS VISIT BEACHES.

Twenty Thousand Make Trip to the Sad Sea Waves.

Old Sol Flings Out Radiant Smiles on Ideal Day.

Transit Systems Handle the Crowds With Dispatch.

Thousands went to the beaches yesterday. A large share of the population of Los Angeles closed up house, gave an extra feed to the household pets, and big and little took advantage of the first fine Sunday of the summer season to pay their respects to Neptune.

It was a perfect day. In fact the latter part of the week gave promise of such a satisfactory Sunday for an outing that the operating departments of the Pacific Electric, Los Angeles-Pacific and the Los Angeles and Redondo railways prepared for the day with all of their available working forces, surplus equipment, and full complement of power.

The results more than justified the expectations of the transit companies, and showed how providential were their precautions. Had not the electric lines been well prepared to handle the crowds, they would have been swamped hopelessly, early in the day. As it was, while the cars were sent out jammed to the handles, as all available equipment was called into service, everything went smoothly and the throngs were moved expeditiously.

PEOPLE SUNSHINY, TOO.

The radiance of the skies yesterday seemed to permeate to the very hearts of the pleasure seekers; for a better natured lot of jammed and sardined humanity could not have been found in the whole country.

Nor were the electric railways alone in anticipating the rush to the ocean. The early birds were on hand before 7 o'clock, and from this early hour the stampede was on in earnest, and save for a slight lull during the middle of the day, continued until midnight, when the last groups of the pleasure seekers were returned safely to the city.

Both the Pacific Electric and the Los Angeles-Pacific systems maintained a five-minute beach service all day, in addition to the regular service on their other lines. Many of the big cars of the Pacific Electric were sent out, each being loaded down with 150 passengers, while the cars of the Los Angeles-Pacific carried as many as 110.

FORTY THOUSAND FARES.

From the estimates made by the operating men of the two roads, at least 2400 persons an hour were carried to the beaches during eight hours. A total of about 20,000 persons visited the ocean resorts during the day. Bringing the people back to the city gave the railways a total of at least 40,000 fares for the day. It was the largest Sunday travel the roads have enjoyed in a year.

The greater part of the pleasure seekers distributed themselves impartially among the beaches, Venice probably heading the list, with Long Beach a close second. Then there was Ocean Park, Redondo, San Pedro, Newport, Alamitos Bay and Santa Monica, all being well patronized. There was a good crowd for Catalina, extra trains being run to catch the morning boat at San Pedro.

The beauties and attractions of Los Angeles's adjacent beach resorts were never seen to better advantage. It is safe to say that up and down the coast from Newport to Santa Monica, a distance of over thirty miles, save with the exception of the promontory between San Pedro and Redondo, there was an almost unbroken line of bathers in the surf and loungers upon the sands, basking in the first tanning rays of the summer sun.

THAT DARK BROWN TAN.

The effect of the first real summer day at the ocean side will be apparent throughout Los Angeles today. You will be able to identify the beach pilgrims for several days. While the cars carried out thousands dressed in spick and span garb, with somewhat pallid complexions, they brought back a generally disheveled lot, almost everyone with a facial hue resembling that of a pressed brick, and noses as luminous as the headlight of a locomotive.

It was a great Sunday all around, and the herald of many more to come throughout the beautiful Southern California summer season, which is slowly, but surely coming to be recognized all over the country as about the most ideal outing weather found anywhere.

EAGLES SOAR TO SCHUETZEN.

ANNUAL BARBECUE AND GENERAL "GOOD TIME."

Dusty Path to Shooting Park Is Worn by Hundreds of Feet—Huge Spread of Succulent Eatables, Washed Down by Whole Cistern of Good Brown Brew.

If the Eagles could only have used their wings, the long, winding cowpath from the Pacific Electric Railway to the little cluster of trees that makes Schutzen Park would not have been so dusty last night, nor would it have borne the heel marks of so many weary feet.

Nevertheless, the members of Los Angeles Aerie, No. 102, were determined to have their good time, and have it they did. So did their friends, their children, their wives and their sweethearts.

Of course, the principal thing was the barbecue, served upon long tables just to the west of the dancing pavilion. At noon sirloins were served; at 12:30, from the pits in the ground, came juicy flanks, followed half an hour later by scores of rich tenderloins, done to a turn and dripping with succulent gravy. Shortly after 1 o'clock the bulls' heads were brought out. The final course was barbecued ham, followed by a pit of lamb. Beans, chili sauce and hundreds of loaves of French bread were dispersed in and about the meat courses.

Beer? You should rather guess! They had it in genuine cisterns, tanked up with a whole wagonload of ice to keep it cool. Waiters came charging down the feed line with mugs blowing foam as a breaker dispenses spray, and more than one luckless wight tumbled head over heels on the slippery suds that they left on boards and planks.

In the afternoon they danced. The dancing was rather sticky, but it must have been enjoyable, for notwithstanding the temperature of 100 deg., and then some, that sizzled under the pavilion's shingle roof, the floor was crowded with rapturous maidens and swains—and older ones—from early morning until sunset.

The children, though, patronizing the swings and the little playground away off in one corner of the grounds, had more fun than any of them, for they romped undisturbed during the whole day.

Shooting and bowling contests concluded the day, with three prizes for each sport. The sports Committee was composed of G. B. Hutton, Val Vogh, E. Tingley, L. Klickner, Charles Bevis, E. Rice, J. Seaman, Frank Weaver, E. Schulte and Morris Reiman.

The Executive Committee was ably captained by Harry Schoneman, who had the assistance of C. M. Sage, R. R. Froelich, George Hutton, Frank Copenhaber, F. Lindenfeldt and H. E. Ditch.

The "Law and Order Committee," which maintained a quiet atmosphere and tied down the over-enthusiasts, was under the general direction of Peter H. Froelich, who had the assistance of Dick Welsh, F. Biggle, Tim O'Brien, H. Blocker, James Underwood, George Renwich, Charles Dunn, S. H. Magg, G. W. Conart and Charles Steinfeldt.

FIRE IN A HOTEL.

Gas Stove Starts Blaze in the Argyle and Panic Among Guests Follows.

By quick and efficient work the fire department prevented a serious conflagration in Hotel Argyle, at Second and Olive streets, yesterday forenoon. Guests in the hotel discovered smoke pouring out of the doors and windows of the apartments occupied by Miss Annie Berger and an alarm was immediately sent in.

The firemen had a stream on the blaze in record time and the fire was soon under control. It was confined to the room where it originated. Some one had left a small gas stove burning in the room and the heat from this stove had ignited the woodwork about the window and wall near which it stood. Miss Berger was not in the house at the time and many of the guests were away for the day or at church.

A small panic followed the discovery of the fire, but every one got out without difficulty. When the fire was out, however, many grips and trunks had to be carried upstairs again by perspiring guests who had made a wild rush for the street with their belongings.

The building is owned by J. Wolke and is leased by Mrs. H. Harrog. The damage to the building is estimated at $250 and to the contents at $200. By far the greater part of this damage resulted from water used in extinguishing the flames than from the fire.

GAS FOR FUEL.

Our GAS is the finest Fuel known, because we make it that way. You cannot afford to do without it, as it only costs 85 cents per thousand.

CHINESE HERBS and TEAS

Do You Want a Cure?
WE HEREBY ENDORSE
DR. TOM SHE BIN,
He Is a Medical Wonder!

Read these: To all who are suffering I wish to recommend Dr. Tom. I have been a sufferer for years from tumor of the womb and he has cured me without operation, when the American doctors said I could not be cured unless operated on. I have recommended you to many and will continue to do so.
MRS. BENADE.
San Gabriel, Cal., and 4020 Eighteenth Street, S. F., Cal.

San Francisco, March 10, 1906.
I saw Dr. Tom She Bin's advt. and came up to his office to have my pulse felt. I had malarial pains all over my body and chills, besides woman's ailment. He told me what my trouble was. After one week's taking Chinese herbs I was a great deal better. I was sick for six years; no white physician did me any good. I took his herbs six weeks and was well; I was cured. Now after one year have no more pains.

MEN
Do Not Be Deceived By Those

Who Try to Cure You By HOME TREATMENT, or What is Worse, FREE or VERY CHEAP TREATMENT. The Right Way is the Only Way.

Varicocele Cured 4 to 6 Days

Many men suffer from varicocele and have many times treated without satisfactory results. I want to say to all such that my treatment, personally applied, will cure you in 4 to 6 days, and the cure will be permanent.

Functional Decline
Termed Weakness by Some
The success I have had in restoring functional derangement has been a great surprise to many who have met with failure in former treatment. It's the right treatment applied in the right way that brings the satisfactory results. By my direct method all inflammation is removed, and free, healthy circulation is established.

Contracted Diseases
Failure to quickly cure these conditions is due to harsh measures, which are the direct cause for chronic conditions. My treatment is most cleanly and perfect.
I cure Rectal, Kidney and Bladder Troubles, Piles, Fistula and Blood Diseases, Wasting, Nervous and Chronic conditions, causing functional derangement, impairing strength and vitality.

HOURS: 9 to 4, 7 to 8. Sundays, 9 to 12.
Dr. Morton, 316 South Broadway

LISTEN MEN

YOU CAN BE CURED

DR. TAYLOR
The Leading Specialist

I never guess, experiment or take chances of any sort. I attempt to cure only those diseases that I have been curing for the past twenty-five years, and I believe I am justified in saying that I have learned all about them. Were I seeking in knowledge pertaining to my specialty I would not have attained my present prominence as the specialist treating men's diseases. If afflicted you can depend upon receiving the service I offer you in the manner you need, and in service that cannot be rendered by no other physician.

You Can Be Cured When Cured

"Weakness"

I cure functional weakness. I know of no other physician who does. this ailment. Most doctors treat it wrongly. They give stimulants and tonics. These things only increase "Weakness" in a symptomatic disorder, and the symptom must be local. This is a truth that will be revealed. I have perfected a system of local treatment for "weakness."

Varicocele

Under my treatment the most aggravated cases of varicocele are cured in a few days' time. There is no pain, and it is seldom necessary that the patient be detained from his occupation.

Contracted Disorders

In the treatment of contracted disorders I offer a service such as no other physician can readily duplicate. In fact, I employ have a most thorough and positive action in the elimination from the system of all infection and inflammation.

I also cure permanently stricture, specific blood poison, nervous reflex ailments.

FREE! FREE!

Consultation and advice absolutely free, either at office or by mail. It certainly is worth any gentleman's while to come and have his case over with me.

305½ S. Spring St.
Ramona Blk., Cor. Third
LOS ANGELES, CAL.

MEN

We Are Specialists for Varicocele, Hydrocele, Stricture, Piles, Fistula, Blood Diseases, Contracted Diseases, Private Diseases, Loss of Vital Power, Kidney and Bladder Troubles.

WE GUARANTEE AN ABSOLUTE AND PERMANENT CURE in every case we treat of varicocele, and are willing to show to any man wishing it a dozen leading business men of Los Angeles that we have made good, with our GUARANTEE. This fact ought to convince most men that they can be cured of varicocele.

CONTRACTED DISEASES AND BLOOD POISON

These troubles are thoroughly mastered by Dr. Harrison and associates. For over 25 years we have successfully treated this class of troubles. Experience, founded on thorough medical education, has given to them perfect methods, enabling them to give them the very best recognized modern treatment.

NOTE THE FOLLOWING

Our Journal can be had for the asking for at the bottom of this way, to the right. It contains valuable information. Have it sent to one, or write to us and we will mail it.

CHILDREN'S DAY AT CHURCHES.

...g of Little Ones Join in Beautiful Services.

...Sunday-School Pupils Also Have a Part.

...Programmes at Some Houses of Worship.

...day was Children's Day the ...ow. Adults were relegated ...t seats, the galleries or any... ...ey could find accommodations, ...ile folks had the front seats, the services were of an elaborate nature and two large classes were graduated, forty-five from the primary class and fifty from the intermediate.

The church had been handsomely decorated with palms, ferns, swet peas and marguerites, and inspiring music was furnished by the Sunday-school orchestra. An impressive feature of the service was the installation of the newly-elected Sunday-school officers, thirty in number, by the pastor, Dr. Walker. After a superintendence of five years, W. E. McVay, the superintendent, resigns his position and is succeeded by Rev. T. C. Horton, assistant pastor of the church. Mrs. Guest, superintendent of the intermediate department, also resigned and her successor, Mrs. H. D. Salveter, was installed.

After this ceremony eight infants were baptized by Dr. Walker, the water used for this purpose having been brought from the River Jordan by a member of Immanuel Church, who has been traveling through Palestine. One of the babies baptized was the little five-months-old son of W. E. McVay, the retiring Sunday-school superintendent. The tiny boy was christened William Bryant McVay, the first name for his father and the middle his mother's maiden name. Mrs. Mc-

CRADLED CHERUBS.

...The cooing of baby voices and ...the protesting shriek of an ...infant got mixed up with ...the words of the pastor, "Child ...of God, I baptize thee," but ...the rose-cheeked cherubs as a ...rule behaved beautifully on their ...first visit to church.

...After a short talk to the ...children about a tall, ...stately young spruce ...tree and the crest of a moun... ...a splendid moral from ...a beautiful young spruce ...tree, a symbol of a selfish ...life, the pastor emeri... ...the name of the special ...work consisting of religious ...services in settled districts in ...the mountains and desert. A liberal ...collection was taken. The pulpit ...was beautifully decorated ...with pink and white flowers ty... ...of the human blossoms ...whose work was done.

...At 2:30 o'clock the ...exercises were held and ...the members were received ...into the church, making a total mem... ...of 1095. The annual ...picnic of the school will be held ...at Sycamore Park.

...Westlake Methodist Church ...the children of the Sunday-school carried out an interesting programme of songs and recitations, the superintendent, C. B. Messenger, presiding, with Rev. J. A. Wood, who is acting pastor, pending the arrival of Dr. D. F. Howe of Astoria, Ill., the recently-appointed pastor of Westlake Church, who will preach his first sermon in his new charge on June 24.

Misses Elizabeth Parsons, Ora Cary and Henrietta Davies recited and Master Douglas Saunders preached a perfect sermon on cheerfulness in his charming recitation "The Land of Smiles." Seven little girls brought a message from the flowers and seven other little lasses appeared as sunbeams.

A liberal collection was taken, to be turned over to the regular Children's Day educational fund of the Methodist Church.

FIRST METHODIST CHURCH.

At the First Methodist Church the exercises were held last evening. The whole service, in harmony with the original idea of Dr. Payne, emphasized the educational idea—the great Methodist institution of this vicinity, the University of Southern California, being brought prominently to the front. The University colors of cardinal and gold were everywhere conspicuous. Crimson bells swung from green garlands festooned above the platform and U.S.C. pennants floated between, while a large cardinal banner with "S. California" in gold letters hung back of the pulpit. Crimson shades softened the glow of electric lights encircling the organ loft and the same brilliant color mingled with the clusters of graceful sword ferns that depended from the chandeliers under the gallery.

A dozen young girls—students in the university, and wearing the college colors, acted as ushers. The entire lower floor of the great auditorium was reserved for the Sunday-school and teachers, and the choir loft was filled with a sea of sweet child faces rising tier above tier—the girls' chorus made up from the primary and intermediate departments of the Sunday-school. The singing of these children was a feature of the exercises. Accompanied by an orchestra of their own made up of eight little boys and girls who played flutes, cornets and violins, these children did some really wonderful work. They sang eight choruses during the evening—not simple Sunday-school songs—but anthems and part songs involving difficult phrasing and solo work, and there was not a break or a note out of time or tune. These girls have been trained by Mrs. H. W. Brodbeck, superintendent of the primary department, and for correct and painstaking work and sweet melody they cannot be beaten.

Dr. George F. Bovard, president of the University of Southern California, made a brief address very much to the point concerning the educational work of the representative Methodist institution of Southern California. He gave some telling statistics showing the great growth of the university, which comprises eight colleges and a preparatory school. Its endowment has increased to $300,000 with an annual income of over $15,000, and Dr. Bovard prophesies an endowment of a million within ten years. The total enrollment of students during the past year reached 1079 and next week 124 students will graduate.

Miss Elaine Anderson of the university presented the student volunteer movement and Mr. McIntyre the educational needs of the church.

WESLEY CAP AND GOWN.

It was a picturesque scene when the graduates of the junior department of the Sunday-school—fifty of them—came trooping in and mounted the platform to the seats awaiting them. They were clad in the picturesque John Wesley cap and gown, a perfect duplicate of that worn by the famous founder of Methodism when he was at Oxford. The quaint cravats, the mortar-board caps with tossing tassels and the long black gowns gave a dignity to the childish figures that was picturesque and unusual.

Miss S. E. Davis, principal of the classes, conducted the graduating exercises and the way those pocket editions of John and Susannah Wesley tripped through chapter after chapter of Bible lessons, sang songs, chanted the Scripture and repeated beatitudes, Psalms, commandments and Biblical matter galore was enough to make older people feel ignorant. A distinct wave of uneasiness passed over the adult audience when Dr. McIntyre threatened to call on some of them to come to the platform and duplicate the children's work.

Each small graduate was presented with a diploma and an elegant Bible, Dr. McIntyre making the presentation.

The children's collection for the educational needs of the church amounted to more than $100.

AT MEMORIAL BAPTIST.

Children's Day at the Memorial Baptist Church was observed with exercises more attractive than ever before, which is saying much for this church. One of the features of the day was an interesting exercise by the graduating class from the primary department. This was in charge of Miss Bertha Brocks, superintendent of that department. There was a remarkable display of biblical knowledge by the large class which now passes into the intermediate department.

Another feature of more than usual interest was the sailing of "The Ship of Faith," an emblematical piece, by eighteen young ladies from the Morning Star class, and seven young men from the Brotherhood class. A full-rigged ship was on the platform, beautifully decorated with white and red flowers, and was made to teach a number of lessons in the religious life. This exercise was in charge of Miss Elizabeth Meyerl.

The Sunday-school orchestra was in charge of Alfred W. Walberg, and greatly assisted the school and the large audience, in the rendering of the vocal selections.

One interesting exercise of the day was the welcoming into the church by the pastor of the eighty-eight members received during the past year.

At the close of the services, a large collection was taken for the Baptist Publication Society.

EUROPA CAFE pronounced by critics equal to the best cafe San Francisco ever had.

DON'T forget Corona Lithia Water.

FREE FREE

We Cure Catarrh, Deafness, Ear Noises, Asthma, Throat, Lung and Blood Diseases.

ALL APPLICANTS IN PERSON AT THE NEW OFFICES, ROOMS 400-402 REMICK BUILDING, ENTRANCE NO. 517 SOUTH BROADWAY, UP TO JUNE 20TH, WILL RECEIVE EXPERT TREATMENT FREE OF CHARGE UNTIL CURED.

Special Warning

As numerous attempts have been made to imitate our treatment and style of advertising, we wish to say that we have no branch offices, and the only place you can receive this treatment is at No. 517 South Broadway. Bring this add. with you.

Words of Praise From a Sufferer of Asthma.

Los Angeles, Cal., June 1.
Los Angeles Medical Inst.

Gentlemen—I have suffered with asthma for over twenty-five years, have spent hundreds of dollars in trying to get well, and when you commenced treating me I was a very sick man and almost discouraged. The results of your treatment have been marvelous. I commenced to gain from the first, and now I feel as well as I ever did in my life, and give your treatment all the credit for my recovery.

(Signed) H. A. MITCHELL,
220 N. Grand Ave.

Summer is the Best Time.

Summer is the best time in which to treat for catarrh troubles. Do not delay. We will cure you.

CATARRH OF THE STOMACH

We cure this trouble by removing the cause.

FREE TREATMENT

This offer is authentic, and in taking advantage of it you do so with the assurance that no extra expense will be put on you. In those cases where it is necessary to give medicine for home use, we will furnish these at less than you could buy them in the drug store.

A Case of Chronic Catarrhal Deafness Cured.

MR. HENRY ALLEN,
128 North Glass St., City.

Mr. Allen says: "Before taking your treatment, I was so deaf I could hardly hear a thing. Your treatment restored my hearing, and I now hear as well as I ever did in my life. I have lived in Los Angeles for twenty years, and have many friends, who all know and speak of the marked change in my hearing. I live at 128 North Glass street, and will gladly verify this statement to any one who will call. (Signed) H. ALLEN."

Home Treatment

If you live at a distance, write for free symptom blank and be cured at home.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

THRONGS HEAR BACCALAUREATE.

PASADENA HIGH SCHOOL GRADUATES RECEIVE ADVICE.

First Methodist Church Crowded to The Doors, and Beautiful Floral Decorations Blend With Fashion's Dainty Hues—Dr. Lamport Delivers Impressive Sermon on Contentment.

PASADENA, June 10.—Throngs of young people listened this evening to the baccalaureate sermon preached to the graduating class of the High School by the Rev. A. W. Lamport at the First Methodist Church. The great auditorium was crowded and the gallery packed. Most of those present seemed to be about the age of the seniors who occupied the front seats. It was an attractive scene and there was much fluttering of fans and ribbons among the many daintily-clad girls, and the flowers used in the decoration added to the beauty. There were sixty-one students in the graduating class.

The programme of the evening opened with an organ voluntary, "Andante" (Svendson) by Miss Alice Coleman, after which the choir sang an anthem, "The Heavens are Telling" (Haydn.) "Jerusalem the Golden" (Schnecker,) sung by a quartette, and a vocal solo by Miss Christin, with organ selections, were other music numbers.

Dr. Lamport based his address upon the text, "I have learned in whatsoever state I am therewith to be content." Phil. 4:11. He disclaimed the idea of a "baccalaureate sermon," as he said, "There is not one among all of these graduates who is a bachelor, not one who has tarried long enough at Jericho for his beard to grow. Neither in that sense in which one has taken a seniority degree is there to be found a bachelor. Neither can I make my sermon a baccalaureate in the broad American sense of a farewell to a graduating class. These students are not going from me, in any sense, that I should bid them farewell. To appropriately make this a baccalaureate address it should be delivered by Prof. Graham or Prof. Ely. Fortunately for me I know many of you personally and truly love you."

Dr. Lamport then spoke eloquently on the beauty of the contented mind. "I suppose no one," said he, "ever found a wider opportunity for the cultivation of contentment than the author of my text, the Apostle Paul. No one of whom I have any knowledge has ever been in such trying circumstances. For the truth's sake he was suddenly and surprisingly separated from his own people. He lost their favor and never regained it. He was forced to wander over the earth, suffer untold hardships, was maligned, persecuted, imprisoned. He was often hungry, cold, naked, homeless and at last was guillotined.

How and why the apostle kept an "unruffled soul" through all the vicissitudes of his life was made very interesting and the personal application was emphasized.

"There will be limitations upon your liberties," warned the speaker, "which you do not foresee. There will be disappointments for you. If you have not control over your moods, such events will strike you hard. Infringements upon your sensibilities will surely nudge your tempers. The law of limitations will rock your boat, and you will not know at times whether you are on the waves or under them. But if you have Jesus, the Savior, for your pilot, He will guide you into a safe channel and will finally bring you all safe beyond harbor lights, at home. He will take you to a Heavenly City where there will be no hospitals or hearses, no graves, no pains, sorrows, fears, faults or forebodings. I covet for you who are together in this class and for your fathers, mothers, friends, teachers and schoolmates and for every soul in this vast throng, a part in the fellowship of the skies."

SHAKESPEARE CLUB PICNIC.

Over a hundred members and friends of the Shakespeare Club enjoyed a picnic yesterday at Long Beach. Gathering at the Pacific Electric Station at 9 o'clock in the morning, two special cars were soon filled with the women, most of whom were gowned in white dresses, and all of whom carried luncheon baskets. The cars ran through direct to Long Beach without change, taking the club members to the new clubhouse of the Long Beach Ebell Club. Until the luncheon hour, the visiting club women were shown about the building, gaining a fine ocean view from the roof garden, which is very similar to a ship deck, or walking on the sand.

Next Saturday will be reciprocity day, when beginning at 10 o'clock, the entire day will be devoted to the entertainment of the representatives of some eight clubs from the surrounding towns and cities.

AMONG THE CHURCHES.

At most of the churches today there were special services held, at which the children had right of way, this being the annual "Children's Day," usually observed by the Sunday-schools. Flowers were used in great abundance to beautify the auditoriums for the day and all of the churches made a fine showing. Where the children did not take part themselves in the exercises, sermons were directed to the young.

The celebration at the Lake-avenue Congregational Church was elaborate and many brief recitations, hailing June and the flowers, were given by the little people. In the evening, Rev. G. Emerson preached on the subject of "Elijah on Mount Carmel."

The West Side Congregational "Children's Day" exercises were under the direction of Prof. James D. Graham, Mrs. W. H. Dwight and Mrs. H. G. Bennett. At 5 o'clock a vesper service was held which was well attended.

At the First Baptist Church the following programme was given: Song; Invocation; anthem, by choir, "Let the King of Glory In;" reading of psalm in concert; song, "A June Carol," school; prayer, by pastor; words of welcome, by superintendent of Sunday-school; responsive reading; vocal solo, "Beautiful Summer," Esther Bryant; recitation, "The White Man's Burden," William DeChamp; song, "The Flowers of June," school; primary exercises and presentation of Testaments to graduates; baby drill; song, congregation; recitation, "How a Little Helps," Rowena Downs; address, by pastor; offertory in A flat (Batiste;) America, congregation; benediction an organ postlude.

This evening at the North Pasadena Methodist Church there was special music and recitations by a number of the children of the Sunday-school. Charles Smith, superintendent, presided.

At the First Congregational Church the regular morning service hour was devoted to the "Children's Day" celebration, the pastor, Rev. Robert Meredith making the address.

Rev. Vincent Brink of the Lake-avenue Methodist Church after an hour for the exercises by the primary class preached to the members of the Sunday-school.

A baptismal service was held this morning at the Lincoln Avenue Methodist Church at which a large class of those on probation were taken into full membership after the sacrament of baptism had been administered by Rev. F. D. Mather, the pastor.

Rev. William MacCormack, rector of All Saints Episcopal Church, preached this morning an eloquent sermon on "The Greatness of the Divine Idea." His evening subject was "As Jesus Passes By."

Rev. Frank Dowling preached the baccalaureate sermon this evening to the graduating class of the High School at Ontario.

A mass meeting for men was held this afternoon at the Y.M.C.A., at which Rev. Stephen G. Emerson spoke on "The Religion of Walks and Talks."

MANY PERMITS ISSUED.

Building operations in Pasadena are moving along briskly and if the present pace is kept up the month will run far ahead of the corresponding month for any year in the history of the city. Building permits taken out yesterday and the day before aggregate $25,000 and many other buildings will be under way before July 1.

A large proportion of the structures going up are private residences and in most cases the houses are being built for the occupancy of the owners themselves. The substantial growth which Pasadena is making is shown by the necessity of an addition to Hotel Maryland, which was enlarged only a year ago, but which was too small to accommodate the guests during the winter just past. Work on the addition is being rushed along, and the new wing will be ready for occupancy by the time the winter season opens.

LITTLE DAMAGE DONE.

The damage to the hay crops in the vicinity of Pasadena by the late rains has not proved as heavy as was anticipated, and one rancher stated today that there would be little, if any, loss. As soon as the rains were over the stacks were torn down that the hay might have a chance to dry out, with the result that, but for a slight discoloration, nearly all of the crop is as sweet and good as it would have been had the rains not come.

The fruit trees and gardens profited greatly by the rainfall. Orchardists consider the late rains an especial blessing.

TO HELP "AUNTIE."

Members of the local Womans' Relief Corps have interested themselves in the case of "Auntie Wilson," the aged colored woman, who has been for some time at the County Farm. It was found that "Auntie" was entitled to a pension and after considerable trouble and delay the pension has been arranged for. Mrs. Anna Shultz Pierce has attended to all the business details. "Auntie" is delighted for, though she is blind and almost helpless from the infirmities of age, she has fretted over not being able to "do for herself."

VALLEY HUNT TRIP.

Seventy-five members of the Valley Hunt Club, and various members of their respective families filled two special cars yesterday afternoon and went to Venice on a pleasure trip. After two hours spent in roller skating at the rink which was reserved for the exclusive use of the party, dinner was enjoyed in the upper deck refectory of the Cabrillo. The tables which were arranged to form a letter E were beautifully decorated through the center with a low bank of green dotted with red and white carnations. Mr. Robert I. Rogers acted as toastmaster and among the dinner speakers were H. H. Klamroth, Benjamin Foisom and Charles Frederick Holder. Thaddeus Lowe gave by request a topical song from the Sultan of Sulu and J. S. Macdonnell contributed several dialect stories in his inimitable manner. The hit of the evening was made by H. M. Lutz who had prepared some couplets full of witty and pleasant personalities.

WANTED HIM ARRESTED.

Jime Rigopolos, a Greek milk wagon driver, appeared at the Police Station late this evening and demanded that a warrant be issued against a man for battery. He did not know the man's name and as his English was far from distinct, he was unable to give a very clear account of what had happened.

As far as the officers could learn, Rigopolos had had an altercation with a man over a bottle of milk. The irate customer had become excited, and as a result the milkman received a crack on the mouth that loosened his front teeth. A "John Doe" warrant was issued and an officer sent out to make the arrest. The pugnacious party could not be found, however, and the police had to give it up as a bad job.

VICIOUS MEXICAN.

Conductor Johnson of the Pacific Electric Company was the victim of an unprovoked assault on a Lamanda Park car at Arcadia this afternoon. The assailant was a Mexican. Before he had time to escape he was apprehended and placed under arrest.

Eye witnesses state that the assault was most brutal and that the Mexican had no reason to strike the conductor. Johnson had alighted to assist some women from the car, and while his back was turned, the Mexican jumped on him and started to hit him. The motorman seized the controller lever, and, rushing to the assistance of the conductor, clubbed the assailant over the head so heartily that he speedily took to his heals.

Several men started after the Mexican and he was captured and placed in the hands of a deputy constable, who took him to Los Angeles.

OIL VICTIM MAY DIE.

Charles Johnson, engineer of the oil-heating plant, who was severely burned in an oil explosion Friday afternoon and was taken to the Pasadena Hospital, is worse this evening and has been delirious much of the day. Johnson suffered very serious burns, though at first his condition was not considered sufficiently critical to warrant his being taken to the hospital. Late Friday night his condition became worse and a hurry-up call for the ambulance was sent in. He is suffering intense pain and his condition is considered critical.

CHILD WAS LOST.

Little Ruth Greenlee, the baby daughter of D. M. Greenlee of North Marengo avenue, was lost this evening and the police were kept busy for a short time. Mr. and Mrs. Greenlee started out to church early in the evening. When they had gone about a block from home they heard the little one, who objected to being left at home, crying. They thought nothing of it, however, as the child was under the care of a nurse maid, and they supposed that she would be looked after. Mr. and Mrs. Greenlee concluded to go downtown, however, and the little one, who had slipped away from the nurse, started to follow them. The policeman on the beat finally found her however, and took her home.

Meyer's Pasadena baseball team scored its second consecutive victory this afternoon, when it defeated Christopher's Los Angeles team by a score of 7 to 3. The game was snappy from start to finish, and was characterized by clever team work on both sides. There was a large attendance and the boys received rounds of cheers each time they made a star play. The game was on the home grounds near the Raymond Hotel.

Pictures framed at Wadsworth's. Engraving at Morris-Thurston Co.

PLAN CARNIVAL ON THE WAVES.

SAN PEDRO MAKING ELABORATE PREPARATIONS.

All Vessels in Harbor Are to Participate in Grand Pageant of Illumination — "Water Carnival" to Represent Expenditure of Several Thousand Dollars.

SAN PEDRO, June 10.—Elaborate preparations are being made to hold a water carnival on San Pedro Bay the first week in August. The affair will be given under the auspices of the local Chamber of Commerce and will be unique in character.

Several thousand dollars will be expended in decorations and illuminations, and all the craft in the vicinity of this port will participate. It is expected that several hundred boats, elaborately decorated, including launches, yachts, steamers and barges, will be in line of parade on the night of the carnival.

The Banning Company, South Coast Yacht Club, Pacific Electric, Salt Lake, Southern Pacific and all other corporations with interests on San Pedro Bay, have signified a willingness to lend their aid for the success of the carnival.

William F. Bickenbach of the Chamber of Commerce has been appointed chairman of the Carnival Committee. He announced today the appointment of the following subcommittees from among the membership of the Chamber of Commerce:

Finance, W. Hogaboom, S. M. Storer, F. D. Foot and H. W. Armour; Decorations and Lights, A. P. Ferl, F. H. Percival, Lewis Hausen, Frank Stacy and Charles Mason; Boats, W. H. Wickersham, L. Hausen, Edwin Chapin, Edward H. Bautzer, Winfield Hogaboom, Robert Granger and Frank Burns; Prizes, W. H. Hyatt, A. P. Ferl and Charles Mason; Programme and Sports, S. M. Storer, Bert Mackley, Winfield Hogaboom, Edward H. Bautzer; Refreshments, Frank Stacy, F. D. Foot, C. A. Pearson and F. H. Percival; Fireworks, Bert Mackley, H. W. Armour, W. H. Wickersham and Charles Mason; Reception and Entertainment, Frank Burns, W. Hogaboom, S. M. Storer, W. H. Hyatt and W. H. Wickersham.

The programme will include sports and contests on land before the great carnival at night.

WILL TACKLE THE FLAMES.

Avalon People Meet and Organize Corps of Volunteer Fire Fighters.

AVALON, June 10.—At a meeting of the citizens of Avalon, held at the residence of J. Jay Nestell last evening, a corps of fire fighters was organized, which will be known as the Avalon Volunteer Fire Department. The members are as follows: Arthur Sutemeier, chief; George Gumilere, A. B. Drake, C. E. Means, Frank Massie, A. S. Walker, G. T. Phillips, W. G. Brown, F. V. Reyes, C. O. Morris, S. G. Short, C. W. Tyler, J. Albert.

The Banning company will cooperate with the new organization and turn over their fire-fighting apparatus. In addition to that now on hand, it is the plan of the new department to install two more stations, one at each end of the town, equipped with hose and other necessary facilities, which will afford ample protection.

The big reservoir on the hill which has never been used, will now be put into use, and, as it is 250 feet above the town, no engines will be required.

ISLAND ECHOES.

As the yachts starting out on their races to Honolulu and around the island tomorrow will pass down and around the east end of Catalina, a large number of the yachts and launches here will take a run out into the channel and watch the progress of the racers in passing.

Messrs. Graham, Patterson and Wilson of the Board of Supervisors, James C. Rives, ex-District Attorney, and J. O. Lowe have been having a grand time with the fishes for a couple of days. Yesterday they caught twenty-three and almost duplicated their catch today.

O. L. Wuerker, a Los Angeles jeweler; George Collins, optician, with his wife, came over yesterday and spent Sunday on the island.

W. I. Hollingsworth, a Los Angeles real estate broker, with his wife and Miss Geniveve Downey of Lexington, Ky., have been spending several days at Hotel Metropole.

M. Meder and wife and Miss Nellie Biddie spent Saturday and Sunday at the Metropole.

The Empress, the largest glass-bottom boat in the world, just completed from the shipyards of the Fultons of San Pedro for the Meteor Boat Company, arrived here this afternoon. She will be used in the glass-bottom boat trade at this place. Her coming was quite an event and she made a fine appearance, decked from stem to stern with gay bunting. She was convoyed into the bay by more than a dozen launches amid shrill whistles.

The graduating exercises of the San Pedro public schools weer held at the Wetherby Friday. The diplomas were awarded by Superintendent of Schools Mark Keppel. The graduates are Helen Peterson, Helen Hogaboom, Margurita Mueller, Nellie McLaughlin, Ebba Johnson, Elsie Maloq, Maud Iman, Edith Coombs, Pearl Johnson, Sadie Haller, Marie Pound, Elizabeth Lowe, Alta Griffin, Ethel Ralston, Allie Anson, Clyde Maloq, Harry Smith, Raymond Nunamaker, Walter Hixson, Charley Young, Murray Little, Edwin Wilhite, Harry Rosenfeld, John Abbott, Martin Yturralde, Albert Johnson, Percy Allen, Samuel Wilhite and Ernest La Plonte.

OCEAN PARK NOTES.

OCEAN PARK, June 10.—At a meeting of the creditors of Frank Baker and the defunct Evening Review, C. W. Fleming of Los Angeles was made trustee of the property, which was turned over to him. There is thought to be sufficient material of value to save the creditors from loss.

Word comes from Portland, Or., of the approaching nuptials of John Larrabee and Miss Grace Schreiber, both former residents and well-known young society people of the strand.

At the Baptist Church this afternoon in the presence of a large number of invited friends, Miss Pharol Bradley was united in marriage to Ernest F. Vieweger. The ceremony was performed by Rev. Fred Jenkins.

David Mansfield has been passing a few days with relatives at Huntington Park.

Mr. and Mrs. George Hoover are here from Hollywood for an early summer seaside outing.

An effort is being made to secure for this beach the annual picnic and log-rolling of the Modern Woodmen of America. This jurisdiction, including all Southern California camps, visits the seaside for one day of each year and conducts a picnic under the auspices of the Log-Rolling Association. The meeting always brings several thousand visitors for the day and evening.

CITY MARSHAL DIES ON STREET.

SANTA MONICA OFFICER'S END COMES SUDDENLY.

F. M. Culp, Old and Well-Known Resident of the Strand, Succumbs to Heart Disease After Arresting Drunken Veteran With Whom He Was Obliged to Struggle.

SANTA MONICA, June 10.—F. M. Culp, one of the oldest and best-known residents of Santa Monica, suffered an attack of heart failure this morning and dropped dead on the street. Mr. Culp, who was a deputy constable and City Marshal, was on duty at Linda Vista Park near the electric line's passenger depot. This was his regular Sunday beat and it was a part of his duty to see that the peace was not disturbed.

An inebriate veteran from the Soldiers' Home was creating a disturbance and Mr. Culp placed him under arrest. The veteran resisted so stubbornly that it was necessary to handcuff him. This was not accomplished until after a lively struggle. The human derelict was loaded into a wagon and hauled to the City Jail. As soon as Culp stepped out of the patrol wagon he dropped to the sidewalk without a murmur and expired before his body could be raised.

F. M. CULP.

For more than sixteen years Mr. Culp had been a resident of this city, where he was formerly engaged in the grocery business, being a member of the firm of Culp & Miller. Prior to coming to the beach he made his home at The Palms, having removed to this State from Kansas. He was a soldier in the Civil War and was 69 years of age. A widow and a daughter survive, the latter being Mrs. Samuel Miller of Santa Monica. His home was on Seventh street in this city and only a few days ago gathered about the dinner table were sons and daughters representing four generations.

POLO FOR THE FOURTH.

The Santa Monica Polo Club is busy with preparations for a lively season on the local grounds in the California-avenue Park. The opening game will be played on July 4, when the best talent of Riverside, Los Angeles and Santa Barbara is expected to be in attendance.

SHIPPING AT STANDSTILL.

The sailors' strike has brought shipping to a practical standstill at Port Los Angeles. The Pacific Coast Steamship Company's passenger boats, State of California and Santa Rosa, are failing to keep their appointments or any apointments here and no other vessels are arriving. The British ship Oranasia is discharging an immense cargo and will not be ready to sail for many days, and the lumber schooner C. F. Holmes will soon be ready to set sail for the north. The Oranasia goes from here to Seattle, but indications are that the strike may delay her departure.

SANTA MONICA BRIEFS.

The delinquent tax list for Santa Monica and the school district, for the year 1905-6, covers fifteen columns of ordinary newspaper type and involves 750 individual pieces of property. Only thirty of the tracts advertised for sale are assessed to unknown owners. The date of the delinquent sale is June 29.

S. H. Jackson and J. E. Simmons have their eye on the Republican nomination for constable of Santa Monica township. This includes Sawtelle, Ocean Park and Venice.

Mrs. Edward Willis, nee Emma Newkirk, has left her home in Cleary, Alaska, for her old home in Santa Monica, where she expects to pass the summer as the guest of her parents.

The Santa Monica Cricket Club has organized a second eleven and will endeavor to make the season a lively one at the beach wickets.

Mr. and Mrs. C. A. Hibbard have gone to Athens, O., where they expect to spend a month with friends.

Mrs. M. P. Haynes and Mrs. Harriet Wadleigh of Los Angeles will address the Woman's Club members at their meeting tomorrow.

Mrs. L. H. Case, Mrs. E. C. Miles and Mrs. George Miles have gone to Porterville, where they will visit with relatives for several weeks.

Miss Helen Werner is spending some time at Riverside.

Mr. and Mrs. Gillette, who were married here Wednesday, are spending the early days of their honeymoon at Santa Barbara. Mrs. Gillette was formerly Miss Georgia Goodwin.

Mrs. J. W. Farrell has returned to her home in Salt Lake City. She had been spending some time along the shore.

Mrs. E. O. Palmer of Hollywood is a seaside visitor for a few weeks.

HOMES MENACED BY FIRE.

Burning of Dry Grass South of the Ostrich Farm Causes Alarm Among People.

SOUTH PASADENA, June 10.—The residence district, south of the Ostrich Farm, was menaced yesterday by a grass fire on the hills near by. For a time the flames gained great headway, and it was thought by the alarmed property owners that their homes were doomed. The fire, however, burned itself out at the edge of a road and the excitement subsided. It is believed that the blaze started from a cigar or cigarette stub thrown carelessly into the dry grass.

ENJOY HOUSEWARMING.

Mr. and Mrs. Hartley Packer, who moved recently into their new bungalow on Fremont avenue, gave a housewarming to about fifty friends last night in celebration of their wooden wedding anniversary. The decorations were of pink sweet peas and ferns.

SOUTH PASADENA NEWS.

Dr. Lillian Whiting entertained the S.S. Club Friday evening at her home on Fair Oaks avenue. A feature of the evening was a synopsis given by Prof. Whiting of a lecture he had heard delivered by Dr. Durfries, a distinguished scientist and authority on plant culture.

Mr. and Mrs. G. W. Burt spent Saturday and Sunday at San Dimas, visiting with Mr. Burt's brother and friends from Denver, Colo.

J. S. Galiely, who has for some time been one of the directors of the Cawston Ostrich Farm Company, has been appointed manager of the Ostrich Farm, succeeding George Fairhead, who resigned.

The stereopticon lecture given last night by Clifford Walker in Magonigle Hall for the benefit of the fountain fund of the Women's Improvement Association, was well attended. He spoke on the holocaust at San Francisco. To further increase the fund the ladies of the improvement association served ice cream and cake during the evening.

The young people of the Baptist Church gave a "Mother Goose" social last evening at the home of Mr. and Mrs. Rhodes on Magnolia avenue. The company divided into groups, and acted out Mother Goose rhymes. Refreshments were served.

Mr. and Mrs. Charles Boynton, who were married recently in San Bernardino, and who have made their home in South Pasadena, were tendered a reception by their friends in Pasadena last evening.

Children's Day was observed in the Methodist and Baptist churches today.

Maj. H. N. Rust has recovered from his illness, and is able to take carriage rides.

J. B. Soper, who has been seriously ill, is recovering.

Walter Zachan of Los Angeles visited friends here today.

WHITTIER GRADUATES.

Preparatory and Collegiate Classes of College Hear Baccalaureate Sermon.

WHITTIER, June 10.—A class of sixteen students from the preparatory and collegiate departments of Whittier College listened tonight to the annual baccalaureate sermon, preached by Rev. Allen Jay of Richmond, Ind.

The service was held at Friends' Church, which was filled to the doors with the friends of the young graduates. Decorations of fern and sweet peas had been arranged, and special music was given, the principal number being a soprano solo, "Come Unto Me," by Coeman, rendered by Miss Anna Sargent.

Rev. Jay, whose train was delayed so that he only arrived from the East a few hours before the service, spoke from Revelations 3:21. "To him that overcometh will I give to sit on my throne." In spite of the fatigue which the eloquent divine felt from his journey, the sermon was a forceful, practical exposition which closely held the attention of his hearers.

The graduates to whom the sermon was addressed were, from the college department: Misses Mabel J. Smith and Clara Imelda Tebbetts; from the preparatory department, Misses Edna Andrews, Claren Cook, Claire M. Edwards, Alice E. Johnson Mary F. Johnson, Hannah Milhous, Elsie Marshburn, Helen Whallon; Messrs. Preston Osborn, Paul E. Todd, Austin Marshburn, Herbert Tebbetts, Ray Adams, Lee Newby.

WHITTIER WHIFFS.

Miss Estelline Jackson last evening became the bride of E. A. Hamm, one of the employés of the Central Oil Company. The ceremony took place at the home of the bride's uncle, Curtis E. Jackson, in East Whittier, and was witnessed by fifty relatives of the principals. Rev. Thomas Armstrong officiated. The house was decorated and a repast was served. Mr. and Mrs. Hamm have gone on a honeymoon trip. On their return they will reside here.

The public schools were closed this week with exercises. A class of twenty pupils graduated in the High School course.

Sunday evening Rev. Allen Jay of Richmond, Ind., will deliver the baccalaureate sermon of the graduating class of Whittier College. The service will be held at 7:30 p.m. at Friends Church.

DOLGEVILLE TOWN TOPICS.

DOLGEVILLE, June 10.—All departments of the Dolge felt mills are running in good shape, and large orders for felt goods continue to be received by the company.

Eastern parties have purchased the Pickett Block, on Palm avenue, with the expectation of improving and occupying the same some time in the near future.

Miss Pearl Bush has gone to the State of Washington for a month's visit with relatives.

Six members were received into the Bethlehem Church last Sunday night. The membership is now fifty.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

BOTANISTS OFF FOR DESERT.

WHAT OVER SAN BERNARDINO MOUNTAINS ON TRIP.

Two Searching Parties Now in the Field in Quest of Things New and Curious to the Plant World, Especially Forage Plants of Rare Nutritability.

SAN BERNARDINO, June 10.—A party of botanists started up the San Bernardino range this morning on their way to the Mojave Desert to collect specimens for the University of California and the Academy of Natural Science in San Francisco. They will be journeying along the mountains for several weeks, covering the ground poached by S. B. Parrish, a botanist. Another party headed by H. M. Hall, instructor of botany in the University of California, is working across the desert, and each week is shipping the results of the trip to the university. The searchers are giving especial attention to forage plants with a view to developing a grass that will withstand intense heat and drought.

WOMEN CHOOSE REDONDO.

Fifteen fair shopmen have decided to take their summer outing at Redondo this year, and will leave for that resort on the morning of June 20, the trip being furnished free by the merchants. The merchants and real estate men met yesterday to discuss the advisability of turning down of the women's advertising committee, and decided to call a conference with the committee. This will be undertaken through the good offices of Manager Todd, should that official favor the business men's efforts to have a personal meeting with the committee.

BEATEN HORSEWHIPS WIFE.

Thomas of the name of Woodruff whipped his wife with a buggy whip in the presence of a number of citizens on the race track yesterday, although he was made the object of the threats of bystanders, no attempt to punish him was undertaken. It seems that the wife were driving to the track when she remonstrated with him for his reckless driving, and free use of the whip on the horse. He then vented his rage upon her, some persons stating that he broke the whip over her shoulders. She wept hysterically most of the afternoon, but refused the protection of the people.

DROWNING INFANT'S DEATH.

The baby, supposed to have been killed by its mother at the County Farm, was buried today, on instructions from Coroner Pittman. The latter is investigating the case, and will make a report to the Sheriff and District Attorney tomorrow. The Coroner and Superintendent Strong of the Farm say the infant came to its death naturally. The woman's husband declares that he believes her to be innocent of the charge that she deliberately strangled her child to death.

MOUNTAIN FIRE.

A mountain fire started by campers in the head of Reche Cañon, southeast of Colton, this afternoon, was reported tonight to be beyond control of rangers, and serious damage is expected in the watershed through the cremation of underbrush.

"INDIGNATION" MEETING.

Santa Ana People Inquire Into Action of Board of Education—Prof. Templeton's Troubles

SANTA ANA, June 10.—A public mass meeting is scheduled for Monday night to inquire into the action of the Board of Education in accepting the resignation of Prof. J. C. Templeton, Superintendent of City Schools. A meeting was held Saturday night in the rooms of the Chamber of Commerce, which was attended by many prominent citizens. Considerable indignation was expressed on the alleged arbitrary action of the school board in selecting a successor for Prof. Templeton's place before he had tendered his resignation. The trouble between the Board of Education and Prof. Templeton dates back several months, when the former body refused the public school teachers of this city permission to attend a convention in Los Angeles. Prof. Templeton stood by his teachers in their demand for the right to be present at the convention, and, it is said, the board then commenced to plan for a successor to Prof. Templeton. The gentleman will not talk for publication at present, but it is understood that a statement of the true facts in the affair will be made tomorrow night, and if reports are to be relied upon, some startling disclosures regarding the methods pursued by the Board of Education will be made.

ITEMS OF INTEREST.

The annual meeting of the Farmers' Mutual Fire Insurance Company of California will be held in the Council chamber at the City Hall Tuesday, June 12, at 10 o'clock. This is a State organization, and it is expected that each county will be represented. Some interesting papers on fire insurance are to be presented.

It is reported that local attorneys have been investigating whether the city is responsible for the maintenance of the streets after they have been paved to the satisfaction of the Street Superintendent, and accepted by the city as a part of the municipal property. It is contended that property owners who pay the first cost of street paving are not responsible for keeping them in perpetual repair.

Local physicians are greatly exercised over an alleged interview with Dr. Ralph Williams of Los Angeles, in which that gentleman is reported to hold the opinion that the Santa Ana doctors erred in their diagnosis of the recent case of leprosy. It is said the matter will be brought up at the next meeting of the Orange County Medical Association, and the findings of the examining physicians submitted. The case will then be placed before the Southern California Medical Association, with a request for a full investigation.

The Orange County Game and Fish Commission will meet at the City Hall Tuesday evening at 8 o'clock. It is said that matters of importance will then be taken up.

ANAHEIM STUDENTS GRADUATE.

ANAHEIM, June 10.—The commencement excercises of the high school were held at the operahouse Friday night. Prof. R. W. Kelsey, of whittier college spoke on "A Vision of the Best Life." There was a large attendance. The graduates are Agnes Rimpau, Isabelle Richards, Anna Schumacher, Theodore Dickel, Fayette Lewis and Edward Merritt.

The ninth, tenth and eleventh grades of the High School gave a reception Thursday evening in honor of the graduating class.

W. F. Schimming of Canada has bought a ten-acre ranch from A. F. Fielder, two miles west of town.

O. S. Davis has purchased a 50 foot lot from F. H. Hollingsworth on Philadelphia street and will erect a $2,000 residence.

John Hartung, vice-president of the First National Bank has recovered from illness.

Arthur Lewis has let a contract to Strehle & Tedford to build a $1200 house on Chartres street.

HIGH SCHOOL PLAY.

Produced at Close of Graduating Exercises in Ventura—Was Written by Students.

VENTURA, June 10.—Graduating exercises of the local High School ended Friday night with the presentation of an original play, written and produced by the students. The exercises marked the seventeenth annual in the history of the school and there was a large crowd out to congratulate the sixteen students who have ended their High School days.

The graduating class is composed of the following: Blanche A. Thurmond, Dora N. Sewell, Bertha L. Stahl, Thomas W. Snell, Eva E. Rasmussen, James H. Roth, Grace M. Ready, Richard G. Percy, Helen M. Hall, Leonore L. Hund, Mabel A. Hooker, Florence C. Gandolfo, May Bard Crothers, Christina B. Binns, Nora Foster and Eva M. Sexton.

The play was staged and conducted under the auspices of Miss Henry, of the High School faculty, who has shown herself on previous occasions an adept in this class of work. Diplomas were presented to the successful pupils by E. P. Foster, president of the High School board of trustees.

ITEMS OF INTEREST.

Apricots and apricot pits are still on the jump. The price for dried apricots has advanced to 12½ cents per pound, while the pits are bringing $18 the ton, twice as high as they have ever been. It is reasonably certain that the dried fruit will go to 15 cents a pound, and, though the pits are now nearly all sold, it is expected that the last of them will go to one cent an ounce, or $20 per ton on the clean-up.

George E. Hart, representing a syndicate of Los Angeles capitalists, has secured the Hueneme wharf and all the water front of the town and it is stated on good authority that he will immediately take steps to convert Hueneme into a seaside resort by the erection of suitable bath-houses, hotels, etc.

Prof. F. A. Wagner was yesterday chosen principal of the local High School, to succeed Prof. Tenny, resigned. The new principal, up to the time of the recent disaster at the North, was head of the San Francisco Normal School and comes recommended as an educator of high standing in the State.

ELSINORE SCHOOL EXERCISES.

ELSINORE, June 10.—The graduation exercises of the Elsinore Union High School, were held Friday night in Bank Hall. The only graduate this year was Glen Torbett of Wildomar.

Saturday evening the High School gave a banquet at the Lakeview Hotel, the former as well as the present members of the High School being present.

Among the recent arrivals at the Lakeview are: F. W. McCulloch and wife; J. E. Ward and wife, Long Beach; F. H. Gillmore, G. R. Love and wife, Los Angeles.

Mr. and Mrs. Boyle and daughter arrived from Los Angeles today to visit with their daughter, Mrs. Will McClintock.

Mrs. R. F. Porter, of Fullerton, who spent the past three weeks in Elsinore, has returned to Fullerton.

school has organized a boy's orchestra and, under the leadership and instruction of Signor Berardenelli, the tuba of the Royal Italian Band, will add to the musical portion of the Sunday-school exercises.

After months of delay, the new Long Beach Hospital has been accepted from the contractors, the furnishings are being placed in the rooms and four of these are now ready for patients. It is a valuable addition to this city, as hospital cases heretofore have been sent to Los Angeles.

Rev. Andrew F. Mitchell, for eighteen years principal of the Friends' Academy at Bloomingdale, Ind., has accepted a call to the church at Long Beach. He is looked upon as a strong leader and will add to the strength of the religious forces in this community.

J. T. Musgrove of this city, has a son who graduated this year from Harvard University, with honors, winning one of the three Bowdin $200 cash prizes and also a scholarship in philosophy which carries with it a cash stipend of $150.

This week Messrs. W. E. Hinshaw, B. F. Bond, F. A. Crowe, B. F. Barnes, C. E. Smith, and W. J. Hinshaw leave for a month's hunting trip in the Mt. Whitney country.

Flag Day will be observed in Long Beach Thursday afternoon with appropriate exercises at the sun parlor. A flag drill by small children will be one of the features.

The school board has reelected the janitors of the various schools in the district. Provision has also been made for the care of the school grounds during the summer vacation.

ALHAMBRA NEWS ITEMS.

ALHAMBRA, June 10.—At the grammar school building Friday afternoon there was a creditable exhibit of the work done by the pupils in the several departments—during the past year—in drawing, music and studies. There was a programme of interesting exercises by the pupils, and later the teachers gave a reception to the visitors.

By request, the Alhambra Military Band will give another concert at the auditorium on the evening of June 14. It will be in the form of a benefit, and a large turnout is expected.

Exercises in connection with the closing of the High School year will take place on Thursday and Friday evenings, June 13 and 29, the graduating exercises proper taking place on the latter evening. The grammar school closes for the term next Friday.

The Alhambra Masonic Temple Association has declared a 6 per cent. dividend, which shows that the investment has proved a good one.

Mrs. Howell, one of the grammar school teachers, has rented the Burr cottage, and will occupy the same with her son, who is now in Los Angeles.

On Sunday, June 17, there will be a great union celebration of Children's Day by all the Sunday-schools of Alhambra, San Gabriel and Dolgeville. There will be a big parade, headed by the band, from the Methodist Church to the High School auditorium, where a fine programme will be carried out.

The June meeting of Chapter "N" of the P.E.O. organization met at the home of Mrs. Husher on South Alhambra street. There was a number present from Los Angeles chapters. The programme for the day was domestic science, after which a unique luncheon was served.

LA CRESCENTA AWAKENED.

LA CRESCENTA, June 10.—La Crescenta to the front! This was the unanimous slogan of the large gathering in the La Crescenta Church in response to a call for organizing an improvement society. The edifice was crowded, nearly every citizen of the valley, both male and female, being present. It was the general sentiment that La Crescenta is undoubtedly the least known district of any in the environs of Los Angeles and that this state of affairs should be changed as for scenic beauty, healthful air and excellent advantages there is no place in all the region that excels La Crescenta. A permanent improvement organization was effected and committees appointed. A public campaign will be inaugurated at once.

Your Druggist Will Tell You
That Murine Eye Remedy Cures Eyes, Makes Weak Eyes Strong, Doesn't Smart. Soothes Eye Pain and Sells for 50 cents.

WAVES DAMAGE NEW BULKHEAD.

STRUCTURE AT VENICE MAY NOT BE A SUCCESS.

Entertained by Some That Whole Arrangement Will Be Washed Away by Water During High Tide—Thousands Throng the Beach and Get Sight of Big Shark.

VENICE, June 10.—After about $10,000 has been expended on the construction of a bulkhead to protect the ocean front of Short Line Beach, the property owners are now wondering if the structure will endure and accomplish the result sought for. During recent high tides the bulkhead has been undermining the waves from undermining the sand in the front, but the structure has received such a battering that it is feared by many that it will follow the shifting sands to the blue sea and leave the foundations of the pier again the prey of hungry waves.

The beach just south of the end of the bulkhead considerable damage has been done. The waves sweep in under that carries the sand down ten. Where one year ago was a gentle sloping stretch the waves have encroached and there line has advanced more than a hundred feet toward the east, forming a perpendicular step-off of from six to ten feet and the entire section has been washed into the sea. There are no longer any bathing on the ocean front, and at high tide the waves wash under the bathing houses and dash against the floor. Under several of the houses the sand has been washed away to a depth of a dozen feet, and they are standing on piling that threatens to have the buildings from settling into the sea.

REFUSES TO MOVE RESIDENT.

Mrs. Mary O'Brien's house is thus left, but she says she has no intention of removing it. She says she has been living and have a ship yard, and is of the opinion that the property owners and property will do their heads together and devise some plan to break the force of the waves and solve the problem will be for she thinks the result of such action is sure to cause the tides to recede and they have removed the ocean front in practically the condition as it was before the breakwater was built. It is believed that the breakwater is responsible for the shifting currents which cause the damage. She has suggested that a considerable study be given to further extend the breakwater, which would simply turn the current farther to the south, and the damage of the beach south of the breakwater would be one of damage. She advocates the construction of jetties at this point.

ARRANGEMENTS AT BEACH.

Sunday of real summer weather brought the largest crowd to the beach in many months, fete days excepted. There were people everywhere. The auditorium, midway and pier were jammed, the latter with bands playing, gondolas gliding, miniature locomotives hurrying, motor boats racing, and the lifeguards worked overtime, but were in happy mood. The hosts came early and by various routes and sundry classes of vehicles. Thousands of people who had never feasted their eyes on a genuine shark enjoyed that pleasure while making an examination of the twenty-seven-and-a-half-foot member of the blue-nose species that was captured in a net here Friday night.

As many people as could crowd themselves into the Auditorium heard the Italian Band play Paul de Longprey's new selection, "The Anthem of Liberty." This was the first public rendition of the composition, and it was well received.

VENICE PARAGRAPHS.

The Valley Hunt Club of Pasadena enjoyed a picnic here yesterday, coming in two special electric cars. The skating rink was chartered for a couple of hours, and dinner was served later aboard the ship. At the same time George H. Peck was entertaining a special party from San Pedro.

Mrs. Abbot Kinney has started for New York. From there she will sail for the Old World, where she will pass the summer in travel.

At a meeting held in the Oriental Exposition building last night the Santa Monica Bay Press Club effected permanent organization. Charles E. Lovelace was elected managing editor, and it was decided to meet in business session once a month. Social gatherings may be held often. Club quarters will be fitted up in the Auditorium. The membership embraces all the news writers of the bay section.

Centralization being the order of the day, the newly-organized Lawton company is about to take over the management of the Auditorium, Cabrillo and St. Mark's Hotel and Café. The new corporation is capitalized for $100,000, and Frank Lawton is slated for the general managership, although the officers have not yet been elected.

HIGH SCHOOL GRADUATES.

Twenty-two in Long Beach Class Hear Baccalaureate Sermon—"Life's Dream and Its Answer."

LONG BEACH, June 10.—Fourteen pretty girls in white and eight young men, representing the High School graduating class of '06, followed by the High School faculty, occupied front seats in the First Presbyterian Church this morning, to listen to the baccalaureate sermon delivered by Rev. Josiah Sibley. The church was prettily decorated in the class colors, green and white, and music was furnished by a special chorus of twenty voices, which rendered Mendelssohn's "I Waited For the Lord," and Jacoby's arrangement of Adams's "Holy City."

Rev. Sibley's subject was "Life's Dream and Its Answer," taking his inspiration from Daniel 2:27: "The secret which the king hath demanded cannot the wise men, the magicians, astrologers and soothsayers, show unto the king. But there is a God in heaven that revealeth secrets."

The sermon was along the line that young people just on the threshold of the world are dreamers, and their sole idea is achievement, but they will discover that neither science nor philosophy can interpret, and that the answer must come through Christ and an abiding faith in Him.

This week marks the closing of the year's High School study. The class this year numbers 22, the same as last year, the gentler sex in the majority. Both the salutatory and valedictory honors, however, were carried off by the boys, the former by Max Church, the latter by Bryant Wilson.

The graduating class comprises Alice Brewer, Estella Merchant, Lena Coughran, Cora Schenrer, Clara French, Bessie Watkins, Alice Reynolds, Lauretta Butters, Dora Hamble, Nora Taylor, Ruth Gerard, Eleanor Adams, Caroline Harnett, Millie Wielenman, Mildred White, Gordon Gundry, Jesse Bacon, Max Church, Hugh Linn, Edmund Petrie, Lester Wolcott, Roy Bailey and Bryant Wilson.

Tuesday evening at the tabernacle, the class farce "The Maneuvers of Jane," will be given by the seniors under direction of Garret Holme, of Los Angeles, with Miss Lena Coughran in the title role.

Friday night the commencement exercises will be held at the auditorium and on Saturday nigh the graduates will be banqueted by the Alumni Association.

BEACH BREEZES.

That the summer vacation has truly arrived was evidenced today by the immense throng at the beach and the sands from Alamitos to Golden were black with people today, while the long pier was a kaleidescope of blending colors. The surf, concerts and ocean rides were strong attractions, and conservative estimate would place the crowd of visitors alone at 15,000.

The chief society event for this week is the double wedding at high noon Tuesday at the home of the brides, Misses Grace and Mabel Olive Dower, No. 635 Olive avenue. Invitations to the number of sixty have been issued. There will be no bridesmaids but little Miss Tessa Polkinghorn will be the ring bearer for Miss Grace, and Master Harold Horsch will perform that task for Miss Mabel. The brides will be dressed alike in rich creamy mull over white silk, and the tiny flower girl will wear the same. Miss Mabel will wed Claude Hagle and Miss Grace will wed Leroy Twaley.

Representatives from ten different young people's societies of this city, representing the Epworth League, Christian Endeavor, and Baptist Union, have formed a federation of all the organizations with a view to securing clean amusements, stricter temperance observance and better Sundays in Long Beach. The introduction of auto and yacht races are deplored as well as keeping open business houses on the Sabbath.

Women of Woodcraft have elected the following officers: Guardian neighbor, Leliah Brown; advisor, Olive Brown; magician, Nellie Pearson; attendant, Cora Koons; monitors, Nellie Brashear and Kate Hopkins; outer guard, Cora Bennett; sentinels, Ethel Williams and Mary Conrad.

In addition to the educational features of the Chautauqua season, July 9-21, much attention has been paid to the lighter forms of entertainment, and the management has secured Rosani, a juggler and Capt. Jack Crawford, scout. The Royal Italian Band will appear on the opening night. Another concert will be given by the Treble Clef Club of fifty members, while the prelude work of all the sessions will be furnished by the Pomona Glee Club.

The board of City Trustees, after holding office about six weeks, and getting a knowledge of the difficulty of maintaining a city of 20,000 people under sixth class privileges are unanimous in the conclusion that a special charter is the paramount and governing question at this time, and no time is to be lost in taking the preliminary step.

Failing Strength
A weak and exhausted condition usually follows overwork, too close confinement, or unusual mental strain. Every day a certain amount of vitality is consumed, and if not replenished by sleep, rest and nourishment, soon wrecks the nervous system. The results are sleeplessness, headache, indigestion, imperfect circulation, etc., which affects the organs of the body.
Restore your nerve strength—your vitality, with Dr. Miles' Nervine, and your whole system will recuperate. Your sleep will be sound and refreshing, headaches will disappear, and digestion improve.
"When I began taking Dr. Miles' Restorative Nervine I was physically in a very bad condition. I was weak and exhausted, and hardly able to keep up. I could not eat sufficient to keep up my strength. I suffered greatly from sleeplessness, and got very little rest. The Restorative Nervine soon brought refreshing sleep, and I gained rapidly in strength until I was fully restored. I have since taken it whenever I have felt the need of a nerve tonic, and always with very satisfactory results."
WM. A. CLARK, Rockford, Ills.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Writer Visits Us.

Enos Brown of Berkeley, Pacific Coast correspondent of the Scientific American, and a writer of some prominence on scientific subjects, is visiting the city on professional business.

Flowers Are Wanted.

Flower Mission Day will be observed Tuesday, June 12. Any one who can send flowers are asked to send them Tuesday morning to the Temperance Temple. The school children in many schools will contribute bouquets.

Broke His Jaw.

T. Hagan, who came here recently from Wisconsin, and residing at the Workingmen's Home, was assaulted near that place last night by an unknown man, who broke Hagan's jaw with a terrific blow when the latter refused to purchase a bottle of beer.

Picnic in Rubio Canyon.

The Sunday-school of the Central Baptist Church held a picnic at Rubio Canon Saturday which was attended by about 250 members. The Pacific Electric Company supplied a sufficient number of cars to provide everybody with seats. The day was spent in enjoying various sports and in mountain climbing.

Worship Under the Stars.

A novel open-air service was held last night on the spacious lawn in front of the Union-Avenue Methodist Church. The pastor, Rev. H. W. White, preached with the front porch of the building for a pulpit. Several hundred attended and the meeting was so successful that the outdoor vesper service will be continued through the summer months.

It Exploded, of Course.

Fire resulting from the explosion of a gasoline stove at about 8 o'clock yesterday morning partially destroyed the cottage occupied by George Willhite and family at No. 2651 Fairmont street. Fortunately no one was injured by the explosion and the flames were extinguished in quick time by the fire department. The rear of the house was burned, entailing a loss of $900, while the damage to the contents of the building amounted to but $25. Both losses are covered by insurance. The building is the property of J. B. Binent.

Their Tour Soon Ended.

Ray McCrosby, aged 12, No. 1206 Mateo street; George Murphy, aged 12, No. 1454 Willow street; Levi Wilcox, aged 13, Mateo street, set out on bicycles Saturday, armed with two 22-caliber rifles, three 38-caliber revolvers, with the avowed intention of making a tour of California. The police department was informed of the disappearance of the lads by Mrs. G. McCrosby, mother of the McCrosby boy, and last night the three adventurers were returned to their respective parents. Constable J. M. Ybarra of San Fernando discovered the boys riding their wheels near Newhall, and took them into custody under instructions from the local police. The lads were detained at the headquarters of the detectives last night upon their return to Los Angeles, and turned over to their parents.

BREVITIES.

CANTATA A SUCCESS.

Church Fair Given at Unity Edifice Proves One of Season's Musical Events.

The cantata and fair for which the ladies of the Unity Church, corner of Ninth and Flower streets, have been diligently preparing for several weeks, came off at this church last night under auspicious circumstances, an unusually large crowd being in attendance. The edifice was entirely filled.

The feature of the evening was the cantata by Dubois, "The Last Seven Words of Christ." It is said the piece affords a classic scope for impressive singing, which was taken advantage of with unusual success. Solos were rendered by Mrs. Frank Colby, J. H. Vinck and Charles Bowes.

The cantata was given under the personal direction of Frank H. Colby. The chorus consisted of the following: Mrs. Rush, Miss Godfrey and Miss Huist, sopranos; Mrs. Godsmark, Mrs. I. H. Bacon and Miss Medlot, altos; Dr. Magee, Edward Cunningham, tenors; W. F. Gates, W. J. Francis and C. R. Peele, bassos. Miss Wilcox presided at the piano, and H. S. Fuller at the organ.

COLLEGE VESPER SERVICE.

The Young Men's and Young Women's Christian associations of Occidental College held a vesper service yesterday at 4 o'clock in the Highland Park Presbyterian Church. It was the last communion of the college year and the service, which was conducted by the Rev. Cyrus B. Hatch, late of Pittsburgh, was very impressive. A trio, composed of the Misses Cumberland and Miss Gordon, sang two selections.

Both associations have done very effective work this year. The meetings have been held regularly each week, and have been entirely under the management of the student body. Young people from the other southern colleges have had charge of the meetings several times, and a large number of students are members.

The new cabinets for next year have just been elected. A. G. Paul, '08, will be president of the Y.M.C.A., and Frances Gordon, '07, will be at the head of the Y.W.C.A.

ARRESTED FOR ROBBERY.

George Baterge of No. 414 North Main street complained to the police last night that he had been robbed of $40 in a North Main-street lodging-house. Blanche Stewart was arrested and booked at the Police Station on suspicion in the case.

Baskerville Audit Company.

DID MAN GIVE "DOPE" TO GIRL?

SHE FALLS ON STREET AFTER A TRIP ABOUT THE CITY.

Miss Myrtle Champion Taken to the Receiving Hospital Where Surgeons Find That She Had Drank Chloral. Drug Is Thought to Have Been Given to Her by Escort.

Claiming that she had been drugged by a man whose name she did not know, Miss Myrtle Champion, aged 19, of Echo Park Road, was taken to the Receiving Hospital last night from the Los Angeles-Pacific Railway station on West Fourth street. The girl said she had spent the afternoon in the company of a young man who had treated her to beer and ice cream.

About 10 o'clock last night, Miss Champion complained to her companion that she was not feeling well. The couple then visited a drug store. The man entered and returned with a small bottle of medicine which Miss Champion drank, believing it would alevate her pain.

A few minutes later the girl fell in a faint, and was taken to the hospital.

The hospital surgeons gave her an emetic. They believe an attempt was made to "dope" her. Chloral was the drug used, according to the surgeons.

The girl was able to leave for her home in charge of her parents, who were summoned at midnight.

The girl stated that she had been introduced to the fellow during the afternoon by a man named Clayton of Hollywood. She said she could not remember her companion's name.

The unknown man disappeared before the arrival of the ambulance, and could not be found by detectives from the Central Police Station.

EXECUTION IS DELAYED.

Man Convicted of Murdering Mabel Page Will Be Baptised Before Hanging.

[BY THE ASSOCIATED PRESS—P.M.]

BOSTON, June 10.—Charles L. Tucker, who, in the Charlestown prison, is awaiting execution for the murder of Mabel Page, has at least one more day of life.

Contrary to custom, Tucker will not pay the forfeit of his crime early Monday morning. The warden of the State prison will not say when the sentence of the court will be carried out, but it is known positively that Tucker will will not be executer before midnight tomorrow night.

The execution will be delayed so he can receive the rites of baptism. Tucker still maintains stoutly that he is innocent. His remarkable calmness and courage has not deserted him.

Paper Money on Coast.

"Soft" money has been tried in San Francisco since the disaster, and, apparently to the surprise of the people, found to answer every purpose of the gold and silver they formerly handled. If it remains in use there the circumstance will constitute one of the radical differences between the old San Francisco and the new. Heretofore paper money in that city has been used only at the banks and hotels. In the ordinary channels of circulation there was none of it. The wage-earner received his pay in coin, with it paid his living expenses, and so seldom saw a bank note that he hardly realized the existence of such a medium; while the small shopkeeper refused paper money when tendered by a stranger on the plea that he was so unfamiliar with it that he could not tell the real from counterfeit.—[Philadelphia Ledger.

VITAL RECORD {BIRTHS, DEATHS, MARRIAGES.

Deaths.

SPRINKLE. Lola Naomi, wife of N. F. Sprinkle of Redondo, died at 5:30 p.m., Sunday, June 10, 1906, aged 25 years. Funeral Monday, June 11, at 2 p.m., from Evergreen chapel. Friends invited.

Buy Today--Pay Afterwards

Our credit plan is founded on a broad, liberal, desirable basis. We do not charge double prices to those who ask credit. We offer you the advantage of low prices and decidedly easy terms. If you want furniture, but your funds are limited, let's talk it over. You'll appreciate our easy terms, low prices and liberal, broad-gauge dealing.

Furniture for the Porch
Strong, Cool, Comfortable, Inexpensive

All the desirable and essential features of porch furniture may be summed up in these four words—strong, cool, comfortable, inexpensive. Recent shipments having just arrived, make our assortment one of the most complete in Southern California. We have a full line, embracing every good quality from the least expensive to the finest made. Wooden furniture, painted in bright colors or shellacked; cane seat furniture; old hickory furniture; silver maple furniture; arm chairs, rockers, settees, tables—all that's newest and best. For value, we can't be excelled.

SPECIAL—A popular style hickory porch rocker; sold regularly at $3.50 (and often more in other stores,) specially reduced for this week only $2.75

Iron Beds That Are Made Right

The new lines of iron beds we are now showing are so far superior in construction and material, that every householder who expects to buy a bed should come here first of all. Many iron beds are made with ordinary gray iron castings that break with the least jar and after limited use allow the rails to work loose and sag. The beds we sell are made with malleable iron castings that will not break, even under a blow from a sledge hammer. Nor will they wear away and allow the rails to sag. Let us demonstrate to you, the point in this iron bed question. Come in and inspect our handsome new styles at every price from $4 to $25.

A Timely Offer: $16.50 Refrigerators $12

Hot weather is here. If you haven't a good refrigerator you need one now. Buy it here and save $4.00. We offer a good large refrigerator made of fine materials and constructed in the most scientific manner; well worth $16.50 and always sold at that. Specially priced at $12

212-214 WEST SIXTH STREET
